Darwin’s theory of evolution transformed the life sciences and made profound claims about human origins and the human condition, topics often viewed as the prerogative of religion. As a result, evolution has provoked a wide variety of religious responses, ranging from angry rejection to enthusiastic acceptance. While Christian responses to evolution have been studied extensively, little scholarly attention has been paid to Jewish reactions. Jewish Tradition and the Challenge of Darwinism is the first extended meditation on the Jewish engagement with this crucial and controversial theory. The contributors to Jewish Tradition and the Challenge of Darwinism—from several academic disciplines and two branches of the rabbinate—present case studies showing how Jewish discussions of evolution have been shaped by the intersections of faith, science, philosophy, and ideology in specific historical contexts. Furthermore, they examine how evolutionary theory has been deployed when characterizing Jews as a race, both by Zionists and by anti-Semites. Jewish Tradition and the Challenge of Darwinism addresses historical and contemporary, as well as progressive and Orthodox, responses to evolution in America, Europe, and Israel, ultimately extending the history of Darwinism into new religious domains.

“The story of a woman who rejects the life that society has fixed for her in favor of freedom and the most unexpected of alliances.” —The New York Times Book Review In her acclaimed debut novel, the twentieth-century English writer “moves with somber confidence into the realm of the supernatural, and her prose, in its simple, abrupt evocations, has something preternatural about it. This is the witty, eerie, tender but firm life history of a middle-class Englishwoman who politely declines to make the expected connection with the opposite sex and becomes a witch instead” (John Updike). When Laura Willowes’s beloved father dies, she is absorbed in the household of her brother and his family. There, she leaves behind “Laura” and enters into the state of “Aunt Lolly,” a genteel spinster indispensable to the upbringing of her nieces. For twenty years, Lolly is neither indulgent nor impulsive, until one day when she decides to move to a village in the Chilterns, much to her family’s chagrin. But it’s in the countryside, among nature, where Lolly has her first taste of freedom. Duty-bound to no one except herself, she revels in the solitary life. When her nephew moves there, and Lolly feels once again thrust into her old familial role, she reaches out to the otherworldly, to the darkness, to the unheeded power within the hearts of women to feel at peace once more . . . “A great shout of life and individuality.” —The Guardian

This book explores the impact of war and political crisis on the national identity of Jews, both in the multinational Habsburg monarchy and in the new nation-states that replaced it at the end of World War I. Jews enthusiastically supported the Austrian war effort because it allowed them to assert their Austrian loyalties and Jewish solidarity at the same time. They faced a grave crisis of identity when the multinational state collapsed and they lived in nation-states mostly uncomfortable with ethnic minorities. This book raises important questions about Jewish identity and about the general nature of ethnic and national identity.

Longlisted for the 2023 DUBLIN Literary Award "[Grand Hotel Europa] calls to mind Nabokov, Tom Wolfe, Baudrillard, Umberto Eco, Wes Anderson . . . [a novel of] incorrigible high spirits." —Rand Richards Cooper, The New York Times Book Review A sweeping, atmospheric novel about European identity, centered on a hotel that encapsulates the continent's manifold contradictions. The love of my life lives in my past. Despite the alliteration it’s a terrible line to have to write. I don’t want to come to the conclusion, just as the hotel I’m staying in and the continent it is named after, that the best times are behind me and that I’ve little more to expect of the future than living off my past. A writer takes up residence in the stately but decaying Grand Hotel Europa in order to contemplate where things went wrong with Clio—an art historian and the love of his life. His recollections take him back to when they first met in Genoa, his wanton visits to her in Venice, and their dulcet trips to Malta, Palmaria, Portovenere, and the Cinque Terre in their thrilling search for the last painting made by Caravaggio. Meanwhile, he becomes fascinated by the mysteries of the Grand Hotel Europa and the memorably eccentric characters who inhabit it, all of whom seem to hail from a halcyon era. All the while, globalization is laying claim to even this place, where a sense of lost glory hangs sulkily in the air. Grand Hotel Europa is Ilja Leonard Pfeijffer’s masterly novel of the old continent, where there's so much history that there hardly seems space left for a future. Cinematic, lyrical, and brimming with humor, this is a novel about the European condition, which like the staff and residents of the Grand Hotel Europa may have already seen its best days.

