Gustav Klimt's art thoroughly expresses the apocalyptic atmosphere of Vienna's upper middle-class society - a society devoted to the cultivation of aesthetic awareness and the cult of pleasure. The

ecstatic joy which Klimt and his contemporaries found - or hoped to find - in beauty was constantly overshadowed by death. And death therefore plays an important role in Klimt's art. Klimt's fame, however, rests on his reputation as one of the greatest erotic painters and graphic artists of his times. In particular, his drawings, which have been widely admired for their artistic excellence, are dominated by the erotic portrayal of women. Klimt saw the world "in female form". Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical

literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

The painting of Michelangelo Merisi called Caravaggio (1571-1610) had such a vast influence that, according to modern scholars, it constituted an "epochal turning point" not only in Italian but also European art. This volume recounts the

master's life through lights and shadows, masterpieces and scandals, presenting the paintings that scholars have unanimously acknowledged to be autograph works on the basis of documentary evidence that has emerged in recent years. It analyzes his revolutionary painting skills at a technical and creative level, and depicts a remarkably alive and realistic picture of Caravaggio the "man" and his journey: the move from Lombardy to Rome, followed by his dramatic flight to Naples, Malta, Sicily, and back to Naples again, ending with his tragic death. -- From publisher's description. *Saints & Sinners*

Celebrated by some for his naturalism and his revolutionary pictorial inventions, Caravaggio (1571-1610) was considered by others to have destroyed painting. This work offers a comprehensive examination of the whole of the artist's oeuvre.

Caravaggio National Geographic Books Masterpieces under the microscope: Paintings' hidden secrets revealed This important addition to our understanding of art history's masterworks puts some of the world's most famous paintings under a magnifying glass, to help us look much, much closer at images we might have thought we knew well. Guiding our eye to the minutiae of subject and symbolism, Rose-Marie

and Rainer Hagen help us become detectives of details, solving the mysteries of a masterpiece through its most small and subtle elements. Is the bride pregnant? Why is just one candle burning in the chandelier? And what does the mirror in the background reveal? As they address these and many more intricacies in some of art's most celebrated scenes, the authors not only offer us a vastly enriched appreciation of these paintings, but also shed light on the fashions and lifestyles, loves and intrigues, politics and people that first informed and inspired these works. Delve in and be dazzled, as even the most familiar panels and canvases come alive anew in all the intricacies of their

composition and in a
very real sense of

context of time and
place.
