HERRING BRICE

The Cambridge Companion to Baseball
Cambridge University Press

This young readers edition of Ingenious focuses on 50 kid-friendly Canadian innovations that changed the world, from canoes to whoopie cushions, chocolate bars to Pablum. Co-written by Canada's Governor General and accompanied by contemporary illustrations, this adaptation offers young Canadians a way to celebrate our history and world contributions on Canada's 150th birthday. Successful innovation is always inspired by at least one of three forces -- insight, necessity and simple luck. Innovation Nation moves through history to explore what circumstances, incidents, coincidences and collaborations motivated each great Canadian idea, and what twist of fate then brought that idea into public

acceptance. From the marvels of aboriginal inventions such as the canoe, igloo and lifejacket to the latest pioneering advances in medicine, education, science, engineering and the arts, Canadians have improvised and worked together to make the world a better place. With striking, vibrant illustrations throughout, Innovation Nation is a gorgeous companion to the adult edition that will surprise, enlighten and entertain young readers, and will be a valuable resource for teachers and librarians.

The Cambridge Companion to the Roman Republic Cambridge University Press

This collection of essays by ten major scholars explores Faulkner's widespread cultural import.

The Cambridge Companion to Berkeley Cambridge University Press
Margaret Atwood's international celebrity has given a new visibility to Canadian literature in English. This Companion provides a comprehensive

critical account of Atwood's writing across the wide range of genres within which she has worked for the past forty years, while paying attention to her Canadian cultural context and the multiple dimensions of her celebrity. The main concern is with Atwood the writer, but there is also Atwood the media star and public performer, cultural critic, environmentalist and human rights spokeswoman, social and political satirist, and mythmaker. This immensely varied profile is addressed in a series of chapters which cover biographical, textual, and contextual issues. The Introduction contains an analysis of dominant trends in Atwood criticism since the 1970s, while the essays by twelve leading international Atwood critics represent the wide range of different perspectives in current Atwood scholarship.

The Cambridge Companion to Postcolonial Poetry Cambridge University Press

Every great civilisation from the Bronze Age to the present day has produced epic poems. Epic poetry has always had a profound influence on other literary genres, including its own parody in the form of mock-epic. This Companion surveys over four thousand years of epic poetry from the Babylonian Epic of Gilgamesh to Derek Walcott's postcolonial *Omeros*. The list of epic poets analysed here includes some of the greatest writers in literary history in Europe and beyond: Homer, Virgil, Dante, Camões, Spenser, Milton, Wordsworth, Keats and Pound, among others. Each essay, by an expert in the field, pays close attention to the way these writers have intimately influenced one another to form a distinctive and cross-cultural literary tradition. Unique in its coverage of the vast scope of that

tradition, this book is an essential companion for students of literature of all kinds and in all ages.

The Cambridge Companion to Children's Literature Cambridge University Press

Since the turn of the century, Performance Studies has emerged as an increasingly vibrant discipline. Its concerns - embodiment, ethical research and social change - are held in common with many other fields, however a unique combination of methods and applications is used in exploration of the discipline. Bridging live art practices - theatre, performance art and dance - with technological media, and social sciences with humanities, it is truly hybrid and experimental in its techniques. This Companion brings together specially commissioned essays from leading scholars who reflect on their own experiences in Performance Studies and the possibilities this offers to representations of identity, self-and-other, and communities. Theories which have been absorbed into the field are applied to compelling topics in current academic, artistic and community settings. The collection is designed to reflect the diversity of outlooks and provide a guide for students as well as scholars seeking a perspective on research trends.

The Cambridge Companion to Canadian Literature Cambridge University Press

For Michel Foucault, philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society. He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines. These studies have raised fundamental questions about the nature

of human knowledge and its relation to power structures, and have become major topics of discussion throughout the humanities and social sciences. The essays in this volume provide a comprehensive overview of Foucault's major themes and texts, from his early work on madness through his history of sexuality. Special attention is also paid to thinkers and movements, from Kant through current feminist theory, that are particularly important for understanding his work and its impact. This revised edition contains five new essays and revisions of many others, and the extensive bibliography has been updated.

The Cambridge Companion to British Fiction: 1980–2018 Cambridge University Press

This second edition examines all aspects of Roman history, and contains a new introduction, three new chapters and updated bibliographies.

The Cambridge Companion to Don DeLillo Cambridge University Press

An authoritative and comprehensive collection of essays redefining the relevance of Durkheim to the human sciences in the twenty-first century.

The Cambridge Companion to Durkheim Cambridge University Press

This Companion surveys Asian American literature from the nineteenth century to the present day.

The Cambridge Companion to the Classic Russian Novel Cambridge University Press

An accessible and wide-ranging study of the history of the book within local, national and global contexts.

