History was made on November 22 2003 - England was crowned the World Champion. Everything was ready for rugby to explode in England, for the national team to kick-on, for the level of the domestic game to continue growing and for the sport to truly become prominent nationwide. It did not eventuate. England lost far too many matches and the Aviva Premiership does not match the French Top 14. The result for Rugby World Cup 2015 is a match schedule allocating more games to Wales than to the north of England. Understanding how this came about and also how and why Wales secured matches is an important part of the puzzle and carries substantial implications for future Rugby World Cups. Local and global issues including decision making, rival sports and nationalized players are all tackled in an analysis that seeks to offer realistic and viable solutions for the benefit of English and global rugby.

Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.

World Stars Sole Books

The scenes at Wellington's Westpac Stadium when the All Whites qualified for the 2010 FIFA World Cup in November were unprecedented in New Zealand. The 'White-out' by the fans helped inspire Ricki Herbert's team to a famous 1-0 win against Bahrain - a result which sent the All Whites to the World Cup for only the second time in history. All White Fever uncovers the

story behind one of the greatest achievements in New Zealand sport. Thanks to countless original interviews and some painstaking research, the author details the passionless state of the team when Herbert took charge of the team for the first time in 2005; explores how Herbert went about rebuilding the ethos of the side; turns back the clock to the giant shadow that was hanging over the current generation of All Whites - the 1982 champion team; chronicles how Herbert and then - CEO Graham Seatter planned their assault on South Africa; relives the Road to South Africa with a game-by-game account; profiles the stars of the campaign including inspirational skipper Ryan Nelsen and goal-scoring hero Rory Fallon.

A gripping insight into the power of sport to change lives. Every four years the soccer World Cup unites people all over the globe to watch their favourite team battle it out to make the final. But there's another World Cup that isn't quite as glamorous: the Homeless World Cup (HWC). In 2008 award-winning author and filmmaker Dave Bidini accompanied the poor and dispossessed players of Homeless Team Canada to the HWC in Melbourne. What Bidini found was the ultimate underdog sporting event, teeming with stories of humanity and more relevant to our times than any modern big-ticket spectacle. Through seeing the players' disappointments, frustrations, joys and triumphs, Bidini understands the true meaning of this tournament. He sees firsthand the power of sport to transform the lives of those on the edge - how the decision to play this game can mean the difference between survival or a life of addiction, poverty or crime. Home and Away offers a powerful look at the homeless and disadvantaged, from the barrios of Mexico City and the shanties of West Africa to the streets of North America, Europe and Australia. Whether you're a sports fanatic or a keen observer of human nature, you'll never watch a soccer game in the same way again.

The FIFA coach of the Century presents his thoughts and observations on the art of Team Building in the world of soccer and beyond. All the facets of the team building process, including team tactics and psychology, are included down to the minutest detail. Also included is how youth talent, per age group category, should be developed. And finally, how to set up training sessions to achieve the best results. All the chapters are interspersed with examples from Rinus Michels' personal experiences as a trainer. At the same time he gives a reference framework for everyone who is, on a daily basis, involved with the team building process: from youth and professional coaches to managers in the business world. Because of these unique examples, most of which were never published, this will be a fascinating book for anyone involved in a team building process.

The All Whites soccer team did what no other New Zealand sporting team managed in 2009: they stopped a nation dead and created one of the greatest moments of sporting theatre ever witnessed. Never mind that they were playing tiny Bahrain; never mind that neither New Zealand nor Bahrain were ranked inside FIFA's top 60 footballing nations. This was the all or nothing, 'One

Shot For Glory' game that would catapult the winner onto soccer's greatest stage - the World Cup. Rarely do games like this live up to their billing, but Ryan Nelsen's All Whites' heroic 1-0 victory in Wellington to secure the home-and-away tie actually exceeded expectations. Now, the All Whites have South Africa 2010 to look forward to and their immensely talented captain Ryan Nelsen has agreed to plot the path to that wonderful tournament in this 'fanzine' publication. 'Nelly' shares his views on all the players, the opposition they will face and talks about his boyhood dream to pull on the All Whites shirt.

The Rocky Road to Legacy Books LLC

This volume brings together current academic research and knowledge on the economics and management of professional road cycling. Each chapter treats a particular economic aspect of the sport, from organizational structure to marketing, finance, media coverage, labor, strategic behavior, and competitive balance. By discussing the existing research and complementing it with the newest concepts, ideas and data on professional road cycling, this book sets an agenda for further academic research while providing insights for all stakeholders in cycling: governments, cycling's governing bodies, team managers, race organizers, sponsors, media. Furthermore, the unique characteristics of the sport of cycling explored within this text inform broader management and industrial organization research, as they extend analyses of team labor, broadcast revenue generation, and sponsorship financing models. Revised and updated for the second edition, this volume includes new chapters on women's professional road cycling, the economic impact of hosting major cycling events, and the willingness to pay for professional road cycling events. This book is equally of interest to academic researchers, students studying sports economics, and policy makers, such as race organizers, team managers, and sponsors.
