*The Importance of Being Understood* Simon and Schuster  
The Importance of Being Understood is an innovative and thought-provoking exploration of the links between the way we think about each other's mental states and the fundamentally cooperative nature of everyday life. Adam Morton begins with a consideration of 'folk psychology', the tendency to attribute emotions, desires, beliefs and thoughts to human minds. He takes the view that it is precisely this tendency that enables us to understand, predict and explain the actions of others, which in turn helps us to decide on our own course of action. This relection suggests, claims Morton, that certain types of cooperative activity are dependent on everyday psychological understanding conversely, that we act in such a way as to make our actions easily intelligible to others so that we can benefit from being understood. This idea of 'beneficial circularities' is at the core of Morton's investigation of the interdependencies between folk psychology and social behaviour: we understand each other because we have learned to make ourselves intelligible. Using examples of cooperative activities such as car driving and playing tennis, Adam Morton analyses the concepts of belief and simulation, the idea of explanation by motive, and the causal force of psychological explanation. In addition to argument and analysis, Morton also includes more speculative explorations of topics such as moral progress and presents a new point of view on how and why cultures differ. *The Importance of Being Understood* forges new links between ethics and the philosophy of mind and will be of interest to anyone in either field, as well as developmental psychologists.

Chocolate - 'the food of the Gods' - has had a long and eventful history. Its story is expertly told here by the doyen of Maya studies, Michael Coe, and his late wife, Sophie. The book begins 3,000 years ago in the Mexican jungles and goes on to draw on aspects of archaeology, botany and socio-economics. Used as currency and traded by the Aztecs, chocolate arrived in Europe via the conquistadors, and was soon a favourite drink with aristocrats. By the 19th century and industrialization, chocolate became a food for the masses - until its revival in our own time as a luxury item. Chocolate has also been giving up some of its secrets to modern neuroscientists, who have been investigating how flavour perception is mediated by the human brain. And, finally, the book closes with two contemporary accounts of how chocolate manufacturers have (or have not) been dealing with the ethical side of the industry.

First published in 1981, Let's Talk and Talk About It is regarded as a cornerstone of research in pragmatics, which laid new and lasting foundations for the teaching of English. Forty years on, this extensively updated version is fully tailored for the 21st century. It provides a pedagogic interactional grammar of English, designed for learners and teachers of English and textbook writers, as well as experts of pragmatics and applied linguistics. The book includes a rigorous pragmatic system through which interaction in English and other languages can be captured in a replicable way, covering pragmatically important expressions, types of talk and other interactional phenomena, as well as a ground-breaking interactional typology of speech acts. The book is also illustrated with a legion of interactional and entertaining examples, showing how the framework can be put to use. It will remain a seminal work in the field for years to come.

Let's Communicate is everything you want in a human communication text—substantive, engaging, and fun. Created by communication scholars Douglas Fraleigh, Joseph Tuman, and

Katherine Adams, Let's Communicate takes their combined 100 years' worth of research and teaching experience to present all the basic human communication concepts with unique attention paid to technology, culture, gender, and social justice. The authors provides provocative, real-life examples and a special focus on skills that together make communication meaningful for students both in and out of the classroom—all at an affordable price. Let's Communicate is also the first human communication text to use hundreds of hand-drawn illustrations that help students understand and retain important concepts. These unique and often humorous illustrations present concepts in graphic form (especially helpful for visual learners), make complex ideas easier to understand, provide hooks to help students remember material, extend concepts, and generate discussion.

The Preacher as Storyteller takes a skills-development approach to its timely homiletics topic. In short, author Austin B. Tucker reasons that “You can greatly improve your preaching by sharpening storytelling skills . . . A story can touch the latch spring of the heart to let the life-changing gospel come in.” To that end, he focuses upon the art of narrative and how it is used in the Bible (particularly by Jesus) and profiles great preachers throughout history and into today who have displayed a great gift for effective storytelling in their ministry.

Winner of the Management and Leadership Textbook category at the CMI Management Book of the Year Awards 2013/14, International Management explores management opportunities in encounters across the world between national, organizational, political, professional and social cultures. It is soundly based theoretically and supported with real-life international examples from contemporary events and situations, exploring contemporary and historical material to provide insights for today's managers who find themselves dealing with diversity and difference. From a historical perspective and a uniquely cross-disciplinary approach, Elizabeth Christopher identifies the major leadership styles that continue to characterise people across regions, nations, communities and organisations, within groups and as individuals. International Management is a practical and comprehensive textbook for successful negotiation in a world rich not only in cultural diversity but also in convergence. It also covers the ethical, moral and environmental ramifications of business today and the corporate leaders who are learning to manage their businesses across nations and continents, not only profitably but in ways that contribute to societies overall through economic, environmental and social action. International Management is an indispensable guide for students and practitioners to key issues of cross-cultural management, suitable to accompany online or private studies, or a teaching unit within professional and university graduate studies of international management. Online supporting resources for this book include lecture slides and notes for academics.

The profound changes that we are experiencing at the political, environmental, economic, social, and cultural levels of our “postmodern” society pose immense challenges to education. In order to empower students to analyze, reflect, and take action for a sustainable world, the learning and educational process must be experienced in the context of citizenship; that is, it must be designed, planned, and implemented having global sustainability as a framework, thus developing societal awareness, values, and principles. *Teaching and Learning Practices That Promote Sustainable Development and Active Citizenship* is an essential research book that provides comprehensive research on education as a fundamental factor in empowering citizens to understand and act on the multiple risks and challenges to the sustainability of our society and world. Highlighting a range of critical learning strategies such as global and critical education, development education, and transformational education, among others, this book is ideal for academicians, education professionals, researchers, policymakers, and students.

From Charlie and the Chocolate Factory to Chocolat, from romantic gift to guilty indulgence, chocolate has a special place in Western popular culture. But what are the hidden histories behind this luxurious commodity? This book examines chocolate production from cocoa bean to chocolate box, illuminating the dynamics of gender, race and empire which have structured the cocoa chain. Using a varied range of sources, and drawing on the author's own relationship to the industry, this book reconnects the people and places at different stages of chocolate production. Emma Robertson stresses the need to recognise the complex histories of empire and labour which have made such pleasurable consumption possible. *Chocolate, women and empire* offers exciting new insights into the lives of women workers in a global industry. It will be invaluable to historians of British imperialism as well as to students of Women's and Gender Studies, Cultural Studies and Business Studies.
