Strupac, fornenst, trappy, scriss, kippy, snool, flying axehandles, from across - these and hundreds of other fascinating and colourful words and phrases give the English language as it has been spoken in Canada's smallest province a flavour all its own. With the Dictionary of Prince Edward Island English, T.K. Pratt makes a major scholarly contribution to the growing list of regional dictionaries that enable us to discover the rich heritage of the language as spoken throughout North America; at the same time it offers a splendid general introduction to the historical and sociological life of the island. There are approximately 1000 entries of non-standard or dialect words, past and present. The notes deal with usage, pronunciation, alternate forms and spellings, and stylistic and regional labels. Entries include definitions, supportive quotations from P.E.I. sources, editorial notes about various subtleties, and dictionary notes which provide links to some thirty-five other dictionaries. Pratt's introduction defines the criteria for inclusion of words, explains his research methods, and outlines the layout of entries. The end matter includes a bibliography and an important sociolinguistic essay, 'The Dictionary in Profile,' which places the work in the broader context of Prince Edward Island speech. Its range and depth of coverage make this an essential work not only for those concerned with P.E.I. and Maritimes studies, but for all those interested in the regional usage of English.

One night, Simon stumbles upon a man, bloody and dying in the street. His alarm goes off when it hasn't been set, text messages are sent to Simon's loved ones without him having any memory of sending them. Ulysses Exposed John Wiley & Sons

A dazzling debut that is at once a lightly erudite novel of ideas and a darkly charming love story set on an island off the coast of Maine—the perfect sophisticated summer read. By turns funny, charming, and tragic, Rosecrans Baldwin's debut novel takes us inside the heart and mind of Dr. Victor Aaron, a leading Alzheimer's researcher at the Soborg Institute on Mount Desert Island in Maine. Victor spends his days alternating between long hours in the sterile lab and running through memories of his late wife, Sara. He has preserved their marriage as a sort of perfect, fit tumultuous, duet between two opposite but precisely compatible souls. But one day, in the midst of organizing his already hyperorganized life, Victor discovers a series of index cards covered in Sara's handwriting. They chronicle the major "changes in direction" of their marriage, written as part of a brief fling with couples counseling. Sara's version of their great love story is markedly different from his own, which, for the eminent memory specialist, is a startling revelation. Victor is forced to reevaluate and relive each moment of their marriage, never knowing if the revisions will hurt or hearten. Meanwhile, as Victor's faith in

memory itself unravels, so too does his precisely balanced support network, a group of strong women—from his lab assistant to Aunt Betsy, doddering doyenne of the island—that had, so far, allowed him to avoid grieving. Rosecrans Baldwin shows himself here to be a young writer bursting with talent and imagination who deftly handles this aching love story with sensitivity and unexpected maturity. You Lost Me There is a treasure of a book filled with beautiful, intelligent prose, a book that wears its smarts lightly and probes its emotions deeply. Do you know what night crawlers are? They make great bait for fishermen who are not squeamish about dirty hands. This story begins when two boys, age thirteen, decide to earn a little money selling worms to a bait shop and are once again together on the thirtieth anniversary of a life-changing discovery. Wakefield, their town and its people, are a part of who they are, especially for young Dolf, who has two important reasons for his trips from New York City to his boyhood home. You see, he was an orphan and was adopted into an Italian American family who live on the wrong side of the tracks in an area known as the Gulch. His friend, Jay, comes from one of the town's oldest Yankee families, dating way back to the 1600. What do they have in common? Is it just the murders that took place back in August 1958? Have you ever had the opportunity to return to your hometown for more than a few days? Was it as you remember, did anyone recognize you as you walked its wide main street? Are the folks different from people in the big apple? Every time he returns, Dolf has the same questions, who am I and who killed my old neighbors from the Gulch?

Is *The Wire* better than *Breaking Bad*? Is *Cheers* better than *Seinfeld*? What's the best high school show ever made? Why did *Moonlighting* really fall apart? Was the *Arrested Development* Netflix season brilliant or terrible? For twenty years--since they shared a TV column at Tony Soprano's hometown newspaper--critics Alan Sepinwall and Matt Zoller Seitz have been debating these questions and many more, but it all ultimately boils down to this: What's the greatest TV show ever? That debate reaches an epic conclusion in TV (THE BOOK). Sepinwall and Seitz have identified and ranked the 100 greatest scripted shows in American TV history. Using a complex, obsessively all-encompassing scoring system, they've created a Pantheon of top TV shows, each accompanied by essays delving into what made these shows great. From vintage classics like *The Twilight Zone* and *I Love Lucy* to modern masterpieces like *Mad Men* and *Friday Night Lights*, from huge hits like *All in the Family* and *ER* to short-lived favorites like *Firefly* and *Freaks and Geeks*, TV (THE BOOK) will bring the triumphs of the small screen together in one amazing compendium. Sepinwall and Seitz's argument has ended. Now it's time for yours to begin!
