A Badge, a Gun, an Attitude Springer

Michael Josephson discusses ethical values and decision-making techniques as he explores the everyday pressures that can compromise our integrity.

Practitioner's Guide to Legal Issues in Organizations Human Rights Watch

A harrowing investigation into law enforcement's failure to process hundreds of thousands of rape kits across America—allowing many rapists to walk free. In 2011, advocacy groups estimated that up to 250,000 rape kits sat untested in police storage across the country. These kits, some from crimes dating as far back as the mid-1990s, represent a disturbing breakdown in law enforcement that has allowed many violent criminals to remain on the streets. In some cases, rape victims are kept in the dark about the investigations into the crimes committed against them. Legal expert Linda Fairstein illustrates this injustice with the story of a Los Angeles woman whose experience, Fairstein writes, "is a tragic example of the outrageous backlog of untested rape kits that has existed nationwide for more than a decade." In *The Rape Scandal that Puts You at Risk*, Fairstein lays bare these failures of law enforcement and issues a rallying cry for women everywhere to demand change. Originally published in *Cosmopolitan*, this essay is now available in digital format for the first time and features a new introduction by the author.

Journal of Proceedings ... CRC Press

RAND researchers explored the U.S. and English forensic DNA analysis systems to find out whether England has capitalized more fully on their crime-fighting potential than the U.S. system, processing samples more quickly and providing more database hits for law enforcement.

California. Court of Appeal (2nd Appellate District). Records and Briefs Rand Corporation

Mount Olive, located in the Midwest is a thriving community of 40,000. Tony Langel is a former Navy man that applied for and was accepted into the Mount Olive Police Departments Academy, later becoming a patrolman and eventually advanced through the ranks. Mount Olive has its share of criminal activity. Tony is a good investigator and does his part to enforce the laws and to protect the good citizens from criminals. Tony investigates a lot of cases but one particular case is special. This case challenges his ability to uncover the true identity of an auto thief. A cocktail waitress doesn't count on meeting a man of mystery in Mount Olive. The case would involve three lives. They are about to cross paths which will alter their lives. What happened in Mount Olive could happen anywhere, maybe in your own community.

Toward a Comparison of DNA Profiling and Databases in the United States and England Rand Corporation

Lets go for a ride partner. I will walk you through the arduous process, guide you in the right direction, and at times will even hold your hands. Written by a cop.

Year in Review Career Examination

During his 25 years with the Los Angeles County Sheriff's Department, Dean Scoville advanced from nervous recruit to silver-tongued spokesperson to seasoned patrol sergeant. His candid memoir chronicles the personal experiences of police work--the tedium of guarding jail inmates, the consternation of shoot/don't-shoot scenarios, the trauma of being wounded in the line of duty--and offers an insider's view of iconic moments in law enforcement, including the capture of "Night Stalker" Richard Ramirez and the 1992 L.A. Riots. Along the way he examines a profession increasingly beleaguered by inimical agendas, administrative cowardice and fiscal restraints.

And recommendations -- Sexual violence in Los Angeles County -- Untested rape kits in crime laboratories -- Untested rape kits in police storage -- Human rights law and responses to sexual violence -- Conclusions.

Encyclopedia of Police Science John Wiley & Sons

In 1996, Garland published the second edition of the *Encyclopedia of Police Science*, edited by the late William G. Bailey. The work covered all the major sectors of policing in the US. Since then much research has been done on policing issues, and there have been significant changes in techniques and in the American police system. Technological advances have refined and generated methods of investigation. Political events, such as the terrorist attacks of September 11, 2001 in the United States, have created new policing needs while affecting public opinion about law enforcement. These developments appear in the third, expanded edition of the *Encyclopedia of Police Science*. 380 entries examine the theoretical and practical aspects of law enforcement, discussing past and present practices. The added coverage makes the *Encyclopedia* more comprehensive with a greater focus on today's policing issues. Also added are themes such as accountability, the culture of police, and the legal framework that affects police decision. New topics discuss recent issues, such as Internet and crime, international terrorism, airport safety, or racial profiling. Entries are contributed by scholars as well as experts working in police departments, crime labs, and various fields of policing.

