Literature Review from the year 2016 in the subject Philosophy - General Essays, Eras, grade: 4.0, Atlantic International University, course: Psychology, language: English, abstract: For more than 20 years, Gregg Braden has dedicated his energy as a spiritual seeker doing research and publishing five books. He has traveled throughout the world focusing on ancient and religious texts as well as served as a counselor for people seeking meaning in a spiritual context. Human beings exist in the world web of life with interconnections ultimately uniting nonbelievers and spiritual believers. In this case, non-believers are an important group since they insist on more solid proofs, which is the aim of this book. Most of them are unlike spiritual believers who accept faith without the need to reason. First, you have to be an admirer of science and religion to enjoy a great book that has had impacts on some people.

The Spontaneous Healing of Belief The Wisdom Codes Ancient Words to Rewire Our Brains and Heal Our Hearts

In this compelling revised edition of his book *The Turning Point*, best-selling author and visionary Gregg Braden merges his expertise in leading-edge science with present-day realities to reveal the strategies for embracing stressful change in our lives. This updated edition contains an all-new chapter not included in the original release, featuring material on the surprising discovery of brain-like cells - sensory neurites - located within the human heart, and the role they play in creating personal resilience. In this compelling exploration of life, Gregg Braden merges the modern discoveries of nature's patterns (fractals) with the ancient view of a cyclic universe. The result is a powerful model of time—fractal time—and a realistic window into what we can expect for the mysterious year 2012 . . . and beyond. Applying fractal time to the history of the world and life, he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past. As each cycle repeats, it carries a more powerful, amplified version of itself. The key: If you know where to look in the past, you know what to expect when the same conditions return in the present and future. For the first time in print, the Time Code Calculator gives you the tool to do just that! Through easy-to-understand science and step-by-step instructions, discover for yourself: • How the conditions for 2012 have occurred in the past, and what we can expect when they repeat! • The “hot dates” that hold the greatest threats of war and greatest opportunities for peace, as well as economic cycles such as the stockmarket collapse of 2008! • How Earth's location in space triggers cycles of spiritual growth for humans! • Your personal Time Codes for the key events of business, relationships, and change in your life! • How each cycle carries a window of opportunity—a choice point—that allows us to select a new outcome for the returning

pattern! • What the 1999 ice cores from Antarctica reveal about past cycles of climate, global warming, Earth's protective magnetic fields, and what these things mean for us today!

Human by Design invites you on a journey beyond Darwin's theory of evolution, beginning with the fact that we exist as we do, even more empowered, and more connected with ourselves and the world, than scientists have believed possible. In one of the great ironies of the modern world, the science that was expected to solve life's mysteries has done just the opposite. New discoveries have led to more unanswered questions, created deeper mysteries, and brought us to the brink of forbidden territory when it comes to explaining our origin and existence. These discoveries reveal the following facts: • Fact 1. Our origin—Modern humans appeared suddenly on earth approximately 200,000 years ago, with the advanced brain, nervous system, and capabilities that set them apart from all other known forms of life already developed, rather than having developed slowly and gradually over a long periods of time. • Fact 2. Missing physical evidence—The relationships shown on the conventional tree of human evolution are speculative connections only. While they are believed to exist, a 150-year search has failed to produce the physical evidence that confirms the relationships shown on the evolutionary family tree. • Fact 3. New DNA evidence—The comparison of DNA between ancient Neanderthals, previously thought to be our ancestors, and early humans tells us that we did not descend from the Neanderthals. • Fact 4. A rare DNA fusion—Advanced genome analysis reveals that the DNA that sets us apart from other primates, including in our advanced brain and nervous system, is the result of an ancient and precise fusion of genes occurring in a way that suggests something beyond evolution made our humanness possible. • Fact 5. Our extraordinary abilities—We are born with the capacity to self-heal, to self-regulate longevity, to activate an enhanced immune response, and to experience deep intuition, sympathy, empathy, and, ultimately, compassion—and to do each of these on demand. In this book, New York Times best-selling author and 2017 Templeton Award nominee Gregg Braden crosses the traditional boundaries of science and spirituality to answer the timeless question at the core of our existence—Who are we?—and to reveal science-based techniques that awaken our uniquely human experiences of deep intuition, precognition, advanced states of self-healing, and much more! Beyond any reasonable doubt, *Human by Design* reveals that we're not what we've been told, and much more than we've ever imagined. [A critical review about "The Divine Matrix" by Gregg Braden](#)

Literature Review from the year 2014 in the subject American Studies - Literature, grade: A, Atlantic International University, course: PhD JOURNALISM, language: English, abstract: Gregg Braden's book, *The Divine Matrix* that seeks to justify and offer meaning to the origin of both the tangible and intangible things of the universe offers one of the most elusive and divisive evidence. The origin of the web of energy in the universe has for many years been a bone of contention between the church and science. From the time of Galileo to the modern times marked with technological advancements to carry out research, humanity has failed spectacularly to comprehensively and neutrally define their origin and everything around them.

