This massive, four-volume work provides students with a close examination of 10 modern genocides enhanced by documents and introductions that provide additional historical and contemporary context for learning about and understanding these tragic events. Modern Genocide: The Definitive Resource and Document Collection spans nearly 1,700 pages presented in four volumes and includes more than 120 primary source documents, making it ideal for high school and beginning college students studying modern genocide as part of a larger world history curriculum. The coverage for each modern genocide, from Herero to Darfur, begins with an introductory essay that helps students conceptualize the conflict within an international context and enables them to better understand the complex role genocide has played in the modern world. There are hundreds of entries on atrocities, organizations, individuals, and other aspects of genocide, each written to serve as a springboard to meaningful discussion and further research. The coverage of each genocide includes an introductory overview, an explanation of the causes, consequences,

perpetrators, victims, and bystanders; the international reaction; a timeline of events; an Analyze section that poses tough questions for readers to consider and provides scholarly, pro-and-con responses to these historical conundrums; and reference entries. This integrated examination of genocides occurring in the modern era not only presents an unprecedented research tool on the subject but also challenges the readers to go back and examine other events historically and, consequently, consider important questions about human society in the present and the future.

Lui, c'est Mitia, elle : Arsène. Les personnages de François Blais, n'ont rien de banal, à commencer par le nom. Ces deux-là vivent de l'air du temps, qui serait moins cher à Saint-Paulin, en Mauricie, qu'à Québec. Aussi, aidés de la mère de Mitia, une excentrique (ça va de soi), ils fuient au petit matin leur logement du quartier Saint-Roch en ayant pris soin de ne pas régler le loyer et d'avoir, la veille, fait la tournée des grands ducs. Là-bas, sur le bord d'un lac, ils découvrent que leur nouvelle maison est hantée, rien de moins. La voix narrative chez François Blais est un bonheur de tous les instants, notamment grâce à ce qu'elle suggère de mauvaise foi et de malaise social chez les deux personnages centraux. Il se creuse un léger écart entre le propos et l'action - les scènes de beuverie sont magnifiques, justes. On se sent totalement en Amérique, en littérature américaine.

Plague has gone down in history as one of the terrors of humanity, and if there was perhaps but one word that conjured fear in the minds of people centuries ago it would have been that of 'plague'. Without any understanding of germ theory physicians could only attempt to deal with the visible symptoms of a plague attack and not overcome the bacterium at its' heart, *Yersinia pestis*. *Plants and the Plague* looks at around three dozen plant species used in the herbal medicine response to plague and pestilence in past centuries. It also looks at the clinical background to the disease, past medical thinking on the subject, courses of treatment formerly used, and numerous plague remedies that the selected plants found their way into. It is a story of superstition, tragedies of error, and faith in misguided medical precepts, but also one of incredible bravery on the part of those physicians and doctors who stayed behind to treat the afflicted and dying in the face of this killer disease.

This collection of interviews is a diamond, remarkable in the way that it assembles so many of the major strains of Glissant's thought, and stunning in the expansive erudition at work in the composition of that thought. Two structuring experiences inform the writer's reflections on language and poetic engagement. On the one hand, there is the acculturation of his French intellectual ancestry, begun in the Martinican colonial system and continued in his mature student years in Paris, with

the achievement of a Doctorate at the Sorbonne in 1980. On the other, there is his genetic heritage as an Antillean, nurtured in the Creole language of a people whose nearly forgotten history he will take pains to redeem. A lifelong interrogation of these two vital experiences of language are crucial to Glissant's concept of Relation, viewed as a transformative and vital process intrinsic to the project of poetics. Relation reverberates throughout Glissant's consideration of the many topics broached in this volume: medieval Europe and the creation of nation-states, the evolution of the epic and its global iterations, decolonization, creolization, landscapes and cultures, political engagement vs. the task of the writer, globality, questions of identity and Being. Absolutely the best introduction to Glissant's thought.

From the critically acclaimed author of *Bunny* comes a horror-tinted, gothic fairy tale about a lonely dress shop clerk whose mother's unexpected death sends her down a treacherous path in pursuit of youth and beauty. Can she escape her mother's fate—and find a connection that is more than skin deep? For as long as she can remember, Belle has been insidiously obsessed with her skin and skincare videos. When her estranged mother Noelle mysteriously dies, Belle finds herself back in Southern California, dealing with her mother's considerable debts and grappling with lingering questions about her death. The stakes escalate when a strange woman in red appears at the funeral, offering a tantalizing clue about her mother's demise, followed by a cryptic video about a transformative spa experience. With the help of a pair of red shoes, Belle is lured into the barbed embrace of *La Maison de Méduse*, the same lavish, culty spa to which her mother

was devoted. There, Belle discovers the frightening secret behind her (and her mother's) obsession with the mirror—and the great shimmering depths (and demons) that lurk on the other side of the glass. Snow White meets Eyes Wide Shut in this surreal descent into the dark side of beauty, envy, grief, and the complicated love between mothers and daughters. With black humor and seductive horror, Rouge explores the cult-like nature of the beauty industry—as well as the danger of internalizing its pitiless gaze. Brimming with California sunshine and blood-red rose petals, Rouge holds up a warped mirror to our relationship with mortality, our collective fixation with the surface, and the wondrous, deep longing that might lie beneath.

Froome, Wiggins, Mercks—we know the winners of the Tour de France, but Lanterne Rouge tells the forgotten, often inspirational and occasionally absurd stories of the last-placed rider. We learn of stage winners and former yellow jerseys who tasted life at the other end of the bunch; the breakaway leader who stopped for a bottle of wine and then took a wrong turn; the dooper whose drug cocktail accidentally slowed him down and the rider who was recognized as the most combative despite finishing at the back. Max Leonard flips the Tour de France on its head and examines what these stories tell us about ourselves, the 99% who don't win the trophy, and forces us to re-examine the meaning of success, failure and the very nature of sport.