The Cambridge Companion to Performance Studies Cambridge University Press

Baseball is much more than a game. As the American national pastime, it has

reflected the political and cultural concerns of US society for over 200 years, and generates passions and loyalties unique in American society. This Companion examines baseball in culture, baseball as culture, and the game's global identity. Contributors contrast baseball's massive, big-business present with its romanticized origins and its evolution against the backdrop of American and world history. The chapters cover topics such as baseball in the movies, baseball and mass media, and baseball in Japan and Latin America. Between the chapters are vivid profiles of iconic characters including Babe Ruth, Ichiro and Walter O'Malley. Crucial moments in baseball history are revisited, ranging from the 1919 Black Sox gambling scandal to recent controversies over steroid use. A unique book for fans and scholars alike, this Companion explains the enduring importance of baseball in America and beyond.

The Cambridge Companion to William Faulkner Cambridge University Press

This Companion is a complete introduction to the fictional and non-fictional writings of the Nobel Prize winner Alice Munro.

The Cambridge Companion to Jane Austen Cambridge University Press

The most accessible and comprehensive guide to Aristotle currently available.

The Cambridge Companion to Early American Literature Cambridge University Press

The Cambridge Companion to Narrative provides a unique and valuable overview of current approaches to narrative study. An international team of experts explores ideas of storytelling and methods of narrative analysis as they have emerged across diverse traditions

of inquiry and in connection with a variety of media, from film and television, to storytelling in the 'real-life' contexts of face-to-face interaction, to literary fiction. Each chapter presents a survey of scholarly approaches to topics such as character, dialogue, genre or language, shows how those approaches can be brought to bear on a relatively well-known illustrative example, and indicates directions for further research. Featuring a chapter reviewing definitions of narrative, a glossary of key terms and a comprehensive index, this is an essential resource for both students and scholars in many fields, including language and literature, composition and rhetoric, creative writing, jurisprudence, communication and media studies, and the social sciences.

The Cambridge Companion to Margaret Atwood Cambridge University Press

This is one of the most comprehensive and up-to-date surveys of the philosophy of Sartre, by some of the foremost interpreters in the United States and Europe. The essays are both expository and original, and cover Sartre's writings on ontology, phenomenology, psychology, ethics, and aesthetics, as well as his work on history, commitment, and progress; a final section considers Sartre's relationship to structuralism and deconstruction. Providing a balanced view of Sartre's philosophy and situating it in relation to contemporary trends in Continental philosophy, the volume shows that many of the topics associated with Lacan, Foucault, Levi-Strauss, and Derrida are to be found in the work of Sartre, in some cases as early as 1936. A special feature of the volume is the treatment of the recently published and hitherto little studied posthumous works.

The Cambridge Companion to Foucault Cambridge University Press

Although best known for his contributions to the theory of knowledge, metaphysics, and philosophy of religion, Hume also influenced developments in the philosophy of mind, psychology, ethics, political and economic theory, political and social history, and aesthetic theory. The fifteen essays in this volume address all aspects of Hume's thought. The picture of him that emerges is that of a thinker who, though often critical to the point of scepticism, was nonetheless able to build on that scepticism a constructive, viable, and profoundly important view of the world. Also included in this volume are Hume's two brief autobiographies and a bibliography suited to those beginning their study of Hume. This second edition of one of our most popular Companions includes six new essays and a new introduction, and the remaining essays have all been updated or revised.

The Cambridge Companion to Augustine Cambridge University Press

W. E. B. Du Bois was the pre-eminent African American intellectual of the twentieth century. As a pioneering historian, sociologist and civil rights activist, and as a novelist and autobiographer, he made the problem of race central to an understanding of the United States within both national and transnational contexts; his masterwork *The Souls of Black Folk* (1903) is today among the most widely read and most often quoted works of American literature. This Companion presents ten specially commissioned essays by an international team of scholars which explore key aspects of Du Bois's work. The book offers students a critical introduction to Du Bois, as well as opening new pathways into the further

study of his remarkable career. It will be of interest to all those working in African American studies, American literature, and American studies generally.

The Cambridge Companion to W. E. B. Du Bois Tundra Books (NY)

This Companion covers American literary history from European colonization to the early republic. It provides a succinct introduction to the major themes and concepts in the field of early American literature, including new world migration, indigenous encounters, religious and secular histories, and the emergence of American literary genres. This book guides readers through important conceptual and theoretical issues, while also grounding these issues in close readings of key literary texts from early America.

Innovation Nation Cambridge University Press

Jean Piaget (1896–1980) was listed among the 100 most important persons in the twentieth century by Time

magazine, and his work - with its distinctive account of human development - has had a tremendous influence on a range of disciplines from philosophy to education, and notably in developmental psychology. The Cambridge Companion to Piaget provides a comprehensive introduction to different aspects of Piaget's work in a manner that does not eschew engagement with the complexities of subjects or debates yet is accessible to upper-level undergraduate students. Each chapter is a specially commissioned essay written by an expert on the subject matter. Thus, the book will also be of interest to academic psychologists, educational psychologists, and philosophers.

The Cambridge Companion to Hume Cambridge University Press

A fully revised second edition of this multi-author account of Canadian literature, from Aboriginal writing to Margaret Atwood.
