The Renaissance of Lesbianism in Early Modern England is the eagerly-awaited study by the feminist scholar who was among the first to address the issue of early modern female homoeroticism. Valerie Traub analyzes the representation of female-female love, desire and eroticism in a range of early modern discourses, including poetry, drama, visual arts, pornography and medicine. Contrary to the silence and invisibility typically ascribed to lesbianism in the Renaissance, Traub argues that the early modern period witnessed an unprecedented proliferation of representations of such desire. This book is a systematic consideration of the link between the extreme right and the discourse about developments in regard to gender issues within different national states. The contributors analyze right-wing extremist tendencies in Europe under the specific perspective on gender. The volume brings together the few existing findings concerning the quantitative dimension of

activities carried out by men and women in different countries, and illuminates and juxtaposes gender ratios along with the role of women in right-wing extremism. Along with the gender-specific access to right-wing groups, the chapters look at networks, organizational forms, specific strategies of female right-wing extremists, their ideologies (especially regarding femininity and masculinity), hetero normativity, discourses on sexuality, and preventive and counter-strategies. The book will be of use to students and scholars interested in gender and politics, European politics, and political extremism.
