The Assessment Center process is the best method for identifying management potential in candidates and whether they can demonstrate a talent for planning and organizing, and possess the necessary judgment, communication skills and decision-making ability to move up the ranks. Many candidates do possess these abilities, but they have not learned how to apply them. This book will teach you how to use all your potential. Law enforcement officers are often confused, afraid, nervous or just plain curious about what they will experience when they go through the process. Most books on the assessment center process cover primarily its history, the skill dimensions, a description of the process and provide a few sample exercises. What makes this book different is that it provides an experiential approach to preparing for an assessment center by including numerous practice exercises, experiential learning, role player scripts, sample detailed Assessor Guides, and information from an experienced professional who has a 360-degree view of assessment center processes. By practicing these exercises, the reader will learn a great deal about their potential and abilities. The organization of this book starts with the notorious, challenging, perplexing, incorrectly defined and life-changing in-basket exercise. The author has many years of experience with in-baskets, which has included providing feedback to candidates and training assessors. Many of the essential sample exercises and components of the in-basket exercise are included in this book and have been used in past assessment center processes or in customized exercises. This second edition also includes a new chapter on "The Future of Policing Exercises," and several new exercises have been included in the Exhibits Appendix. After reading the sample exercises and commentary contained herein, you will be convinced that your time and money have been well spent. Why? Because you will have practiced the exercises herein and, beyond just reading about the assessment center process, you will have learned about many of the most important components of the process.

How To Excel At Fire Department Promotional Exams

How2Become Ltd

The contents of this book are designed specifically for law enforcement officers, front-line supervisors, and managers who have reached the point in their careers where they are ready to advance their rank. The focus of this information is on the police promotional oral interview. In a majority of police agencies across the country the oral interview is both the most critical part of the promotion process and the most difficult. An officer's performance during the oral interview is paramount because the process is highly competitive. Officers must "out-score" others also vying for promotion. This is difficult in that candidates may be competing against dozens or even hundreds of other police personnel many of whom may have greater education or more experience. The goal of this book is to provide professional law enforcement

officers with a highly effective and valuable preparatory edge. This "edge" translates into real-world techniques, easy-to-apply skills, and a wealth of information on how to be distinctive and perform in an exceptional manner during the oral interview. The police officer, deputy, supervisor, or manager who utilizes the content of this unique book correctly can stand out among the other candidates, be more competitive, achieve preparatory confidence, and up their performance toward higher interview scores.

Based on over seventy years of extensive experience at the federal, state, county, and municipal level, the authors draw on current knowledge to provide a thorough overview of the realities of the position of chief of police. The book provides practical, common sense advice for preparing oneself for the position, successfully negotiating the application and screening process, and competing in various selection procedures including the assessment center. The book then addresses negotiating an employee compensation and benefits agreement, and once the position is offered, how to prepare for your first days as a chief of police. It also furnishes sound advice intended to help the chief retain his physical, emotional and ethical health while leading a professional law enforcement agency. Chapter topics include advice on taking control of the police department and setting the agenda in place, emphasizing the extreme importance of role modeling the behavior that the chief expects of department personnel, the requirements for a productive relationship with the command staff, exploring the multifaceted relationship a chief has with his employees, and guidelines for managing relations with collective bargaining units, schools and businesses, and the various elements of the community. It also examines establishing and maintaining your relationship with your superior (whether that is a city manager or elected official), developing and managing a budget, managing the disciplinary process, how to respond when things go wrong (to include officer-involved shootings and other misconduct), and building a good working relationship with the media. Each chapter concludes with a "Points to Remember" section that will be beneficial to the new police chief in order to avoid mistakes and build on the body of knowledge that constitutes professional law enforcement leadership. There are several sample policies, procedures, and forms included in the book that will prove very useful for the new or veteran chief. This resource will be invaluable to all prospective and current chiefs of police, law enforcement professionals, policymakers, and police academics.
