- A New Republic Best Book of the Year
- The Globalist Top Books of the Year
- Winner of the Maine Literary Award for Non-fiction
- Particularly relevant in understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven “nations” that continue to shape North America

According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In *American Nations* he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of *American Character: A History of the Epic Struggle Between Individual Liberty*

and the Common Good) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

Prescribed burning is an important tool throughout Southern forests, grasslands, and croplands. The need to control fire became evident to allow forests to regenerate. This manual is intended to help resource managers to plan and execute prescribed burns in Southern forests and grasslands. A new appreciation and interest has developed in recent years for using prescribed fire in grasslands, especially hardwood forests, and on steep mountain slopes. Proper planning and execution of prescribed fires are necessary to reduce detrimental effects, such as the impacts on air and downstream water quality. Racing Art History is the first comprehensive anthology to place issues of racial representation squarely on the canvas. Art produced by non-Europeans has naturally been compared to Western art and its study, which refers to a binary way of viewing both. Each essay in this collection is a response to this vision, to the distant mirror of looking at the other.

“A powerful story” of a boy leaving the city streets for a summer at a horse farm—and discovering the possibility of a different life(Kirkus Reviews). An ALA Best Book for Young Adults An ALA Quick Pick With an absent mother and a domineering stepfather, Travis uses his tough-guy exterior to hide his true passion: writing. After a violent confrontation with his stepfather, Travis

is sent to live on his uncle’s horse ranch—exile to a born-and-bred city kid. Angry and yearning for a connection, Travis befriends Casey, the horse-riding instructor at the ranch, and the untamable horse in her stable: the Star Runner. When a friend from the city visits with stories of other kids from the neighborhood facing jail time, Travis is more determined than ever that he needs to escape the life of juvenile delinquency he seems destined for. When the offer of a book deal comes through, Travis is hopeful that this is his chance to escape—if only his stepfather will stop standing in the way of his dreams. In this novel, the acclaimed author of *The Outsiders* “portrays her characters with sympathy and yet commendably refuses to gloss over rough edges or gritty truths” (Publishers Weekly). “Hinton continues to grow more reflective in her books, but her great understanding, not of what teenagers are but of what they can hope to be, is undiminished.”—Kirkus Reviews

Sherwood Forest, home of Oberon, Titania, Puck, Cobweb, Peaseblossom and the rest of the mob, has been whittled away by urban development. It's time to move on, the fairies decide. Sid, their captive, a kindly if gruff young car mechanic, teaches Titania to drive, and on Midsummer's Eve the party sets off in a battered and smelly old bus. They're bound for the New Forest, where they hope to be able to regenerate their magic. The fairies' journey is full of excitement. At a village fair, they show the morris dancers how to cut previously undreamt-of capers. Titania falls in love with a human baby and steals her from her pram, starting a nationwide search for the missing infant. The fairies then

link up with a group of New Age travellers on their way to Stonehenge, who befriend them almost without question. Finally, a fight to the death between Titania and the terrifying and sadistic Morgan-le-Fey must take place before everyone can settle down into some form of harmony and peace.

This book provides an in-depth look at the great motor races that took place in Savannah, Georgia, in the golden era of early road racing: the Grand Prize of the Automobile Club of America and the Vanderbilt Cup. By examining

Savannah's earlier fame in national bicycle racing competitions and its ties to the powerful dynasties who controlled the racing world, the book explains how and why Savannah was chosen. It details the construction of the course, reveals why the races and course were considered "America's greatest" by international racing experts of the period and includes many biographies of the drivers who came to Savannah. Finally, the book explores the theories and complexities of why Savannah's races and road racing in general came to an end.

When the first settlers arrived in the Bluegrass region of Kentucky, they found an astonishing landscape of open woodland grazed by vast herds of bison. Farmers quickly replaced the bison with cattle, sheep, and horses, but left many of the trees to shade their pastures. Today, central Kentucky and central Tennessee still boast one of the largest populations of presettlement trees in the nation, found in both rural and urban areas. In *Venerable Trees: History, Biology, and Conservation in the Bluegrass*, Tom Kimmerer showcases the beauty, age, size, and splendor of these ancient trees and the remaining woodland pastures. Documenting the distinctive settlement history that allowed for their preservation, Kimmerer

explains the biology of Bluegrass trees and explores the reasons why they are now in danger. He also reveals the dedication and creativity of those fighting to conserve these remarkable three-hundred- to five-hundred-year-old plants—from innovative, conscientious developers who build around them rather than clearing the land to farmers who use lightning rods to protect them from natural disasters. Featuring more than one hundred color photographs, this beautifully illustrated book offers guidelines for conserving ancient trees worldwide while educating readers about their life cycle. *Venerable Trees* is an informative call to understand the challenges faced by the companions so deeply rooted in the region's heritage and a passionate plea for their preservation.

Until she meets a lady named Dorcas Vashon, the richest and most cultured black woman she's ever encountered. When Dorcas makes Essie an offer she can't refuse, she becomes Victoria. Transformed by a fine wardrobe, a classic education, and the rules of etiquette, Victoria is soon welcomed in the upper echelons of black society in Washington, D. C. But when the life she desires is finally within her grasp, Victoria must decide how much of

herself she is truly willing to surrender. *Stealing Parker* Sourcebooks, Inc. NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city: “Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.”—The New York Times Book Review Shots rang out in Savannah’s grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman’s Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the “soul of pampered self-absorption”; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and

masterfully written, *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience.

Practice makes perfect. Everyone at Hundred Oaks High knows that career mentoring day is a joke. So when Maya said she wanted to be a rock star, she never imagined she’d get to shadow the Jesse Scott, Nashville’s teen idol. But spending the day with Jesse is far from a dream come true. He’s as gorgeous as his music, but seeing all that he’s accomplished is just a reminder of everything Maya’s lost: her trust, her boyfriend, their band, and any chance to play the music she craves. Not to mention that Jesse’s pushy and opinionated. He made it on his own, and he thinks Maya’s playing back up to other people’s dreams. Does she have what it takes to follow her heart—and go

The Doolittle Family in America DIANE Publishing

A narrative history of America's deadliest episode of race riots and lynchings After World War I, black Americans fervently hoped for a new epoch of peace, prosperity, and equality. Black soldiers believed their participation in the fight to make the world safe for democracy finally earned them rights they had been promised since the close of the Civil War. Instead, an unprecedented wave of anti-black riots and lynchings swept the country for eight months. From April to November of 1919, the racial unrest rolled across the South into the North and the Midwest, even to the nation's

capital. Millions of lives were disrupted, and hundreds of lives were lost. Blacks responded by fighting back with an intensity and determination never seen before. *Red Summer* is the first narrative history written about this epic encounter. Focusing on the worst riots and lynchings—including those in Chicago, Washington, D.C., Charleston, Omaha and Knoxville—Cameron McWhirter chronicles the mayhem, while also exploring the first stirrings of a civil rights movement that would transform American society forty years later.
