*Human Interaction, Emerging Technologies and Future Applications II* Disha Publications

This book reports on research and developments in human-technology interaction. A special emphasis is given to human-computer interaction, and its implementation for a wide range of purposes such as healthcare, aerospace, telecommunication, and education, among others. The human aspects are analyzed in detail. Timely studies on human-centered design, wearable technologies, social and affective computing, augmented, virtual and mixed reality simulation, human rehabilitation and biomechanics represent the core of the book. Emerging technology applications in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically-grounded, but also professionally-oriented snapshot of the current state of the field. The book is based on contributions presented at the 2nd International Conference on Human Interaction and Emerging Technologies: Future Applications, IHIET-AI 2020, held on April 23-25, in Lausanne, Switzerland. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

The content of the guide is student-centered and activity based with emphasis on developing the problem-solving skills of the reader. It will encourage the candidate to think creatively and prepare for NATA exam independently without any coaching or the teacher. The methodology facilitates the student to ensure full understanding of the subject in totality. All the concepts are presented in a very simple and easy to understand form. Moreover, the concepts are explained with solved examples. An abundant use of visual tools such as illustrations, sketches and diagrams helps in better retention and makes learning fun. Our approach will help you to create passion for the subject rather than fear of the technical jargons. Our motto is to encourage you to enquire, explore and discover rather than rote learning. We have given exercises for immediate practice almost after every topic. We have designed the 'exercises' to include all types of questions especially the multiple choice questions (MCQs). Maths questions and exercises have been prepared to develop skills in rapid calculations. Our guide is prepared as per the latest test pattern and syllabus of NATA exam for B. Arch. entrance.
