**Love After Hours** Simon and Schuster

According to Hebrews, the Son of God appeared to "break the power of him who holds the power of death--that is, the devil--and free those who all their lives were held in slavery by their fear of death." What does it mean to be enslaved, all our lives, to the fear of death? And why is this fear described as "the power of the devil"? And most importantly, how are we--as individuals and as faith communities--to be set free from this slavery to death? In another creative interdisciplinary fusion, Richard Beck blends Eastern Orthodox perspectives, biblical text, existential psychology, and contemporary theology to describe our slavery to the fear of death, a slavery rooted in the basic anxieties of self-preservation and the neurotic anxieties at the root of our self-esteem. Driven by anxiety--enslaved to the fear of death--we are revealed to be morally and spiritually vulnerable as "the sting of death is sin." Beck argues that in the face of this predicament, resurrection is experienced as liberation from the slavery of death in the martyrological, eccentric, cruciform, and communal capacity to overcome fear in living fully and sacrificially for others.

*The Middle Ages in Popular Imagination* Simon and Schuster

It is often assumed that those outside of academia know very little about the Middle Ages. But the truth is not so simple. Non-specialists in fact learn a great deal from the myriad medievalisms - post-medieval imaginings of the medieval world - that pervade our everyday culture. These, like *Lord of the Rings* or *Game of Thrones*, offer compelling, if not necessarily accurate, visions of the medieval world. And more, they have an impact on the popular imagination, particularly since there are new medievalisms constantly being developed, synthesised and remade. But what does the public really know? How do the conflicting medievalisms they consume contribute to their knowledge? And why is this important? In this book, the first evidence-based exploration of the wider public's understanding of the Middle Ages, Paul B. Sturtevant adapts sociological methods to answer these important questions. Based on extensive focus groups, the book details the ways - both formal and informal - that people learn about the medieval past and the many other ways that this informs, and even distorts, our present. In the process, Sturtevant also sheds light, in more general terms, onto the ways non-specialists learn about the past, and why understanding this is so important. *The Middle Ages in Popular*

*Imagination* will be of interest to anyone working on medieval studies, medievalism, memory studies, medieval film studies, informal learning or public history.

**Shiro's Story** Simon and Schuster

The first generation of American television programmers had few choices of Saturday morning children's offerings. That changed dramatically in 1963 when a Japanese animated television series called *Tetsuan Atom* was acquired for distribution by NBC. Fred Ladd adapted the show for American television and--rechristened *Astro Boy*--it was an overnight sensation. *Astro Boy's* popularity sparked a new industry importing animated television from Japan. Ladd went on to adapt numerous Japanese animated imports, and here provides an insider's view of the creation of an ongoing cultural and media phenomenon.

When their murals catch the attention of a podcaster covering Cassie's case, they become the catalyst for a debate that Bell Firearms can no longer ignore. **The New World (FREE Short Story)** Wipf and Stock Publishers  
Mel Lane assumed his life was on the track it was supposed to be: a career with upward movement, a home, a long-term relationship. That is, until he comes home one day to a girlfriend he knows and a child he doesn't. Stranger still, no one else seems disturbed by the child's presence-or by its bizarre, inhuman features. Mel is a reasonable man, and he knows there is a reasonable explanation-but once the veil of reality begins to ripple, the world around him becomes something he simply

doesn't understand. Worse yet, it's becoming very clear that he may never have understood it quite as well as he thought he did. He knows there are answers, written somewhere on the walls or in the airwaves, but finding them will mean confronting truths about himself and the people around him as he spirals down a rabbit hole of identity and place that will threaten to upend the delicate balance of his life. A darkly surreal and thought-provoking story, 'Lamella' is the debut novella of American author Max Halper.
