La creciente internacionalización de las operaciones comerciales hace cada vez más necesaria la correcta utilización de la terminología fiscal y de aduanas. En consecuencia, la finalidad última del Diccionario de Fiscalidad y Aduanas es ofrecer a los profesionales y estudiosos del área una exhaustiva fuente de información terminológica que les sirva como herramienta de trabajo. El Diccionario no se limita a ofrecer una ingente recopilación de términos actualizados pertenecientes a áreas diversas conexas entre sí (impuestos, aduanas, contabilidad, derecho, documentación, organizaciones, ...), acompañados de la explicación de su significado cuando éste podría no resultar evidente, sino que además incluye la contextualización y la indicación de la procedencia de dichos términos (inglés británico, inglés americano, inglés canadiense, ...), con el fin de que el usuario alcance a comprender su significado y uso en toda su extensión, y los pueda utilizar con corrección y precisión. Además, se incluyen los sinónimos, opuestos, referencias cruzadas, y por último las abreviaturas y acrónimos cuya comprensión tantos quebraderos de cabeza suelen suponer. Se trata pues del único diccionario bilingüe inglés-español y español inglés existente sobre esta materia que llenará un importante nicho de mercado.
