Hieroglyphics of Horapollo Nilous Cambridge University Press

After a series of sex scandals rocked the film industry in 1922, movie moguls hired Will Hays to clear the image of movies. Hays tried a variety of ways to regulate movies before adopting what became known as the production code. Written in 1930 by a St Louis priest, the code stipulated that movies

stress proper behaviour, respect for government, and 'Christian values'. The Catholic Church reinforced these efforts by launching its Legion of Decency in 1934. Intended to force Hays and Hollywood to censor films, the Legion of Decency engineered the appointment of Joseph Breen as head of the Production Code Administration. For the next three decades, Breen, Hays, and the Catholic Legion of Decency virtually controlled the content of all Hollywood films.

THE FIRST AND ONLY BIOGRAPHY OF ONE OF MUSIC'S MOST INFLUENTIAL AND ENIGMATIC CHARACTERS. Dave Gahan's extraordinary life as the frontman of one of modern music's most successful bands is a tale unrivalled in rock and roll folklore. From a colourful childhood and youth in Essex, Gahan went on to become a huge star all over the world. For years each Depeche Mode album was more successful than the one before but in 1995 the increasing pressures on the band and within Gahan's personal life almost killed him. From this harrowing abyss, Gahan has bounced back and forged a new acclaimed career as a solo artist. Gahan's stunning rehabilitation as a songwriter and rejuvenated frontman means he deserves his own chapter in music history - this unauthorised biography includes new and exclusive interviews with numerous people who've worked with and around Gahan. Aside from recounting his turbulent private battles, this first ever book on Gahan examines his musical legacy and suggests he is arguably Britain's most under-rated and interesting rock vocalist. Recounted for the very first time, Gahan's tale away from his band-mates overshadows even the remarkable story of Depeche Mode - the combination of his difficult yet triumphant story plus the thrilling music he has recorded, make this a story like no other in rock and roll history.

From photographer Santiago Melazzini, maker of popular flipbooks such as *Tango Dancer* and *I Love You*, comes a special four-in-one, full-color flipbook disguised as a stack of \$100 bills. Running a thumb over the edges of the "bills" in the stack, the viewer will observe four short, satirical films on the transience of wealth. A recurring cast of characters plays roles based on stereotypes from slapstick silent movies: the wealthy, arrogant high roller; the robber in his prison stripes and domino mask; and the opportunistic showgirl. In a time of financial uncertainty gripping the world, this playful and good-natured item is a reminder that fortunes can change in the blink of an eye, but a sense of humor is an asset that, once possessed, can never be taken away.

For courses in computer programming C How to Program is a comprehensive introduction to programming in C. Like other texts of the Deitels' How to Program series, the book serves as a detailed beginner source of information for college students looking to embark on a career in coding, or instructors and software-development professionals seeking to learn how to program with C. The Eighth Edition continues the tradition of the signature Deitel "Live Code" approach--presenting concepts in the context of full-working programs rather than incomplete snips of code. This gives readers a chance to run each program as they study it and see how their learning applies to real world programming scenarios.

The rationing period during World War II was a difficult time, and yet it is remembered nostalgically as a time of unity and great sacrifice. *Make Do and Mend* focuses on clothes rationing, which was introduced in June 1940. With the nation's industrial output concentrated on the war effort, basic clothes were in short supply and high fashion was an unknown commodity. Adults were issued as little as 36 coupons a year to spend on clothes. But a man's suit could cost 22 coupons, a coat 16 and a lady's dress 11, so the need to recycle clothing and be inventive with other materials became

a necessity. The government issued the leaflets included in Make Do and Mend to advise on how best to avoid wasting valuable resources by recycling curtains into dresses and old sheets into

underwear; in short how to 'make do and mend' rather than buying new clothes. Produced from original material held in archives the leaflets are also a nostalgic showcase of forties style.
