I first became aware that Cressida Garnet was on board when I saw young men with cameras going up to the boat deck. In that exposed spot she was good-naturedly posing for them—amid fluttering lavender scarfs—wearing a most unseaworthy hat, her broad, vigorous face wreathed in smiles. She was too much an American not to believe in publicity. All advertising was good. If it was good for breakfast foods, it was good for prime donna,—especially for a prima donna who would never be any younger and who had just announced her intention of marrying a fourth time. Only a few days before, when I was lunching with some friends at Sherry's, I had seen Jerome Brown come in with several younger men, looking so pleased and prosperous that I exclaimed upon it. "His affairs," some one explained, "are looking up. He's going to marry Cressida Garnet. Nobody believed it at first, but since she confirms it he's getting all sorts of credit. That

woman's a diamond mine." If there was ever a man who needed a diamond mine at hand, immediately convenient, it was Jerome Brown. But as an old friend of Cressida Garnet, I was sorry to hear that mining operations were to be begun again. I had been away from New York and had not seen Cressida for a year; now I paused on the gangplank to note how very like herself she still was, and with what undiminished zeal she went about even the most trifling things that pertained to her profession. From that distance I could recognize her "carrying" smile, and even what, in Columbus, we used to call "the Garnet look."

In his groundbreaking essay "Can Poetry Matter?" (reprinted here), Dana Gioia suggested that many types of poetry, assumed

by some readers to be marginal art, should not so easily be deleted from mainstream American literature. Throughout the twentieth century, perhaps no important writing has been as seriously -- and mistakenly -- overlooked by the literati as Cowboy poetry. Essentially connected to the folk tale, to legend, myth, the ballad, and song, and vitally enhanced by the contemporary voices of independent ranch women, Cowboy poetry vividly connects us to our past and our fragile, threatened natural environment. The writers included here, both working horse-and-cattle people and mainstream authors, share the brand of bold expression and independent thought found only among the best literary artists. Here is not literary theory. Here is literary life. An anthology as diverse as America herself!

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

"What if what you did mattered more because life happened again and again, consequences unfolding across decades and continents?...A relentlessly paced page-turner and a profound meditation on the meaning of life." —Christina Baker Kline, #1 New York Times bestselling author of *The Orphan Train* What happens to us after we die? What happens before we are born? At once a riveting mystery and a testament to the profound connection between a child and parent, *The Forgetting Time* will lead you to reevaluate everything you believe... What would you do if your four-year-old son claimed he had lived another life and that he wants to go back to it? That he wants his other mother? Single mom Janie is trying to figure out what is going on with her beloved son Noah. Noah has never been ordinary. He loves to make up stories, and he is constantly surprising her with random trivia someone his age has no right knowing. She always chalked it up to the fact that Noah was precocious—mature beyond his years. But Noah's eccentricities are starting to become worrisome. One afternoon, Noah's preschool teacher calls Janie: Noah has been talking about shooting guns and being held under water until he can't breathe. Suddenly, Janie can't pretend anymore. The school orders him to get a psychiatric evaluation. And life as she knows it stops for herself and her darling boy. For Jerome Anderson, life as he knows it has already stopped. Diagnosed with aphasia, his first thought as he approaches the end of his life is, I'm not finished yet. Once an academic star, a graduate of Yale and Harvard, a professor of psychology, he threw everything away to pursue an obsession: the stories of children who remembered past lives. Anderson became the laughing stock of his peers, but he never stopped believing that there was something beyond what anyone could see or comprehend. He spent his life searching for a case that would finally prove it. And with Noah, he thinks he may have found it. Soon, Noah, Janie, and Anderson will find themselves knocking on the door of a mother whose son has been missing for eight years. When that door opens, all of their questions will be answered. Gorgeously written and fearlessly provocative, Sharon Guskin's debut explores the lengths we will go for our children. It examines what we regret in the end of our lives and hope for in the beginning, and everything in between.

With the warmth and humor we've come to know, the creator and host of *A Prairie Home Companion* shares his own remarkable story. In *That Time of Year*, Garrison Keillor looks back on his life and recounts how a Brethren boy with writerly ambitions grew up in a small town on the Mississippi in the 1950s and, seeing three good friends die young, turned to comedy and radio. Through a series of unreasonable lucky breaks, he founded *A Prairie Home Companion* and put himself in line for a good life, including mistakes, regrets, and a few medical adventures. PHC lasted forty-two years, 1,557 shows, and enjoyed the freedom to do as it pleased for three or four million listeners every Saturday at 5 p.m. Central. He got to sing with Emmylou Harris and Renée Fleming and once sang two songs to the U.S. Supreme Court. He played a private eye and a cowboy, gave the news from his hometown, Lake Wobegon, and met Somali cabdrivers who'd learned English from listening to the show. He wrote bestselling novels, won a Grammy and a National Humanities Medal, and made a movie with Robert Altman with an alarming amount of improvisation. He says, "I was unemployable and managed to invent work for myself that I loved all my life, and on top of that I married well. That's the secret, work and love. And I chose the right ancestors, impoverished Scots and Yorkshire farmers, good workers. I'm heading for eighty, and I still get up to write before dawn every day."

Two volumes in one. The history of every country begins in the heart of a man or a woman, writes Willa Cather. The country is America; the woman is Alexandra Bergson, a fiercely independent young Swedish immigrant who inherits her father's Nebraska farm. With strength, courage, and determination, Alexandra transforms her father's patch of prairie into a highly profitable business. A gripping saga of love, murder, greed, failure, and triumph, *O Pioneers!* vividly portrays the hardships of prairie life. Above all, it champions the belief that hard work is the surest road to personal fulfillment. Described in *The New York Times* as "American in the best sense of the word," *O Pioneers!* celebrates the men and women who struggled to build a nation. *My Antonia*, first published in 1918, and set in Nebraska in the late 19th century, is the tale of the spirited daughter of a Bohemian immigrant family planning to farm on the untamed land. Her admirer, Jim Burden, is, at the time of their meeting, newly orphaned and arriving at his grandparents' neighboring farm on the same night her family strikes out to make good in their new country. Jim chooses the opening words of his recollections deliberately: "I first heard of Antonia on what seemed to be an interminable journey across the great midland plain of North America," and it seems almost certain that readers of Cather's masterpiece will just as easily pinpoint the first time they heard of Antonia and her world. It seems equally certain that they, too, will remember that moment as one of great light in an otherwise unremarkable trip through the world.

In the late 19th century, orphaned Jim Burden is sent to the wilderness in Nebraska to live with his grandparents. He arrives at the same time as the Shimerda family, including the eldest daughter Antonia, who becomes his closest neighbors. Life in the American West is tough, especially for the impoverished Shimerda family, and pioneers must struggle for survival. A friendship blossoms between Jim and Antonia as they explore nature and have adventures together, a friendship that will last a lifetime. *My Antonia* became an immediate success when first published and is today considered Willa Cather's first masterpiece. It is praised for its depiction of the American West and its ability to highlight the aspirations of ordinary, poor people in a time when it was customary to write about the elite. WILLA CATHER [1873-1947] was an American author. After studying at the University of Nebraska, she worked as a teacher and journalist. Cather's novels often focus on settlers in the USA with a particular emphasis on female pioneers. In 1923, she was awarded the Pulitzer Prize for the novel *One of Ours*, and in 1943, she was elected to the American Academy of Arts and Sciences.
