According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective: its focus is on the strong dependency between scripture and aesthetics, holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of »clothing« sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books, and how the religious use of books shapes the evolution of artistic practices this book contributes to a new understanding of the deep nexus between sacred scripture and art.

Andre the Giant First Second

Andre Roussimoff is known as both the lovable giant in *The Princess Bride* and a heroic pro-wrestling figure. He was a normal guy who'd been dealt an extraordinary hand in life. At his peak, he weighed 500 pounds and stood nearly seven and a half feet tall. But the huge stature that made his fame also signed his death warrant. Box Brown brings his great talents as a cartoonist and biographer to this phenomenal new graphic novel. Drawing from historical records about Andre's life as well as a wealth of anecdotes from his colleagues in the wrestling world, including Hulk Hogan, and his film co-stars (Billy Crystal, Robin Wright, Mandy Patinkin, etc), Brown has created in *Andre the Giant*, the first substantive biography of one of the twentieth century's most recognizable figures.

Although much has been written lately on the links between painting and writing, little or no attention has been paid to those moments in literature when the narrative stops to allow for the description of those objects we associate with still life. Rosemary Lloyd's book shows how fascinating this overlooked area is; how rich in suggestions of class, race, and gender; how much it indicates about human pleasures and about the experience of space and time. Lloyd focuses on the last two centuries, particularly at points marked by the irruption of images of contingency and rapid change into the fields of art: for example, the year of the Terror in French history; the decade in which Haussman's politically driven transformation of Paris led Baudelaire to write his great modernist poem "Le Cygne"; and "on

or about December 1910," the date to which Virginia Woolf attributes a revolution in the definition of literary character. Lloyd's central concern lies with the ways in which the still life, written or painted, both evokes and attempts to deal with the sense of contingency. While she makes frequent reference to paintings, she focuses above all on written still lifes, particularly those moments when novels pause to address the subject matter of still life--a bowl of fruit, a hat rack, a desk cluttered with pens and papers--in ways that invite contemplation of other and broader cultural domains. She draws on literary and art works from Australia, England, France, Germany, Ireland, Italy, and the United States.
