A wealth of restoration tips and techniques covering E12, E24, E28,

E34, 5 and 6 Series BMWs built between 1972 and 1995. Covers all models from 518 to M6. Advice is given on acquiring a good

BMW 5 & 6 Series model, plus tips on restoring, engines, bodywork, trim, electrics, suspension & much more. If you have a car like this then you can save thousands as you bring it back up to specification - for your safety or as a restoration project this is the book you need. It is now 40 years since the first BMW 5 Series went down the production lines at Dingolfing. Back in 1972, only the BMW executives with the greatest of foresight could have predicted that in 2012,

the 5 Series would still be in production and still be the class leader - and it's amusing to note that the latest model - the F10 520i - is also a two litre four cylinder just as those first Fives were. BMW occupies a unique position in the hearts of car buyers and enthusiasts for no other marque of car has such a wide fan base. From what are probably the finest range of cars in the world to an enjoyable secondhand car, through to concours events, track days to drifting championships plus huge

clubs and countless forums, no other manufacturer has such a huge and diverse following as BMW. The large numbers of the first three generations of the 5 Series that still survive attest to that, and this book is aimed at owners wanting to know more and pick up some useful maintenance, repair and restoration tips.

800-CEO-Read Sales Book Of The Year for 2015 | Forbes 15 Best Business Books of 2015 | "The chapters, (46 of them in this 256 page book) are quick and concise, and it is easy to pick it up anywhere and find a

nugget of easily actionable advice, but the kicker is that the actions he recommends are also quick and concise, so that we can accomplish them in the few bursts of spare time we all have left.” – 800CEORead.com “Follow Goldfayn's brilliant advice and you will have an endless supply of customer testimonials, spontaneous referrals, and new business, and it will compel you to buy a beautiful fountain pen and stop obsessing over social media. His advice simply works.” – Inc.com Grow

your business by 15% with these proven daily growth actions Do you have trouble finding time during your hectic day to grow your business? Is your company stalled because you are too busy reacting to customer problems? Do you lack the funds to jumpstart an effective marketing plan? The Revenue Growth Habit gives business owners, leaders, and all customer facing staff a hands-on resource for increasing revenue that is fast, easy, and requires no financial investment.

Alex Goldfayn, CEO of the Evangelist Marketing Institute, shows how to grow your organization by 15% or more in 15 minutes or less per day—without spending a penny of your money. Forget about relying on social media. Posting on Twitter, Facebook, and LinkedIn doesn't grow revenue, especially for business-to-business companies. The Revenue Growth Habit shows how to request and collect testimonials and how to communicate these testimonials to grow your

business. You will discover how to write powerful case studies, ask for (and get!) referrals, grow your lists, and send a revenue-growing newsletter. Goldfayn also includes information for teaching your customer service people how to inform your current clients about what else they can buy from you. This proven approach revolves around letting your customers tell your story. There is nothing you can say about your products and services that is more effective than what your paying

customers say. How does it work? Each day, take one quick, proactive communication action that tells someone about how they'll be improved after buying from you. Choose from the 22 actions Goldfayn details in *The Revenue Growth Habit*. Each technique is fast, simple, and free. It only requires your personal effort to communicate the value of your product or service to someone who can buy from you. Personal communication—the key to the 22 action

steps—will make your company stand head-and-shoulders above the competition.

Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow characteristics and the best performance. Porting demands the right tools,

skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth and detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as

well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced

procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.
