By the best selling authors of 'Michael Jackson: For The Record' Janet Jackson was born on 16th May 1966 in Gary, Indiana - she was just three years old when five of her older brothers, as the Jackson 5, scored their first hit: I Want You Back. Janet's first, self-titled, album was released in 1982 when she was 16 years old, but her input to it was minimal. Not until her first marriage, to James DeBarge, was annulled in November 1985 did Janet sit down, to think seriously about her future direction - and, to her surprise, she realised more than anything she wanted to make music. Decision made, Janet bravely took the first big step on the road to taking control of her own destiny. She fired her manager: her father. Instead, against her father's advice, she teamed up with James 'Jimmy Jam' Harris III & Terry Lewis - formerly members of Prince's band The Time - and the rest, as the saying goes, is history.

These three friends must rely on one another and their newfound demigod gifts as they embark on an epic quest to save Mount Olympus. **THE HIDDEN ORACLE:** Apollo, once the glorious god of the sun, music, and poetry, has been cast down to Earth in punishment by Zeus. Now, as awkward mortal teenager Lester Papadopoulos, he's been tasked with restoring five Oracles that have gone dark in order to regain his place on Mount Olympus. How is he supposed to accomplish that without any godly powers? He needs help, and a demigod named Percy Jackson shows him where to find it: at a training camp on Long Island called Camp Half-Blood. PICTORIAL ST. LOUIS: The Great Metropolis of the Mississippi Valley A Topographical Survey, Drawn From Perspective 1875. Illustrations by Camille N. Dry and designed & edited by Rich. J. Compton. Over 220 pages of illustrations and descriptions of life in St. Louis in the late 1800's. The preliminary drawings for this work were made early in the spring of 1874. After a careful consideration of the subject, it was determined to locate the point of view so that the city would be seen from the southeast, believing that to be the most advantageous in all respects. Accordingly, the point of site was established on the Illinois side of the river, looking to the northwest, and at sufficient altitude to overlook the roofs of ordinary houses into the streets. A careful perspective, which required a surface of three hundred square feet, was then erected from a correct survey of the city, extending northward from Arsenal Island to the Water Works, a distance of about ten miles, on the river front; and from the Insane Asylum on the southwest to the Cemeteries on the northwest. Every foot of the vast territory within these limits has been carefully examined and topographically drawn in perspective, by Mr. C. N. Dry and his assistants, and the faithfulness and accuracy with which this work has been done an examination of the pages will attest. Absolute truth and accuracy in the representation of the territory has been the standard and in no cases have additions or alterations been made unless the same were actually in course of construction. In a few

cases, important public and private edifices that are not yet finished are shown completed, and as they will appear when done. All the buildings within the limits of the survey in July, 1875, are shown; and a very large number of those executed or commenced since that date have been also introduced, the pages having been constantly corrected up to the last possible moment before publication.
