Make Science Fun Familius

The universe is an incomprehensible expanse of wonder. Perhaps the most wondrous thing is that we can catch a glimpse of it from our backyards. Readers of this cosmic book will learn about outer space through fun, hands-on experiments. Each project can easily be done at home. "What's Happening" sidebars explain the science behind each activity, introducing readers to key astronomy information. Step-by-step instructions and full-color photographs ensure each project is accessible. Readers will reach for the stars with this epic book of astronomy experiments.

Entertaining Science Experiments with Everyday Objects Simon & Schuster/Paula Wiseman Books

With more than 3 million fans, TheDadLab has quickly become an online sensation by creating a solution for parents when they hear the dreaded 'I'm bored' complaint, and now, for the first time, Sergei Urban has transferred his most popular experiments to print in this beautifully illustrated and mind-blowing book! Using everyday ingredients that you can find in your kitchen cupboard, Sergei shows experiments that are not only fun for children, but fun for adults too! With 40 wonderful activities, including 15-never-before-posted, TheDadLab includes additional information not found on his online posts: each activity will feature a detailed explanation simplifying the information that stems from the fields of Science, Technology, engineering, and Mathematics (STEM) for a parent to help explain their curious child and answer the questions 'how' and 'why.' *Good Housekeeping Amazing Science* ABDO Science experiments you can do at home! Searching for kid-friendly science experiments to do at home? Whether you're prepping for a fifth-grade science fair or want something fun to do with preschoolers, these cool science experiments for kids are super easy and a lot of fun for kids of all ages and all are inside this book. From science experiments to sensory explorations to STEM and STEAM activities, these science activities for kids are sure to be a hit! This collection of science experiments for kids includes: STEAM for you—Take STEAM learning into your own hands with awesome, easy-to-do science experiments for kids that are perfect for doing at home. Science made simple—From hypothesis to observation to results, learn all about the power of the scientific method—and how you can use it everyday. Hows and whys—Each of these science experiments for kids details exactly why things happen the way they do, helping you better understand the results you see. Take your first step into a world of scientific discovery with the help of these amazing science experiments for kids.

365 Weird & Wonderful Science Experiments Penguin

Provides instructions for simple experiments, both indoors and outdoors, using readily available materials, that demonstrate scientific facts about the natural world, the human body, and the basic laws of physics.

Dad's Book of Awesome Science Experiments Experiland science books

55% off bookstores! discount retail price now at \$27,95 instead of \$35,95 Kids, have you ever had a cool science demonstration at school and wanted to learn more about it at home? Have you ever wondered about something and thought your parents or caregivers could help you learn more about it? Or, are you just interested in science and want to learn more about how it works, using simple everyday items from home? This book is going to be great for you! It's a simple explanation of 20 of the coolest science experiments to do from home using items that are usually found in an average household. There are a ton of things to learn from this book, and the experiments are fun and will teach you something about science you probably didn't already know. Get ready to impress your teacher and classmates! Make sure that you have an adult help you with the experiments included in this book; grownups are great at helping you learn and will make sure that all of these experiments are done safely and correctly. Each of the activities can be done with

items generally found in your home or can be purchased at a low cost at a local pharmacy or grocery store. They are all safe and non-toxic; however, proper safety measures should be taken to show children how it is essential always to be protected and prepared. This book covers experiments to learn about the following: - Biology - Physics - Earth - Air and Gases - Water and Liquids - Color - Sound and Music - Art - Plants and Seeds ...And much more!! Enjoy the experiments, and have fun teaching your children about science and knowing they are enjoying it. Get your copy now!

Fun Science Experiments For Kids RH Childrens Books

The enormously popular 52 Deck series continues! These lighthearted card decks offer whimsically illustrated adventures and activities for people of all ages. Each deck contains 52 cards packed with entertaining ideas and is easy to carry in a small bag or pocket. 52 enlightening projects for the amateur scientist! This collection is packed with concoctions and experiments that could turn you into the next great inventor of our age! Great for kids!

