In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary. The Treaty Series, where treaties are published in the chronological

order of registration, also provides details about their subsequent history (i.e., participation in a treaty, reservations, amendments, termination, etc.). Comprehensive Indices covering 50-volume-lots are published separately.

When compiling a short-title catalogue, Paul Valkema Blouw was confronted with a large number of 'problem cases'. By minute analysis and drawing from his extensive knowledge and his unrivalled typographic memory, he could attribute a surprising number of these publications to a printer and established the periods when and places where they must have been printed. The present collection of papers is of paramount importance to scholars

engaged in research of the sixteenth century, whether in the field of church history, national history or book history. **A colleccion of all the statutes, (from the begynning of Magna Carta unto the yere of our Lorde 1557,) which were before that yere imprinted. And furst a pistle, necessary to be redde by them that shall use this booke.**

In *The Lies of Sarah Palin*, Geoffrey Dunn provides the first full-scale and in-depth political biography of the controversial Republican vice-presidential candidate and former governor of Alaska. Based on more than two-hundred interviews---many of them with Republican colleagues and one-time political allies of Palin's---and more than forty-thousand pages of uncovered documents, Dunn chronicles Palin's troubling penchant for duplicity in grim detail, from her dysfunctional childhood in Wasilla through her contentious run for

mayor and her failed governorship of Alaska. He also provides the shocking inside story of her betrayal of running mate John McCain during the 2008 presidential campaign and her self-serving resignation as governor in July of the following year. Dunn deftly places Palin in the American tradition of right-wing demagogues---from Huey Long to Joe McCarthy---and details her troubling obsession with Barack Obama as it fuels her own political ambitions and a potential run for the presidency in 2012. *The Lies of Sarah Palin* is a journalistic tour de force that vividly reveals the Queen of the Tea Party movement as a vengeful and manipulative empress without clothes. This is the definitive book on Sarah Palin.

"Zoological Record is published annually in separate sections. The first of these is *Comprehensive Zoology*, followed by sections recording a year's literature relating to a Phylum or Class of the Animal Kingdom. The final section contains the new genera and subgenera indexed in the volume." Each section of a volume lists the sections of that volume.

In the concluding session of the symposium "Acid Deposition, a Challenge for Europe" held in Karlsruhe in September 1983, Dr. GINJAAR, the former Minister of Health and Environmental Protection of the Netherlands, emphasised the need for setting up a concerted research programme including the effects of air pollution on terrestrial and aquatic ecosystems. The Council of Ministers of the European Community in 1984 adopted a revision of the 3rd Community Programme on Environment comprising contract research and concerted action in the field of the effects of air pollution in eco systems. These research areas were also introduced in the 4th R-D Community Programme on Environment, adopted by the Council of Ministers in 1986 and are subject again to contract research and concerted action. The Commission of the European Community is very concerned to increase the effectiveness of research projects carried out within the national programmes, and those undertaken at the Community level. The Commission tends to develop an integrated scientific

approach, including not only the physico-chemical behaviour, the transport and the deposition of airborne pollutants but also the effects of these pollutants, in particular on living organisms and ecosystems. With regard to the specific issue of the effects, the Commission is trying to develop and strengthen a multi-disciplinary approach associating biologists, pathologists, eco physiologists, and specialists of soil sciences, within the concerted action, as well as within coordinated research projects.

In July, 2010, the International Association for Assyriology met in Barcelona, Spain, for 5 days to deliver and listen to papers on the theme "Time and History in the Ancient Near East." This volume, the proceedings of the conference, contains 70 of the papers read at the 56th annual Rencontre, including the papers from several workshop sessions on "architecture and archaeology," "early Akkadian and its Semitic context," "

Hurrian language," "law in the ancient Near East," "Middle Assyrian texts and studies," and a variety of additional papers not directly related to the conference theme. The photo on the back cover shows only a representative portion of the attendees, who were warmly hosted by faculty and students from the University of Barcelona.
