First published in 1975, *Opening the Door* is a survey of policies and problems in services for the mentally handicapped. It describes the improvements which have taken place since 1969, when the inquiry into conditions of patients at Ely hospital in South Wales stimulated public concern into the quality of life of many mentally handicapped people in hospital. The authors discuss the continuing gap between the idea – as laid down in the 1971 Government White Paper, *Better Services for the Mentally Handicapped*, which set out a blueprint for development in the 1980s that was to make the antithesis of ‘hospital’ or ‘community’ obsolete – and the reality. The study is based on detailed work in one Region by a team of staff and postgraduate students in the Department of Social Administration and Social Work at the University of York. The survey covers hospital provisions, with special attention to nursing attitudes and to problems of the ‘back wards,’ the relationship between hospitals and their surrounding communities, and the development of local authority social work and residential care services. This book will be of interest to students of social administration, social policy and health.

Friend and rival of Shakespeare, Ben Jonson was one of the most learned and interesting men of his age. Throughout his fascinating life, he served not only as a bricklayer but also a soldier, an adventurer, an actor, a poet, and a playwright. The breadth of his experiences, acquaintances, friends, and enemies was legendary, and his literary canon is equally as diverse. The Ben Jonson Encyclopedia covers in detail the works, life, and times of this seminal figure of the English Renaissance. The cross-referenced entries include summaries of all Jonson’s plays, masques, and entertainments, as well as sketches of Jonson’s friends, enemies, patrons, disciples, actors, and fellow writers. In addition, the book identifies historical figures, mythological characters, and classical authors, as well as Jonson’s contemporaries and London place names mentioned in the works. Individuals who danced or participated in the masques and entertainments or tournaments for which Jonson wrote speeches are noted, as are the main actors known to have acted in the plays. All major scholars—from Jonson’s own day until the twenty-first century—who have commented on Jonson or his works are also included. An extensive bibliography completes this invaluable scholarly reference tool. Because of Jonson’s centrality to—and influence in and beyond—his age, this encyclopedia provides a dynamic, unparalleled vision of the English Renaissance literary scene. Capturing the depth and breadth of Jonson’s understanding of early Modern England, *The Ben Jonson Encyclopedia* will be especially useful for students, librarians, and academics interested in the literary and cultural scene from 1500 to 1650.

South Africa looms before thousands of refugees from across all Africa as the land of milk and honey. They flee conflict and hardship, they leave behind home and loved ones – only to face the harsh realities of living in a foreign, sometimes hostile country. Their longing to be reunited with their families brings them to the doors of the South African Red Cross Society. *Of Loss, Hope and Healing* is the account of a woman who reconnects displaced family members as part of the Red Cross Restoring of Family Links programme. The true stories in this book offer an insight into the ability of individuals to survive despite heartbreaking odds. Little wonder then that such a working environment would uncover in the author, too, a history of emotional displacement. Interwoven with the bigger story of African diaspora is her own story as she confronts her own, troubled relationship with family in this honest and moving account of human triumphs over inhuman adversity.

This book discusses management of communication disorders in the psychiatry of old age. The contribution of the speech and language therapist is the focus of the book, but this is described within the context of the multidisciplinary team. Language change and language assessment in psychiatric disorders associated with old age, especially dementias, are described in detail. The form of service delivery offered is fundamental to the speech and language therapy intervention that can be offered to this complex and often neglected client group. A management perspective and service delivery in the USA and in the UK are described. Working with carers, service delivery in the community, an innovative scheme involving residential homes, a review of how community care initiatives have affected speech and language therapy services and an analysis of service audit are all included. As well as giving a description of speech and language therapy intervention with the elderly who have psychiatric disorders, the book also highlights the issues and challenges facing clinicians who work within the reformed health service. It should be of considerable interest to speech and language therapists, other health care professionals and students who work with older mentally ill people. Purchasers and managers who are commissioning and providing services for the older population with psychiatric disorders should also find the book useful.

'A beautiful story of friendship, new beginnings and love . . . It's a love letter to the women who left behind everything to help heal our country and establish the NHS. I could not have loved this more and thought about it long after I turned the last page.' - Kate Thompson, author of *The Little Wartime Library* Inspired by real life stories of the Windrush Generation and her mother’s own experiences as a nurse coming to Britain from the Caribbean, Sarah Lee’s debut novel *An Ocean Apart* is a must for fans of *Call the Midwife*. It’s 1954 and, in Barbados, Ruby Haynes spots an advertisement for young women to train as nurses for the new National Health Service in Great Britain. Her sister, Connie, takes some persuading, but soon the sisters are on their way to a new country – and a whole new world of experiences. As they start their training in Hertfordshire, they discover England isn’t quite the promised land; for every door that’s opened to them, the sisters find many slammed in their faces. And though the girls find friendships with their fellow nurses, Connie struggles with being so far from home, and keeping secret the daughter she has left behind in search of a better life for the both of them . . . 'A glorious triumph of a book full of characters that feel like real friends, so atmospheric, compelling and nostalgic, I adored it.' - Alex Brown, author of *A Postcard from Italy*

Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale’s correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale’s efforts to achieve real reforms. Her well-known, and relatively “sanitized”, evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.

Back at the end of the 1970s, three hundred copies of *Neglect & Violence – Mental Nurse’s Training Manual* were released by Wombat Printing NL to friends and the nurse’s underground. Forty plus years later it is now released to the public with little danger of litigation regarding libel or defamation. The back-cover blurb for *MENTAL NURSES TRAINING MANUAL* then had it that: ‘An ex-psychiatric nurse recalls his experiences after reporting a bashing and drinking on duty to his superiors. He exposes a cover-up by the hospital authorities and the State government bureaucracy then known as the Mental Health Authority. His report details murder and suicide cases and hints at widespread cruelty and indifference. His memories and impressions of the people he met working at a Melbourne mental hospital adds colour to a subject which bears thinking about. The author’s futile exploits as a candidate in the 1973 Victorian state election makes amusing and / or alarming reading, while his analysis of shortcomings in psychiatric practice might stimulate a new deal for the bewildered victims of our dog-eat-dog civilization...’ “A must for all the up and coming maniacs.” – Gough Whitelamb in the *Daylesford Gazette*. “Lifts the lid off the sanity business.” – Clyde Pucker in the *Yea Times*. “Reading this book didn’t relieve my obsessive-compulsive-neurosis or my ethical dilemmas, but it gave me the pleasant feeling that I am not alone in this world with my belief in the prefectability of mankind through the exercise of hope fertilized by integrity.” – Malcolm Howard in the *West Wyalong Whinger*. “Whistle-blowing anti-psychiatry still resonates today.” Phil Saddams in the *Rupert Warduck Stable Report and Proceedings of the Jubilee Congress of District Nursing Held at Liverpool, 12th, 13th, and 14th May, 1909* Pan Macmillan
