Pictorial Calendar of the Seasons, exhibiting the pleasures, pursuits and characteristics of country life for every month in the year, and embodying the whole of Aikin's Calendar of Nature. Edited by Mary Howitt.

Embellished with upwards of one hundred engravings on wood JT Associates

Take an enchanting journey through the shifting seasons in a wildlife sanctuary home to wetland, forest, and grassland and supporting an incredible diversity of plants and animals. Flocks of waterfowl exploding into steely skies above frozen marshland, salamanders creeping across the forest floor to vernal pools, chorusing frogs peeping their ecstasy while warblers crowd budding trees, turtles sunning on floating logs, the ecological engineering of beavers—these are but a few of the sights and sounds marking a year at Jug Bay Wetlands Sanctuary and its neighboring landscapes in Southern Maryland. In an absorbing account of a year in the life of this sanctuary, naturalist Colin Rees invites us to join him as he explores the secrets and wonders of the changing natural world. Alongside the author, we witness spring's avian migrations, quickening of aquatic vegetation, burgeoning of myriad invertebrates, and the assaults of extreme weather conditions. We revel in summertime's proliferation of fish, fowl, and mammals. We become attuned to the shifting climate's impacts on autumnal transitions, and we marvel at amazing feats of biological inventiveness in preparation for winter conditions. Through these visions of the fleeting—and yet enduring—cycles of nature, Rees shares deep insights into the ecological and behavioral dynamics of the natural environment. Enhanced by more than two dozen color plates, the book touches on a wide range of issues, from microbial diversity, bird banding, and butterfly phenology to genetic diversity and habitat fragmentation. It also examines the challenges of conserving these and other natural features in the face of climate change and development pressures. Thoughtful and lyrical, Nature's Calendar speaks to all readers, scientific and lay alike. Fascinating profiles of flora and fauna celebrate the richness and complexity of a unique ecosystem, exploring the entire ecology of this dynamic and delicate area.

Cricket Is a Feeling You Can't Explain Calende 2020 JHU Press Broadhalfpenny Down is the Mecca of cricket. The Bat and Ball Inn across the road is pavilion to the whole cricket world. This is the home of the legendary 18th-century Hambledon Club. Every cricketer wants to visit it because they know this is where cricket began. Only it didn't. That Broadhalfpenny Down is the birthplace of cricket is one of the most well-established myths in sporting history. Yet this ground still holds a unique place in the history of the game. It is where a simple country pastime evolved into a national sport; where the crude techniques of the first players evolved into subtler skills. Between the 1750s and late 1790s, Broadhalfpenny Down staged the biggest matches and fielded the most famous team, playing 'all' England 51 times and winning on 29 occasions - often in front of 20,000 spectators. Here for the first time since 1907 is a full account of the events of more than 200 years ago. Extensively researched and compiled, and updated for this 2015 ebook edition, its author Ashley Mote played competitive club cricket for more than 50 years. He is a non-playing member of numerous cricket clubs. A former journalist, scriptwriter, and businessman, he now writes non-fiction.

Cricket is a sport which is currently undergoing a rapid and dramatic transformation. Traditionally thought of as an English summer game, limited in appeal to Britain and its Commonwealth, cricket has, in the past a few years, achieved a global profile. This is largely due to the development of a new TV-friendly format of the game: Twenty20 cricket. Indeed, through the economic and media interests promoting the Indian Premier League (IPL), the world's richest Twenty20 tournament, cricket has belatedly 'gone global'. The rapid rise of the IPL underlines that the economic and political characters within cricket are no longer the traditional elites in metropolitan centres but the businessmen of India and the media entrepreneurs world-wide who seek to shape new audiences for the game and create new marketing opportunities on a global scale. The contributions in this book fall into two broad categories. There are firstly those which explore the rapid growth of Twenty20, particularly the motors of change and the new directions that cricket is taking as a result of the Twenty20 revolution. Secondly, there are a number of contributions which chart the impact of Twenty20 on traditional elements of the game. This book was originally published as a special issue of Sport in Society.
