Fractions, Decimals, and Percentages - Coloring Squared

Both decimals and percentages are just two ways to represent a number. A decimal number can be multiplied by 100 and a percentage symbol (%) can be placed to obtain the percentage value. Also, a percentage can be divided by 100, and a percentage symbol be removed to obtain a decimal value.

[Fractions, decimals & percentages - Oxford Owl for Home](#)

This book is good to teach the relationship between fractions, decimals, and percentages. This is also a great book because it connects fractions, decimals, and percents to real-life experiences. It connects to different children's activities which makes math more engaging for
