Thomas Aquinas devoted a substantial proportion of his greatest works to the virtues. Yet, despite the availability of these texts (and centuries of commentary), Aquinas's virtue ethics remains mysterious, leaving readers with many unanswered questions. In this book, Pinsent argues that the key to understanding Aquinas's approach is to be found in an association between: a) attributes he appends to the virtues, and b) interpersonal capacities investigated by the science of social cognition, especially in the context of autistic spectrum disorder. The book uses this research to argue that Aquinas's approach to the virtues is radically non-Aristotelian and founded on the concept of second-person relatedness. To demonstrate the explanatory power of

this principle, Pinsent shows how the second-person perspective gives interpretation to Aquinas's descriptions of the virtues and offers a key to long-standing problems, such as the reconciliation of magnanimity and humility. The principle of second-person relatedness also interprets acts that Aquinas describes as the fruition of the virtues. Pinsent concludes by considering how this approach may shape future developments in virtue ethics.

Bulletin SAGE Publications India  
Indian scriptures are the treasure hove  
of philosophy—the philosophy of work  
and life. They offer vital guidelines on  
Psychology, Sociology, Political Science,  
Social Psychology, Human Behavior and  
Modern-day Management concepts.  
Ancient Indian scriptures such as the  
Bhagavad Gita, Upanishads and some  
parts of Mahabharata are included in the  
book for HRM topics such as self-  
management, ethics, values, work  
potential, motivation, leadership, boss  
management, stress management and  
interpersonal relationships, etc. The  
study used quantitative methodology  
and collected data from 273 participants  
working in ten Indian companies. The  
statistical results have been included in

the book only briefly to retain flow and  
fluency of thought for the reader. The  
work addresses the vital HR  
management issues in a culturally  
sensitive approach that is thoroughly  
based on Indian scriptural advices. The  
study proposes to plug the gaps in  
existing management knowledge that is  
lopsidedly based on the Western  
management research and theories.  
Resultantly, Arjuna Syndrome Model and  
Krishna Cure Model are presented. These  
models plug in the gaps in existing  
literature in the HRM and advance  
theory by suggesting novel ways of  
managing emotions, motivation,  
leadership, interpersonal relationships,  
recruitment and work potential at  
workplace.

This book provides an overview of multiple facets of ageing and its evolving dynamics in various Indian states. It elaborates on key dimensions like health, dependence and disability, as well as living arrangements for the elderly. Drawing on information from National Sample Surveys to offer readers a broader and richer understanding of the evolving demographic reality in India, the book addresses a range of detailed policies and programmes for the elderly in India. Given its scope, the book is essential reading for students and researchers in the fields of sociology, demography, economics and development studies. It also offers a valuable reference guide for anyone engaged in planning and policy

formulation for social security, welfare of the aged or mainstreaming ageing concerns.

The Code of Federal Regulations of the United States of America W. W. Norton & Company

This volume draws upon one of the first comprehensive studies on the regional variations of services for aging persons in China to provide an empirical and theoretical understanding of the impact of China's rapidly growing aging population on the country's socioeconomic, cultural, and political systems. In three parts, the manuscript combines case-oriented comparative methods with variable-oriented statistical and GIS analyses to examine the spatial patterns and relationships between supply and demand of

affordable and accessible services for aging persons in China. Part one gives a historical review of population aging in China, including the development of services for aging persons and government policies and programs geared towards elders. Part two provides an analysis of spatial variations of supply and demand for services including food, housing, health, and community services for aging persons. Part three uses case studies to analyse the regional and local dimensions of elderly services. Suggestions are made for future planning, development, and policies. This book will appeal to policy makers, city planners, service providing businesses, and advanced undergraduate and graduate students studying economic geography, planning,

and regional development.

Written by the former chairman and managing director of the American Institute in Taiwan, this book sheds new light on key topics in the history of U.S.-Taiwan relations. It fills an important gap in our understanding of how the U.S. government addressed Taiwan and the Taiwan Strait issue from the early 1940s to the present. One theme that runs

through these essays is the series of obstacles erected that denied the people of Taiwan a say in shaping their own destiny: Franklin Roosevelt chose to return Taiwan to mainland China for geopolitical reasons; there was little pressure on the Kuomintang to reform its authoritarian rule until Congress got involved in the early 1980s; Chiang Kai-shek spurned American efforts in the 1960s to keep Taiwan in international organizations; and behind the ROC's back, the Nixon, Carter, and Reagan administrations negotiated agreements with the PRC that undermined Taiwan's position. In addition to discussing how the United States reacted to key human rights cases from the 1940s to the 1980s, the author also discusses the Bush and Clinton administrations' efforts

to preserve U.S. interests while accommodating new forces in the region. All these episodes have an enduring relevance for the people of Taiwan, and in his conclusion the author discusses where the relationship stands today. The book includes related documents that helped shape the U.S.-Taiwan relationship.

*Monthly Bulletin of the International Bureau of the American Republics* Sura Books

This book seeks to improve the quality of life of the elderly by means of policy suggestions that can be implemented by the government. *Caring for the Elderly* focuses on managing various issues confronting the elderly today and the remedial measures that can be taken by care givers and society at large.

Contributions from eminent scholars throw light on important concepts, such as population ageing and its associated impacts. In a rapidly changing world, there is a need to discuss issues related to the elderly population and their health and well-being in the social and economic context. Scholars and researchers of gerontology, anthropology, policy studies will find this book useful.