The Trial of Sokrates--from the Athenian Point of View Penguin UK

With a keen eye for revealing details, Hillel J. Kieval examines the contours and distinctive features of Jewish experience in the lands of Bohemia and Moravia (the present-day Czech Republic), from the late eighteenth to the late twentieth century. In the Czech lands, Kieval writes, Jews have felt the need constantly to define and articulate the nature of group identity, cultural loyalty, memory, and social cohesiveness, and the period of "modernizing" absolutism, which began in 1780, brought changes of enormous significance. From that time forward, new relationships with Gentile society and with the culture of the state blurred the traditional outlines of community and individual identity. Kieval navigates skillfully among histories and myths as well as demography, biography, culture, and politics, illuminating the maze of allegiances and alliances that have molded the Jewish experience during these 200 years.

The Silence Castrovilli Giuseppe

From the National Book Award–winning author of Underworld, a “daring...provocative...exquisite” (The Washington Post) novel about five people gathered together in a Manhattan apartment, in the midst of a catastrophic event. It is Super Bowl Sunday in the year 2022. Five people, dinner, an apartment on the east side of Manhattan. The retired physics professor and her husband and her former student waiting for the couple who will join them from what becomes a dramatic flight from Paris. The conversation ranges from a survey telescope in North-central Chile to a favorite brand of bourbon to Einstein’s 1912 Manuscript on the Special Theory of Relativity. Then something

happens and the digital connections that have transformed our lives are severed. What follows is a “brilliant and astonishing...masterpiece” (Chicago Tribune) about what makes us human. Don DeLillo completed this novel just weeks before the advent of the Covid pandemic. His language, the dazzle of his sentences offer a kind of solace in our bewildering world. “DeLillo’s shrewd, darkly comic observations about the extravagance and alienation of contemporary life can still slice like a scalpel” (Entertainment Weekly). “In this wry and cutting meditation on collective loss, a rupture severs us, suddenly, from everything we’ve come to rely on. The Silence seems to absorb DeLillo’s entire body of work and sand it into stone or crystal.” —Rachel Kushner

A Finalist for the Los Angeles Times Book Prize National Bestseller Winner of the National Outdoor Book Award Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction A New York Times Notable Book One of TIME's 100 Must Read Books of the Year One of The Washington Post's 50 Notable Nonfiction Books of the Year One of Smithsonian Magazine's 10 Best Science Books of the Year One of Publishers Weekly's Best Nonfiction Books of the Year A New York Times Editor's Choice Part H Is for Hawk, part The Soul of an Octopus, The Book of Eels is both a meditation on the world's most elusive fish—the eel—and a reflection on the human condition Remarkably little is known about the European eel, *Anguilla anguilla*. So little, in fact, that scientists and philosophers have, for centuries, been obsessed with what has become known as the “eel question”: Where do eels come from? What are they? Are they fish or some other kind of creature altogether? Even today, in an age of advanced science, no one has ever seen eels mating or giving birth, and we still don't understand what drives them, after living for decades in freshwater, to swim great distances back to the ocean at the end of their lives. They remain a mystery. Drawing on a breadth of research about eels in literature, history, and modern marine biology, as well as his own experience fishing for eels with his father, Patrik Svensson crafts a mesmerizing portrait of an unusual, utterly misunderstood, and completely captivating animal. In *The Book of Eels*, we meet renowned historical thinkers, from Aristotle to Sigmund Freud to Rachel Carson, for whom the eel was a singular obsession. And we meet the scientists who spearheaded the search for the eel's point of origin, including Danish marine biologist Johannes Schmidt, who led research efforts in the early twentieth century, catching thousands upon thousands of eels, in the hopes of proving their birthing grounds in the Sargasso Sea. Blending memoir and nature writing at its best, Svensson's

journey to understand the eel becomes an exploration of the human condition that delves into overarching issues about our roots and destiny, both as humans and as animals, and, ultimately, how to handle the biggest question of all: death. The result is a gripping and slippery narrative that will surprise and enchant.

Drawing on a wealth of medical and historical materials, Sander Gilman sketches details of the anti-Semitic rhetoric about the Jewish body and mind, including medical and popular depictions of the Jewish voice, feet, and nose. Case studies illustrate how Jews have responded to such public misconceptions as the myth of the cloven foot and Jewish flat-footedness, the proposed link between the Jewish mind and hysteria, and the Victorians' irrational connection between Jews and prostitutes. Gilman is especially concerned with the role of psychoanalysis in the construction of anti-Semitism, examining Freud's attitude towards his own Jewishness and its effect on his theories, as well as the supposed “objectiveness” of psychiatrists and social scientists.
