My World Record Breaking Adventure Gage Learning

This Road I Ride is the remarkable story of one woman's solo journey around the world by bicycle. Juliana Buhring had been mired in a dark hole of depression after the death of a man she loved, and when an acquaintance suggested they honor his memory by biking across Canada, she thought, "Canada? Why not the world?" And why not alone. She had never seriously ridden a bicycle before. She had no athletic experience or corporate sponsorship, but with just eight months of

preparation, Juliana Buhring departed from Naples, Italy, in July 2012 aiming to become the first woman to circumnavigate the globe. She set out believing she might not ever return, but that she had nothing to lose. Over 152 days, Juliana's ride spanned four continents and 18,060 miles. She traversed small-town and big-mountain America, Australian desert expanses, South Asian rainforests and villages, and Turkish plains. She suffered innumerable breakdowns, severe food poisoning, hostile pursuers, and the international longing for a good Italian espresso. When she crossed the finish line into Naples before the end of the year, she officially became the fastest woman to cycle the world (beating prior men's

records, to boot). Accomplishing what she never thought she could, buoyed by the outpouring of support from friends and strangers, Juliana rediscovered herself. In the process she proved that there are no extraordinary people—there are only people who decide to do extraordinary things.

From the building of the Brooklyn Bridge to immigrants arriving at Ellis Island, the slums of the Lower East Side to magnificent art deco skyscrapers, New York's remarkable rise, reinvention, and growth is not just the tale of a city, but the story of a nation. This beautiful book lays out the streets, sidewalks, culture, and

crowds of the greatest city in the world--in all the greatness of its extremes, contradictions, energy, and attitude. With vistas of Central Park alongside Coney Island and the sleaze of Times Square, this city portrait champions the complexity and chaos of New York--its architecture, culture, fashion, and ethnic diversity. More than just a tribute to the metropolis and its civic, social, and photographic heritage, *New York: Portrait of a City* also pays homage to the indomitable spirit of those who call themselves New Yorkers: full of hope and strength, resolute in their determination to succeed among its glass and granite towers. About the series: Each compact and dynamic volume in TASCHEN's *Piccolo City* series distills the vitality and history of each metropolis into a *billet doux* packed with 150 photos, informative captions and inspiring quotations.

From the author of the international bestseller *On Tyranny*, the definitive history of Hitler's and Stalin's politics of mass killing, explaining why Ukraine has been at the center of Western history for

the last century. Americans call the Second World War "The Good War." But before it even began, America's wartime ally Josef Stalin had killed millions of his own citizens--and kept killing them during and after the war. Before Hitler was finally defeated, he had murdered six million Jews and nearly as many other Europeans. At war's end, both the German and the Soviet killing sites fell behind the iron curtain, leaving the history of mass killing in darkness. *Bloodlands* is a new kind of European history, presenting the mass murders committed by the Nazi and Stalinist regimes as two aspects of a single history, in the time and place where they occurred: between Germany and Russia, when Hitler and Stalin both held power. Assiduously researched, deeply humane, and utterly definitive, *Bloodlands* will be required reading for anyone seeking to understand the central tragedy of modern history. *Bloodlands* won twelve awards including the Emerson Prize in the Humanities, a Literature Award from the American Academy of Arts and Letters, the Leipzig Award for European Understanding, and the Hannah Arendt Prize in Political Thought. It has been

translated into more than thirty languages, was named to twelve book-of-the-year lists, and was a bestseller in six countries.

Jules Verne's classic, a bestseller for over a century, has never appeared in a critical edition before. William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey. - ;Having assured the members of London's exclusive Reform Club that he will circumnavigate the world in 80 days, Fogg - stiff, repressed, English - starts by joining forces with an irrepressible Frenchman, Passepartout, and then with a ravishing Indian beauty, Aouda. Together they slice through jungles, over snowbound passes, even across an entire isthmus - only to get back five minutes late. Fogg faces despair and suicide, but Aouda makes a new man of him, able to face even the Reform Club again. *Around the World in Eighty Days* (1872) contains a strong dose of post-Romantic reality plus extensive borrowing from the author's own *Journey to England and Scotland* - but not a shred of science

fiction. Its modernism lies instead in the experimental literary technique, with parallel plots, a narrator constantly made to look foolish, four characters in search of their own unconscious, and a unique twisting of space and time. Verne's classic, a bestseller for over a century, has never appeared in a critical edition before. William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey. -

Between about 1830 and the outbreak of the First World War, print culture, reading, and writing transformed cultural life in Western Europe in many significant ways. Book production and consumption increased dramatically, and practices such as letter- and diary-writing were widespread. This study demonstrates the importance of the nineteenth century in French cultural change and illustrates the changing priorities and concerns of l'histoire du livre since the 1970s. From the 1830s on, book production experienced an industrial revolution which led to the emergence of a mass literary culture by the close of the century. At the same time, the western world acquired mass literacy. New categories of readers

became part of the reading public while western society also learned to write. Reading Culture and Writing Practices in Nineteenth-Century France examines how the concerns of historians have shifted from a search for statistical sources to more qualitative assessments of readers' responses. Martyn Lyons argues that autobiographical sources are vitally important to this investigation and he considers examples of the intimate and everyday writings of ordinary people. Featuring original and intriguing insights as well as references to material hitherto inaccessible to English readers, this study presents a form of 'history from below' with emphasis on the individual reader and writer, and his or her experiences and perceptions.
