This book supports the emerging field of vascularized composite allotransplantation (VCA) for face and upper-limb transplants by providing a revised, ethically appropriate consent model which takes into account what is actually required of facial and upper extremity transplant recipients. In place of consent as permission-giving, waiver, or autonomous authorization (the standard approaches), this book imagines consent as an ongoing mutual commitment, i.e. as covenant consent. The covenant consent model highlights the need for a durable personal relationship between the patient/subject and the care provider/researcher. Such a relationship is crucial given the recovery period of 5 years or more for VCA recipients. The case for covenant consent is made by first examining the field of vascularized composite allotransplantation, the history and present understandings of consent in health care, and the history and use of the covenant concept from its origins through its applications to health care ethics today. This book explains how standard approaches to consent are inadequate in light of the particular features of facial and upper limb transplantation. In contrast, use of the covenant concept creates a consent model that is more appropriate ethically for these very complex surgeries and long-term recoveries.

In this legal classic, a former Associate Supreme Court Justice explains the conscious and unconscious processes by which a judge decides a case. In simple, understandable language, he discusses the ways rulings are guided and shaped by information, precedent and custom, and standards of justice and morals.

The Nature of the Judicial Process Univ of North Carolina Press

The primary founder and guiding spirit of the Harvard Law School and the most prolific publicist of the nineteenth century, Story served as a member of the U.S. Supreme Court from 1811 to 1845. His attitudes and goals as lawyer, politician, judge, and legal educator were founded on the republican values generated by the American Revolution. Story's greatest objective was to fashion a national jurisprudence that would carry the American people into the modern age without losing those values.

The Credentialed Court starts by establishing just how different today's Justices are from their predecessors. The book combines two massive empirical studies of every Justice's background from John Jay to Amy Coney Barrett with short, readable bios of past greats to demonstrate that today's Justices arrive on the Court with much narrower experiences than they once did. Today's Justices have spent more time in elite academic settings (both as students and faculty) than any previous Court. Every current Justice but Barrett attended either Harvard or Yale Law School, and four of the Justices were tenured professors at prestigious law schools. They also spent more time as Federal Appellate Court Judges than any previous Court. These two jobs (tenured law professor and appellate judge) share two critical components: both jobs are basically lifetime appointments that involve little or no contact with the public at large. The modern Supreme Court Justices have spent their lives in cloistered and elite settings, the polar opposite of past Justices. The current Supreme Court is packed with a very specific type of person: type-A overachievers who have triumphed in a long tournament measuring academic and technical legal excellence. This Court desperately lacks individuals who reflect a different type of "merit." The book examines the exceptional and varied lives of past greats from John Marshall to Thurgood Marshall and asks how many, if any, of these giants would be nominated today. The book argues against our current bookish and narrow version of meritocracy. Healthier societies offer multiple different routes to success and onto bodies like our Supreme Court.

It's 1994, an election year when violent crime is rampant, voters want action, and politicians smell blood. When a Latino teenager confesses to the murder of a pretty-boy cokehead outside a gay bar in L.A., the cops consider the case closed. But Benjamin Justice, a disgraced former reporter for the Los Angeles Times, sees something in the jailed boy others don't. His former editor, Harry Brofsky, now toiling at the rival Los Angeles Sun, surprises Justice from his alcoholic seclusion to help neophyte reporter Alexandra Templeton dig deeper into the story. But why would a seemingly decent kid confess to a brutal gang initiation killing if he wasn't guilty? And how can Benjamin Justice possibly be trusted, given his central role in the Pulitzer scandal that destroyed his career? Snaking his way through shadowy neighborhoods and dubious suspects, he's increasingly haunted by memories of his lover Jacques, whose death from AIDS six years earlier precipitated his fall from grace. As he unravels emotionally, Templeton attempts to solve the riddle of his dark past and ward off another meltdown as they race against a critical deadline to uncover and publish the truth. Awarded an Edgar by Mystery Writers of America for Best First Novel on initial release, this 25th Anniversary edition has been revised by the author. A foreword for the 2020 edition by Christopher Rice (Bone Music) is included. "Politically pungent, exactly observed, and conceding little comfort, Wilson is heir to the shockingly unsentimental vision of Patricia Highsmith." - Michael Bronski, Out Magazine "First-time novelist John Morgan Wilson hits a home run with his gritty tale of modern-day L.A." - Lambda Book Report "Wilson writes with such skill, pluck, and conviction that it becomes both suspenseful and moving. Sexy, too." - Washington Post "This moody first mystery... isn't your typical day at the beach. But with its vivid dissection of Los Angeles lowlife and intriguing characters, you may find it tough to put down." - People "Wilson keeps the emotional as well as forensic suspense up through the very last sentence. The final scene is not only a satisfying explanation of the crime, but a riveting study of the erotic cruelty of justice." - Harvard Gay and Lesbian Review "An exceptionally fine debut. Ben Justice is ... a more human and real character than most mystery sleuths." - Booklist

Supreme Court Justice Joseph Story

Gertrude Stein called it "the only really modern novel form that has come into existence," yet the mystery genre was a century old before it featured its first gay main character in a novel. Since then, gay

and lesbian detective fiction has been one of the fastest growing segments of the genre. It incorporates gay and lesbian cultural elements and offers crossover appeal. Its authors call upon a century of development in the mystery genre, while providing new, more accurate images of lesbians and gay men than generally found in mainstream literature and popular media. This groundbreaking study of gay and lesbian detective fiction examines mystery series and historically significant stand-alone novels published since the early 1960s. Part I is an overview that describes how these novels make gay and lesbian life visible and forge new, powerful images. It also examines how they fit into the larger history of mystery fiction. The series analyses in Part II are grouped according to the type of main character (police officer, private investigator, amateur sleuth, etc.). Each section discusses main and secondary characters of that type, characteristic themes for the group, and more. The analyses of individual series cover main characters, themes, plot points and other elements. Comments from authors interviewed for this book play a central role in those analyses. Part III lists series-spanning themes (e.g., homophobia, the closet, gay marriage) and the novels and series that address each of those themes. *The North Carolina Justice*