Protecting Our Commerce Martinus Nijhoff Publishers

A practical and applied introduction to Criminal Justice Introduction to Criminal Justice: Practice and Process shows students how to think practically about the criminal justice system by offering them a proven, problem-based approach to learning. Bestselling authors Kenneth J. Peak and Tamara D. Madensen-Herold draw on their many years of combined practitioner and academic experience to explain the importance of criminal justice and show how key trends, emerging issues, historical background, and practical lessons can be applied in the field. The new Fifth Edition includes learn-by-doing activities at the end of each chapter, review questions, case studies, and a list of key terms, allowing students to enhance their critical analysis and problem-solving skills. This title is accompanied by a complete teaching and learning package. Contact your SAGE representative to request a demo. Learning Platform / Courseware SAGE Vantage is an intuitive learning platform that integrates quality SAGE textbook content with assignable multimedia activities and auto-graded assessments to drive student engagement and ensure accountability. Unparalleled in its ease of use and built for dynamic teaching and learning, Vantage offers customizable LMS integration and best-in-class support. It's a learning platform you, and your students, will actually love. Learn more. system (LMS) and save time. Don't use an LMS? You can still access all of the same online resources for this title via the password-protected Instructor Resource Site. Learn more. *Proceedings of the Board of Supervisors of the County of Milwaukee* Routledge

In July 2016 The National Academies of Sciences, Engineering, and Medicine convened a workshop with the goal of bringing together industrial and organizational (I-O) psychologists, experts on personnel selection and testing, forensic scientists, and other researchers whose work has a nexus with workforce needs in the forensic science field with a focus on pattern evidence.

Participants reviewed the current status of selection and training of forensic scientists who specialize in pattern evidence and discussed how tools used in I-O psychology to understand elements of a task and measure aptitude and performance could address challenges in the pattern evidence domain of the forensic sciences. This publication summarizes the presentations and discussions from the workshop.

Received document entitled: APPENDIX TO APPELLANT'S OPENING BRIEF

The Weekly notes

This report was prepared at the direction of the Los Angeles County Board of Supervisors pursuant to its appointment of special counsel for a term running to December 31, 1999. The report contains a focused inquiry into the Century station, the Department's most active station, in order to figure out why it had an unusually high number of deputy-involved shootings during 1994-1997; an update of jail operations including recent movement forward on medical and mental health issues; a progress report on efforts to schedule a sergeant's exam and provide wider opportunities for deputies; an examination of flagging efforts to deal with issue of women in policing; an overview of new policies regarding training in the use of force and an update on the canine program.

The Rape Scandal that Puts You at Risk

"In January 2007, New York City Police Commissioner Raymond Kelly asked the RAND Corporation to assess whether his department was doing everything it could to minimize the unnecessary discharge of firearms. In particular, he asked RAND to examine the quality and completeness of the New York City Police Department firearm-training program and identify potential improvements in the design and delivery of the curriculum, the technology used, the frequency and duration of training sessions, the tactics and procedures on which the training is based, and the Department's firearm-discharge-review process. This monograph reports the observations, findings, and recommendations of that study."--BOOK JACKET.

THE MAN WHO SAID NOTHING

This highly useful reference outlines best practices in key areas of human resources that are not only fair and equitable, but that can withstand legal scrutiny. Industrial/organizational experts apply their empirical knowledge and practical experience to aspects of HR that are commonly litigated, including broad and specific topics in testing of potential employees, disability issues, compensation and pay equity, and work hours. The book is written to be accessible to readers currently in HR-related graduate-level training as well as HR practitioners with or without background in industrial/organizational psychology. And to add to its utility, chapters feature practical strategies for addressing each of the legal issues presented. Among the topics covered: Measuring adverse impact in employee selection decisions. Using background checks in the employee selection process. Disabilities: best practices for vulnerabilities associated with the ADA. Physical abilities testing. Wage and hour litigation. Clinical psychological testing for employee selection. Conducting compensation equity analyses. Practitioner's Guide to Legal Issues in Organizations brings clear, up-to-date information to graduate students studying human resources, management, industrial/organizational psychology who are interested in legal issues, as well as applied HR practitioners such as industrial/organizational psychologists, human resources generalists, management and labor economists.

Criminal Justice Agencies in Region 3: Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia

Forensic Evidence: Science and the Criminal Law is a comprehensive analysis of the most recent state and federal court decisions addressing the use of forensic science in the investigation and trial of criminal cases. Each case provides a complete overview and analysis of the relevant scientific issues debated by the court in that particular case.