Creating Resilience in a Time of Extremes GRIN Verlag

What would it mean to discover that everything from the DNA of life, to the future of our world, is based upon a simple Reality Code—one that we can change and upgrade by choice? New revelations in physics and biology suggest that we're about to find out! A growing body of scientific evidence suggests that our universe works like a Consciousness Computer. Rather than the number codes of typical software, our Consciousness Computer uses a language that we all have, yet are only beginning to understand. Life's reality code is based in the language of human emotion and focused belief. Knowing that belief is our reality-maker, the way we think of ourselves and our world is now more important than ever! For us to change the beliefs that have led to war, disease, and the failed careers and relationships of our past we need a reason to see things differently. Our ancestors used miracles to change what they believed. Today we use science. *The Spontaneous Healing of Belief* offers us both: the miracles that open the door to a powerful new way of seeing the world, and the science that tells us why the miracles are possible, revealing: why we are not limited by the “laws” of physics and biology as we know them today. Once we become aware of the paradigm-shattering discoveries and true-life miracles, we must think of ourselves differently. And that difference is where the spontaneous healing of belief begins.

The Science of Self-Empowerment Hay House, Inc

Seventeen hundred years ago, key elements of our ancient heritage were lost, relegated to the esoteric traditions of mystery schools and sacred orders. Among the most empowering of the forgotten elements are references to a science with the power to bring everlasting healing to our bodies and initiate an unprecedented era of peace and cooperation between governments and nations. In his groundbreaking new book, *The Isaiah Effect*, Gregg Braden turns to the Isaiah Scroll, perhaps the most important of the Dead Sea Scrolls discovered in 1946, to offer insight into a powerful form of ancient prayer. In *The Isaiah Effect*, Braden, author of *Awakening to Zero Point* and *Walking Between the Worlds*, combines research in quantum physics with the works of the prophet Isaiah and the ancient Essenes. He demonstrates how prophecies of global catastrophe and suffering may only represent future possibilities, rather than forecast impending doom, and that we have the power to influence those possibilities. In addition to describing multiple futures, the Isaiah texts take us one step further, clearly describing the science of how we choose our futures. Tracing key words of Isaiah's text back to their original language, we discover how he taught a mode of prayer that was lost to the West during Biblical editing in the fourth century. Braden offers detailed accounts of how elements of this mode of prayer have been applied in a variety of situations, ranging from healing life-threatening conditions to entire villages using collective prayer to prevail during the 1998 fires in southern Peru. In each instance, the correlation between the offering of the prayer and a shift of the events in question was beyond coincidence--the prayers had measurable effects! As modern science continues to validate a relationship between our outer and inner worlds, it becomes more likely that a forgotten bridge links the world of our prayers with that of our experience. Each time we engage ourselves, our loved ones, and our communities with Isaiah's life-affirming message of hope, we secure nothing less than our future and the future of the only home we know.

New in paperback (originally published as *Human by Design*): At the cutting edge of science and spirituality, New York Times best-selling author Gregg Braden explains that evolution is not the whole story of humanity--and offers a new understanding of our origins that can help us tap the extraordinary abilities we already have. What would it mean to discover we're designed to live extraordinary lives of self-healing, longevity, and deep intuition? Is it possible that the advanced awareness achieved by monks, nuns, and mystics--considered rare in the past--is actually meant to be a normal part of our daily lives? In this revelatory book, now available for the first time in paperback, five-time New York Times best-selling author and 2018 Templeton Award nominee Gregg Braden explains that we no longer need to ask these questions as "What if?" Recent discoveries ranging from human evolution and genetics to the new science of neuro-cardiology (the bridge between the brain and the heart) have overturned 150 years of thinking when it comes to the way we think of ourselves, our origin, and our capabilities. In this reader-friendly journey of discovery, Braden begins with the fact that we exist as we do, even more empowered, and more connected with ourselves and the world than scientists have believed in the past. It's this undisputable fact that leads to even deeper mysteries. "How do we awaken the extraordinary abilities that come from such an awesome connection?" "What role does our ancient and mysterious heritage play in our lives today?" Join Gregg as he crosses the traditional boundaries of science and spirituality to answer precisely these questions. In doing so he reveals a) specific tools, techniques, and practices to awaken our deep intuition on-demand, for self healing and longevity; and 2) concrete solutions to the social issues that are destroying our families and dividing us as people, including the bullying of young people, hate crimes, the growing epidemic of suicide, religious extremism, and more. When new discoveries prove that the existing human story is no longer based in fact, it's time to change the story. This simple truth is at the heart of the book you're about to read.

There are beautiful and wild forces within us." With these words, the mystic St. Francis described what ancient traditions believed was the most powerful force in the universe - the power of prayer. For more than 20 years, Gregg Braden has searched for evidence of a forgotten form of prayer that was lost in the West following the biblical edits of the early Christian Church. In the 1990's, he found and documented this form of prayer still being used in the remote monasteries of central Tibet. He also found it practiced in sacred rites throughout the high deserts of the American Southwest. In this book, Braden describes this ancient form of prayer that has no words or outward expressions. Then, for the first time in print, he leads us on a journey exploring what our most intimate experiences tell us about our deepest beliefs. Through case histories and personal accounts, Braden explores the wisdom of these timeless secrets, and the power that awaits each of us just beyond our deepest hurt!