365 Simple Science Experiments With Everyday Materials Sterling Publishing Company

Packed with over 40 magical science tricks for kids using simple experiments! Join comedian and author Steve Mould, #1 bestselling author of How to be a Scientist, and learn the secrets behind some of the most famous magic tricks and illusions (and learn some of your own). Learn how to bend water with a balloon, turn water into juice, make a glass beaker disappear in oil, and wow your friends with levitating tinsel! Packed with optical illusions, pranks, and fun facts, this ebook is a must-have for any aspiring scientist or magician (the two aren't as different as you might think)! Each trick is explained using step-by-step photographs, and the science behind each one is showcased clearly and simply. Sprinkled throughout the ebook are profiles of famous magicians and illusionists, such as Harry Houdini and David Blaine, and stories of how they used science to create their most famous tricks. Science is Magic is the perfect addition to any family bookshelf or classroom, putting a fresh spin on science for kids. What's fantastic about this kids' activity ebook is that many of the magic tricks or experiments are something you learn to perform on a friend and require practice. Thus, (the genius bit) it's not something kids will just do once and then turn the page. Think Magic Is Just An Illusion? Think again! Discover science - REAL magic at your fingertips. Learn some amazing experiments to wow your friends, find out how magicians use science in their most famous tricks, and discover the magic of the world around you. Packed with activities for kids from magic tricks to optical illusions, and peppered with fascinating facts, this educational ebook is a must-have for scientists and magicians alike. Added bonus, each 'trick' or experiment in the ebook uses simple items that can be grabbed from home or a hardware store. Get ready to wow your friends with some cool science-backed magic like: - Magnetic fingers - Reading minds - Color changing potion - Guess the coin - Floating ping pong ball and much more! Add other fun-filled Steve Mould titles in the DK collection to your bookshelves, like How To Be A Scientist and The Bacteria Book.

TheDadLab: 40 Quick, Fun and Easy Activities to do at Home Courier Corporation

"Over 60 simple experiments...illustrate seven groups of physical principles....Illustrated by charming drawings, each activity lists equipment needed, procedures, what happens, why, and what now....Interesting enough to intrigue any age, particularly 7-12."--Science Books & Films. **Steve Spangler's Super-Cool Science Experiments for Kids** The Rosen Publishing Group, Inc One of America's most prominent popular science writers presents simple instructions for using common household items to illuminate scientific principles. Simple enough to be understood by an 11-year-old but informative enough for adults, 100 illustrated experiments cover subjects from astronomy, chemistry, physiology, psychology, mathematics, topology, probability, acoustics, and other areas.

Backyard Astronomy Experiments Penguin

Seventy-three easy experiments — requiring only materials found at home or easily available, such as candles, coins, steel wool, etc. — illustrate basic phenomena like vacuum, simple chemical

reactions, and more. All safe. Modern, well-planned.

Make Science Fun: Experiments National Geographic Children's Books

Science can inspire children's thinking, cultivate their spirit of exploration, and bring them infinite fun. The book collects more than 80 well tested scientific experiments that are safe, simple, and fun. The experimental steps are simple, the raw materials are easy to obtain, and the experimental results are exciting. In the process of the scientific experiment, not only bring your children fun but also give them the answers about the experiment. Learn in the experiment, grow in the study, and be happy in the growth. Scientific experiments are the most fun way to learn. Take your children with you.

Fun & Easy Science Projects: Grade 4 Rockridge Press

There is always time to conduct science experiments, because science never sleeps! 365 Weird & Wonderful Science Experiments gives you a full year of kid-friendly experiments to try alone or supervised. This fact- and fun-filled book of science includes hundreds of simple, kid-tested science experiments. All of which can be done with items from around the house, and require little to no supervision! Whether you're making your own slime, rockets, crystals, and hovercrafts or performing magic (science!) tricks and using science to become a secret agent, this book has something for every type of curious kid. Each experiment features safety precautions, materials needed, step-by-step instructions with illustrations, fun facts, and further explorations. With 365 Weird & Wonderful Science Experiments you will: Create a drinkable rainbow Make a bowling ball float Capture a cloud Build furniture out of newspapers Blow bouncing bubbles that don't burst Plus 360 other weird and wonderful experiments. Engaging, encouraging, and inspiring, 365 Weird & Wonderful Science Experiments is every budding scientist's go-to, hands-on guide for learning the fundamentals of science and exploring the fascinating world around them, just like a real scientist.

Fun with Science Experiments Crystal Chottut

For years, James Orgill has amazed millions of YouTube fans with zany experiments in his popular videos on The Action Lab channel. Now, for the first time, you can do these experiments at home!
