Spanish Accelerator McGraw Hill Professional

Introduction to techniques for conversion of over 85% of 30,000 of the most frequently used English words to Spanish vocabulary with a minimum amount of memorization effort & for selection of English words which are more likely to be understood by Spanish speaking persons. As an adjunct to grammar study, this shortcut to an extensive Spanish vocabulary helps minimize the gap between an existing English vocabulary & the desired Spanish vocabulary. It is designed for use by anyone learning Spanish regardless of the level of study. Extensive lists of words in each conversion pattern are provided flagged for words which don't

follow the stated conversion formulae & for words that appear similar in the two languages but having significantly different meanings. (A list of 500 misleading cognates is included to help avoid embarrassing errors). Tips are provided to help in determining noun gender. Supplemental lists of key groups of nonconverting words & lists of 40 separate subject matter groups with their Spanish equivalents are also included. This is the first of a CONVOCAB series on the conversion of vocabulary between English, Spanish, French, Italian & Portuguese.

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn

them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
