The Victorian woman put initials on nearly every piece of linen and clothing she owned ? everything from handkerchiefs and blouses to tablecloths, napkins, and towels. The modern needleworker may not be quite so avid about initialing everything, but initials and monograms are still attractive and popular ways of decorating common items. This book brings you a large selection of alphabets, initials, monograms, and common

names from Godey's Lady's Book and Peterson's Magazine, the most popular American women's magazines of the Victorian era. Each is available in a variety of letter forms, so that you may find the most suitable for your sewing needs: scripts, floral, geometric, Old English, block, ornamental, and many more. Although eminently usable for embroidery, there are also a number of alphabets for crochet and needlepoint. You will find these motifs of the highest quality ? both easy to use and productive of professional-looking results. For traditional embroidery and sewing needs, these alphabets, monograms, and names are ideal but you will also find them applicable to a number of modern uses: for decorating blue jeans and hats, for patches, and even a variety of non-sewing needs.

In the Preface of the 5th Edition of *Survey of Historic Costume*, Tortora and Eubank conclude with the following: "In the history of dress at the beginning of the 21st century, costume might be compared to a constantly moving river. This river divides into many narrower channels that separate, cross, come together, and separate again, and yet that river continually moves on." Building on the previous editions, the authors update their analysis of Western dress to 2008. *Survey of Historic Costume* has, from its beginnings, taken seriously the need to accompany the text with appropriate illustrations and the major change in the 5th Edition is the move to full color throughout the book to enrich the text and the concepts. Perfect for anyone interested in historic costume, fashion, textiles, drama, and design, this beautifully illustrated book is full of interesting facts and commentary. New to this Edition:-- Over 500 four-color photographs and illustrations-- Updated text to 2008-- Additional influences from one period or civilization to another, including influences from other cultures-- Index - updated and organized to be utilized as glossary with terms defined and page numbers printed in boldface-- Instructor's Guide provides sources for visuals, websites, teaching strategies
