"In the main the following pages are a reproduction of a series of papers originally contributed to and published in 'The (New York) Popular science monthly, ' and in part in 'The (London) Contemporary review' (1887 and 1888)."--Preface.

Document-Based Assessment Activities for Global History Classes Renard Press Ltd

Looking for sample exams, practice questions, and test-taking strategies?

Check out our extended, in-depth prep guide, *Cracking the AP World History: Modern Exam! LIKE CLASS NOTES—ONLY BETTER*. The Princeton Review's *ASAP World History: Modern* is designed to help you zero in on just the information you need to know to successfully grapple with the AP test. No questions, no drills: just review. Advanced Placement exams require students to have a firm grasp of content—you can't bluff or even logic your way to a 5. Like a set of class notes borrowed from the smartest student in your grade, this book gives you exactly that. No tricks or crazy stratagems, no sample essays or practice sets: Just the

facts, presented with lots of helpful visuals. Inside *ASAP World History: Modern*, you'll find:

- Essential concepts, people, events, dates, and ideas for AP World History: Modern—all explained clearly & concisely
- Lists, charts, maps, and graphs for quick visual reference
- A three-pass icon system designed to help you prioritize learning what you **MUST**, **SHOULD**, and **COULD** know in the time you have available
- "Ask Yourself" questions to help identify areas where you might need extra attention
- A resource that's perfect for last-minute exam prep and for daily class work

Topics covered in *ASAP World History: Modern* include:

- The

Renaissance • Revolutions and the formation of nations • 20th-century developments such as WWI, WWII, and communism • Independence movements in Asia and Africa • ... and more!

Imperialism and World Politics Franklin Classics Trade Press

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. *Politics vs. Literature*, the fourth in the Orwell's Essays series, is, at heart, a review of Jonathan Swift's *Gulliver's Travels*. Having been given a copy of the book on his eighth birthday, Orwell knows it inside out, and thinks highly of it; it is 'pessimistic', though, he says – 'it descends into political partisanship of a narrow kind,' designed to 'humiliate man by reminding him that he

is weak and ridiculous.' Using the book as an example of enjoying a book whose author one cannot stand, Orwell goes on to say that he considers *Gulliver's Travels* a work of art, leaving the reader to reconsider the books on their own shelves. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

AP World History: Modern Premium John Wiley & Sons

When it appeared in 1949, the first edition of Ray Allen Billington's 'Westward Expansion' set a new standard for scholarship in western American history, and the book's reputation among historians, scholars, and students grew through four subsequent editions. This abridgment and revision of Billington and Martin Ridge's fifth edition, with a new introduction and additional scholarship by Ridge, as well as an updated bibliography, focuses on the Trans-Mississippi frontier. Although the text sets out the remarkable story of the American frontier, which became, almost from the beginning, an archetypal narrative of the new American nation's successful expansion, the authors do not forget the social, environmental,

and human cost of national expansion.

AP Us Hist 2016 Bloomsbury Shire Publications

Analysis of Latin America's economy focusing on development, covering the colonial roots of inequality, boom and bust cycles, labor markets, and fiscal and monetary policy. Latin America is richly endowed with natural resources, fertile land, and vibrant cultures. Yet the region remains much poorer than its neighbors to the north. Most Latin American countries have not achieved standards of living and stable institutions comparable to those found in developed countries, have experienced repeated boom-bust cycles, and remain heavily reliant on primary commodities. This book studies the historical roots of Latin America's contemporary economic and social development, focusing on poverty and income inequality dating back to colonial times. It addresses today's legacies of the market-friendly reforms that took hold in the 1980s and 1990s by examining successful stabilizations and homemade monetary and fiscal institutional reforms. It offers a detailed analysis of trade and financial liberalization, twenty-first

century-growth, and the decline in poverty and income inequality. Finally, the book offers an overall analysis of inclusive growth policies for development—including gender issues and the informal sector—and the challenges that lie ahead for the region, with special attention to pressing demands by the vibrant and vocal middle class, youth unemployment, and indigenous populations.

The Interest of America in Sea Power, Present and Future MacMillan Publishing Company

Two holograph leaves from the manuscript of *The gilded age* (1874), one in the hand of Mark Twain, the other in the hand of Charles Dudley Warner.

ASAP World History: Modern, 2nd Edition: A Quick-Review Study Guide for the AP Exam Oxford University Press

King Leopold's Ghost Barrons Educational Series

Intended for those interested in the African continent and the diversity of human history, this work looks at Africa's past and reflects on the changing ways it has been imagined and represented. It illustrates key themes in modern thinking

about Africa's history with a range of historical examples.

