America, Incorporated With gas prices rising (always), alternative fuels look like an answer. Hybrids sound good, but what about the batteries? And fuel cells still seem to be pie-in-the-sky. Which leaves us with good old diesel. This book shows how to get the most out of the diesel engine, at a time when its fuel efficiency is almost as important as its massive torque. Although most diesel truck

owners probably aren't planning to break any land speed records, advances in diesel technology, such as ultra-low-sulfur fuel, high-pressure common-rail fuel injection, electronic fuel management and variable geometry turbocharging, are bringing diesel engines into the performance arena. And this book is the ideal guide for making your diesel engine perform--adapting

intake and exhaust, torque converters, engine electronics, turbochargers, and much more.

The fifth book in the #1 New York Times bestselling Field Party series—a southern soap opera with football, cute boys, and pick-up trucks—from USA TODAY and New York Times bestselling author Abbi Glines. Ryker Lee is finally

enjoying his senior year—he has great friends, hangs out with hot girls, and is on track to get a football scholarship that will set him up for college.

Despite this, a small part of him wonders if there's more to life than parties and meaningless hookups—and if football even means as much to him as it does to his fellow teammates. And when he meets the new girl at school, his world totally changes...

Aurora McClay is new to Lawton. She's grateful that her twin brother, Hunter, is the star of the football team and can help her adjust to her new school, but she's not grateful at how overprotective he is over every person she meets. Just because she's deaf does not mean people have to treat her differently. When she meets Ryker Lee, the two of them spark an instant and intense

chemistry, one that proves to be controversial not only because of Ryker's reputation as a player, but also because of Aurora and Hunter's father's bigoted views about who Aurora can and can't date. Aurora and Ryker know in their hearts that they are meant for each other. But can their relationship endure the turmoil of rumors and prejudice?

look at loss and devastation and helps find a way to reach far beyond the events in our lives that leave scars. It challenges the "Why Me?" in all of us and exposes the path our choices ultimately create. It encourages a way to move past losses and difficulties by assigning a meaning to individual experiences. And finally, it helps excavate the true intent of your inner self to give purpose to

living every day. Lynn Gawronski's view "From Under the Wheel" is both reality and metaphorical. The picture of the wheel of the single axel flat bed trailer sitting on her chest as it ran her over is forever imprinted in her memory. But even a miraculous recovery wouldn't stop trauma from happening again. Two years later, she was a passenger in a car hit broadside by another and was left

partially paralyzed with facial injuries and emotional scars. The next twenty years would prove to challenge every bit of her faith with more tragedy and loss and at times, just life; each time stimulating another "wheel" and presenting another effort for recovery and healing whether physical or emotional. The end result is the emergence of a life with purpose and renewed spirit, but the

book doesn't stop there. She also provides a planning tool and the steps that she is using to help her carry out her purpose in life so that the reader may do the same. With each new challenge and successful outcome, Lynn Gawronski considers herself out "From Under the Wheel." Volkswagen T4 Cartech Volkswagen enthusiast and author Richard Copping examines, for the first time, the complete story of the

T4: from the Transporter concept originated forty years before its presence at VW's Hanover factory, through its development period and full production life. Topics covered include:- the background story 1949-1990- design concept to production in the 1980s- full analysis of the T4's specifications- face-lifted Caravelles and Multivans from 1996 onwards- gas - and diesel-

aspirated engines including the VR6, V6 and 2.5 litre TDI- the T4 story in the USA - the Euro Van- and finally camping conversions.
