In Dante's Commedia: Theology as Poetry, an international group of theologians and Dante scholars provide a uniquely rich set of perspectives focused on the relationship between theology and poetry in the Commedia. Examining Dante's treatment of questions of language, personhood, and the body; his engagement with the theological tradition he inherited; and the implications of his work for contemporary theology, the contributors argue for the close intersection of theology and poetry in the text as well as the importance of theology for Dante studies. Through discussion of issues ranging from Dante's use of imagery of the Church to the significance of the smile for his poetic project, the essayists offer convincing evidence that his theology is not what underlies his narrative poem, nor what is contained within it: it is instead fully integrated with its poetic and narrative texture. As the essays demonstrate, the Commedia is firmly rooted in the medieval tradition of reflection on the nature of theological language, while simultaneously presenting its readers with unprecedented, sustained poetic experimentation. Understood in this way, Dante emerges as one of the most original theological voices of the Middle Ages. Contributors: Piero Boitani, Oliver Davies, Theresa Federici, David F. Ford, Peter S. Hawkins, Douglas Hedley, Robin Kirkpatrick, Christian Moevs, Vittorio Montemaggi, Paola Nasti, John Took, Matthew Treherne, and Denys Turner.

Snow White is on the run from an evil witch when she comes across some dwarfs in the forest. They agree to take her in and keep her safe if she will help them with their chores. She soon realizes she's taking on a lot more than she bargained for. 77 breakfasts to make, 77 lunches to pack (don't forget the juice boxes!), 77 pairs of pants to mend and a whole lot of dishes. Eventually Snow White decides to take her chances with the witch. There's a surprise ending... well, it may not be so surprising. This is a hilarious retelling of the classic tale, with bright, energetic illustrations featuring busy dwarfs, and the even busier Snow White.

This book is designed as a manual for the study of fundamental moral theology. It is addressed primarily to those who are undertaking a required course of study in Catholic theology at seminaries or ecclesiastical colleges. The editorial and typographical style, the choice of topics, and the extent of material covered are intended to meet the needs of such students. Nevertheless,

we trust that the book will likewise be of interest for those who pursue theological and moral studies at a non specialist, though nonetheless serious level.

This is one of Pasolini's least known books, it is one of his most important challenges to himself and to the world. The book pits assumed Western cultural supremacy against the battle for Africa's freedom and self-assertion. The Savage Father offers a deep analysis of the internal struggles between the coloniser and the colonised, as well as showing us the externalised conditioning to which both are prey.

Guido Mazzoni tells the story of poetry's revolution in the modern age. The chief transformation was the rise of the lyric as it is now conceived: a genre in which a first-person speaker talks about itself. Mazzoni argues that modern poetry embodies the age of the individual and has wrought profound changes in the expectations of readers.

The De Malo represents some of St. Thomas Aquinas' most mature thinking on goodness, badness, and human agency. Together with the second part of the Summa Theologiae, it is one of his most sustained contributions to moral philosophy and theology. Aquinas examines the full range of questions associated with evil: its origin, its nature, its variety, its relation to good, and its compatibility with the existence of an omnipotent, benevolent God. This edition offers the Leonine Commission's authoritative edition of the Latin text with a new, clear, and readable English translation by Richard Regan with an extensive introduction and notes by Brian Davies.

Nature for Sale uncovers the rich heritage of common ownership which existed before the dominance of capitalist property relations. Giovanna Ricoveri argues that the subsistence commons of the past can be reinvented today to provide an alternative to the current destructive economic order. Ricoveri outlines the distinct features of common ownership as it has existed in history: cooperation, sustainable use of natural resources and decision-making through direct democracy. In doing so, she shows how it is possible to provide goods and services which are not commodities exchanged on the capitalistic market, something still demonstrated today in village communities across the global South. Tracing the erosion of the commons from the European enclosures at the dawn of the Industrial Revolution to the new enclosures of modern capitalism, the book concludes by arguing that a new commons is needed today. It will be essential reading

for activists as well as students and academics in history, politics, economics and development studies.

The Visio Pauli and the Gnostic Apocalypse of Paul is the first modern collection of studies on the most important aspects of the Visio Pauli, the most popular early Christian apocalypse in the Middle Ages. The volume starts with a short study of the textual traditions of the Visio Pauli, its Jewish and early Christian traditions as well as its influence on later literature, such as Dante. This is followed by studies of the Prologue, the four rivers of Eden, the place of the Ocean, the relation between body and soul, the image of hell and its punishments, and the connection with fantastic literature. Finally, a codicological, comparative, and textual re-evaluation of the Coptic translation attempts to correct earlier errors and to rehabilitate the value and interest of this long neglected version of the Visio Pauli. The book is concluded with a study of the earthly tribunal in the fourth heaven of the Gnostic Apocalypse of Paul. As has become customary, the volume is rounded off by an extensive bibliography of the Visio Pauli and the Gnostic Apocalypse of Paul and a detailed index.

Henry Sedgewick's The Methods of Ethics challenges comparison, as no other work in moral philosophy, with Aristotle's Ethics in the depth of its understanding of practical rationality, and in its architectural coherence it rivals the work of Kant. In this historical, rather than critical study, Professor Schneewind shows how Sidgewick's arguments and conclusions represent rational developments of the work of Sidgewick's predecessors, and brings out the nature and structure of the reasoning underlying his position.

Between the third and sixth centuries, the ancient gods, goddesses, and heroes who had populated the imagination of humankind for a millennium were replaced by a new imagery of Christ and his saints. Thomas Mathews explores the many different, often surprising, artistic images and religious interpretations of Christ during this period. He challenges the accepted theory of the "Emperor Mystique," which, interpreting Christ as king, derives the vocabulary of Christian art from the propagandistic imagery of the Roman emperor. This revised edition contains a new preface by the author and a new chapter on the origin and development of icons in private domestic cult.

"The Banquet (Il Convito)" by Dante Alighieri is an unfinished work which consists of four books, or, "tratatti": a prefatory one, plus three books that each include a canzone and a prose allegorical interpretation or commentary of the poem. The Convivio is a kind of vernacular encyclopedia of the knowledge of Dante's time; it touches on many areas of learning, not only philosophy but also politics, linguistics, science, astronomy, and history. The treatise begins with the prefatory book, or proem, which explains why a book like the Convivio is needed and why Dante is writing it in the vernacular instead of Latin. It is one of Dante's early defenses of the vernacular

In an example of how the literary can become a privileged medium for philosophy, his chief philosophical invention is to begin with what gives an observer pause.

A millennial examines how his generation is profoundly impacting politics, business, media, and activism They've been called trophy kids, entitled, narcissistic, the worst employees in history, and even the dumbest generation. But, argues David Burstein, the millennial generation's unique blend of civic idealism and savvy pragmatism will enable us to overcome a deeply divided nation facing economic and environmental calamities. With eighty-million millennials (people who are today eighteen to thirty years old) coming of age and emerging as leaders, this is the largest generation in U.S. history, and, by 2020, its members will represent one out of every three adults. They are more ethnically and racially diverse than their elders and have begun their careers at a time when the recession has set back the job market. Yet they remain optimistic about their future and are deeply connected to one another. Drawing on extensive interviews with his millennial peers and compelling new research, Burstein illustrates how his generation is simultaneously shaping and being shaped by a fast-paced and fast-changing world. Part oral history, part social documentary, *Fast Future* reveals the impact and story of the millennial generation—in its own words.
