This book has brought together leading investigators who work in the new arena of brain connectomics. This includes 'macro-connectome' efforts to comprehensively chart long-distance pathways and functional networks; 'micro-connectome' efforts to identify every neuron, axon, dendrite, synapse, and glial process within restricted brain regions; and 'meso-connectome' efforts to systematically map both local and long-distance connections using anatomical tracers. This book highlights cutting-edge methods that can accelerate progress in elucidating static 'hard-wired' circuits of the brain as well as dynamic interactions that are vital for brain function. The power of connectomic approaches in characterizing abnormal circuits in the many brain disorders that afflict humankind is considered. Experts in computational neuroscience and network theory provide perspectives needed for synthesizing across different scales in space and time. Altogether, this book provides an integrated view of the challenges and opportunities in deciphering brain circuits in health and disease.

Big Book of Large Print Animals Springer

The first collection in Thomas Pavitte's internationally best-selling 1000 Dot-to-Dot series features 20 iconic portraits, including Marilyn Monroe, John Lennon and Albert Einstein, to complete yourself. Dot-to-dot images create surprising pictures when all of the dots are connected, but these are also incredibly colorable! Each of these images have more than four hundred dots, so you'll experience the intricacies in uncovering the images and then be able to relax with an array of beautiful wild animals to fill with color. The dots in this coloring book form outlines of more than forty of the world's most well-known landmarks. Connect and Color: World Landmarks features some of the most famous buildings, sculptures, and structures from around the globe. Included are dot-to-dot illustrations of the Chrysler Building, Machu Picchu, Big Ben, the Empire State Building, the Great Wall of China, the Sydney Opera House, the Parthenon, and many more! Some of the pages feature images ready for you to color, while others have more involved dot-to-dot puzzles to solve and then fill with your favorite colors. This book includes forty-five images on pages perforated and printed on one side only for easy removal and display, as well as an answer key. This is the perfect book for the colorist who wants to be creative and challenged.

Pick up a copy of Connect and Color: World Landmarks, and use your colored pencil to construct the remarkable feats of architecture and design!