The Economic Consequences of the Peace Cornell University Press

Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.

The Rough Riders Barrons Educational Series

In the rich and varied life stories in *Under the Black Umbrella*, elderly Koreans recall incidents that illustrate the complexities of Korea during the colonial period. Hildi Kang here reinvigorates a period of Korean history long shrouded in the silence of those who endured under the "black umbrella" of Japanese colonial rule. Existing descriptions of the colonial period tend to focus on extremes: imperial repression and national resistance, Japanese subjugation and Korean suffering, Korean backwardness and

Japanese progress. "Most people," Kang says, "have read or heard only the horror stories which, although true, tell only a small segment of colonial life." The varied accounts in *Under the Black Umbrella* reveal a truth that is both more ambiguous and more human—the small-scale, mundane realities of life in colonial Korea. Accessible and attractive narratives, linked by brief historical overviews, provide a large and fully textured view of Korea under Japanese rule. Looking past racial hatred and repression, Kang reveals small acts of resistance carried out by Koreans, as well as gestures of fairness by Japanese colonizers. Impressive for the history it recovers and preserves, *Under the Black Umbrella* is a candid, human account of a complicated time in a contested place. [Bedarf Deutschland Der Colonien?](#) Simon and Schuster

Covers significant eras in U.S. history. Encourages students to analyze evidence, documents, and other data to make informed decisions. Includes guidelines for students, answer prompts, and a scoring rubric. Develops essential writing skills. *Peterson's AP European History* Simon Publications

The Incas is a captivating exploration of one of the greatest civilizations ever seen. Seamlessly drawing on history, archaeology, and ethnography, this thoroughly updated new edition integrates advances made in hundreds of new studies conducted over the last decade. • Written by one of the world's leading experts on Inca civilization • Covers Inca history, politics, economy, ideology, society, and military organization • Explores advances in research that include pre-imperial Inca society; the royal capital of Cuzco; the sacred landscape; royal estates; Machu Picchu; provincial relations; the khipu information-recording technology; languages, time frames, gender relations, effects on human biology, and daily life • Explicitly examines how the Inca world view and philosophy affected the character of the empire • Illustrated with over 90 maps, figures, and photographs

Recent Economic Changes, and Their Effect on the Production and Distribution of Wealth and the Well-being of Society Petersons

This book re-presents the poetry of Rudyard Kipling in the form of bold

slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Westward Expansion Perfection Learning Friedrich Fabri was an important catalyst in the German colonial movement. His pamphlet, *Bedarf Deutschland der Colonien?*, published in 1879, ran through three editions in five years. J. A. Hobson described it as 'the most vigorous and popular treatise' produced by the German colonial movement and it has been constantly referred to as a key statement of German expansionist propaganda. This volume provides the German text in a modern type-face along with an accurate English translation of the third (1884) edition of Fabri's pamphlet, and provides

an apparatus of Introduction and textual notes which makes its context intelligible to the modern reader.

African History: A Very Short Introduction
Read Books Ltd

In this brilliantly illuminating group portrait of the men who came to be known as the Founding Fathers, the incomparable Gordon Wood has written a book that seriously asks, "What made these men great?" and shows us, among many other things, just how much character did in fact matter. The life of each—Washington, Adams, Jefferson, Franklin, Hamilton, Madison, Paine—is presented individually as well as collectively, but the thread that binds these portraits together is the idea of character as a lived reality. They were members of the first generation in history that was self-consciously self-made men who understood that the arc of lives, as of nations, is one of moral progress.

The World Revolution of Westernization
Walch Publishing

"After a long hiatus, when it was seemingly banished to the wilderness of esoteric academic debate, imperialism is back as one of the buzzwords of the day. In the past decade in particular, scholars,

policy-makers and political pundits have been using the term with increasing frequency in their commentary on contemporary international relations. Many have invoked it as an old specter only to nervously deny its contemporary applicability. Meanwhile, the term has continued to be applied to a diverse range of economic, political, cultural and linguistic phenomena. The sudden popularity of the term has created

confusion about what it means and why we should care about it. Regardless of whether it is used as an invective or an ideal, imperialism has turned into an all-encompassing buzzword that many use, though few can really define. Imperialism Past and Present seeks to clarify the prevailing confusion and provide a clear, concise account of imperialism, as well as to introduce readers to the fundamental

logic, as well as the complex manifestations of imperialism. It also aims to offer a succinct review and interpretation of the complex experiences that constituted the history of imperialism. The authors contend that imperialism remains at the heart of recent events and ongoing processes that define contemporary politics, and they look at the way that it applies in the post-Cold War period"--
