The goal of the fifth book Return to Oneness with Shiva is to offer a solution to most people whose life challenge is battling their monkey-mind (ego) which I believe is the cause of suffering and can be conquered by becoming like Hanuman whose love and devotion to his Sadguru is shown by the application of Hanuman Qigong and Hanuman ji's mantras and self-realization teachings of Kashmir Shaivism. Healing with the hologram of love merkaba energy ball of light encoded with the healing conscious mind encodements is also included. Most people are not aware that their healing and spiritual ascension are essentially associated with the functioning of their thyroid gland or throat chakra. Who and what you meditate on, you become. The unified chakra and

aligned energy fields are very important, not just for survival, but - more importantly - as vital tools for ascension, healing and channeling. "Ascension is basically a change in frequency and a change in focus of consciousness. Because the energy you are has frequency, you can change it. The low-frequency stuff of fear and limitation will fall away and you will live in a state of what you would today call ecstasy, at one with your spirit and with the spirit of everyone else. That's ascension." - Master Enoch "Spiritual oneness means the incarnated soul is achieving a higher degree of oneness with the higher soul, and a certain degree of oneness with God and oneness with all." - Master Choa Kok Sui "Use the Triangles Work with the Great Invocation by Holy Master Djwhal Khul and encourage others to use it." - Mang Mike Nator "This universe, which is created in His Consciousness, is dependent on that Consciousness. It is always dependent on that Consciousness. It cannot move outside of that

Consciousness. It exists only when it is residing in His Consciousness. This is the way the creation of His universe takes place. You must understand that this universe, which is created by the Lord of Consciousness, is one with that Creator Who is wholly self-luminous light with Consciousness." - Swami Lakshmanjoo "When one finds true Oneness, there will be no words. . . One will only have the experience of Love and a smiling heart. No words can express that happiness and peace. It is beyond words. Oneness is everything. Oneness is the only truth worth seeking. Oneness is a gift from Heaven." - Hanuman Qigong, origin of the heart, a form of Sheng Zhen Gong The Shamballa Temple of Love with its Ascended Masters can be experienced through the Merkaba meditation facilitated by Ricardo B Serrano of the Melchizedek Order of Mastery (Shamballa Temple of Love). "You will find 'Return to Oneness with Shiva' an excellent addition to your spiritual and healing library." - Bookreview.com

This book offers a translation of the seven thousand verses of the second book of the medieval Hindu text, the Ganesa Purana, one of two Puranas dedicated to the important elephant-headed god. In this book the reader is given many narratives about Ganesa's ascent to earth in order to kill demonic figures who threaten to

overthrow the correct world order. In addition, these narratives contain myths about Ganesa's birth and family as well as some extended and quite humorous myths about ideal devotees of the god. The translation is preceded by a long introduction offering a geographical and historical context for the Ganesa Purana. Following the translation are very extensive notes which bring our points of philological interest, but focus mainly on the literary structure of the text and the methods used to present the many myths and narratives in a coherent and fully integrated manner. *On the Road to Enlightened Duality* Independently Published Sit back, take a deep breath, and embrace the vibrations of the gods themselves... Tantra is an ancient science dealing with many different systems for increasing the speed of human evolution. It predates all of the world's existing religions, and provides the esoteric basis on which many of these religions were later based. Tantra provides practical techniques applicable by men and women of every temperament and spiritual level, and aims at turning every action of life into an act of sadhana, or spiritual practice. The practices included in this book are based in tantra, though many of them have been forgotten for thousands of years. The task of rediscovering them and putting them in a form which can be understood and practised by people of this age has been done solely by Swami Satyananda Saraswati, as his personal contribution to a civilisation searching for a deeper understanding of the basis of life.

"Sound is more than simply a medium of artistic expression. Sound has practical and powerful applications in the real world." Mantras, or simple chants, are short phrases packed with energy and intention--specifically designed to generate powerful sound waves that promote healing, insight, creativity, and spiritual

growth. Healing Mantras is the practical, how-to guide that makes the strengths and benefits of mantras available to everyone. The transformative power of sound has been passed down to the present from the sages of India, the classical scientists of ancient Greece, and the medieval monks of Europe. Mantras, sounds, and chants have inspired, comforted, and mended the lives of individuals, religious orders, and even entire cultures. Even though the science and discipline of chanting and formal prayer are practiced in every religion around the world, this is the first time that ancient Sanskrit mantras have been explained and adapted to Western needs. One of the few Western experts in Hindu and Buddhist mantras, Thomas Ashley-Farrand has practiced mantra-based spiritual disciplines for twenty-five years. In this illuminating book, he explains how and why mantras work and shows how to use them for everything from controlling habits to overcoming fear, from curing specific ailments to finding inner peace. In each of the more than fifty mantras, all translated from the original Sanskrit, Ashley-Farrand unlocks the power of every word, explains its appropriate application, and tells you how to pronounce it in easy-to-follow phonetic symbols. Inside, you'll find mantras for - Health - Worldly Success - Habit Control - Protection - Grief - Anger - Controlling Fear - Personal Attraction - Wisdom - Concentration and Mental Clarity - Healing Life Issues - and more! These mantras can be repeated aloud or in silence and can be used by people of any religion or spiritual practice, "as you wash dishes, as you drive on the freeway, as you meditate, or as you cook." Sound can help and sound can heal, and Healing Mantras now makes this sound medicine available to everyone.

THE ordinary fields of psychological inquiry, largely in possession of the pathologist, are fringed by a borderland of occult and dubious experiment into which pathologists may occasionally venture, but it is left for the most part to unchartered explorers. Beyond these fields and this borderland there lies the legendary wonder-world of Theurgy, so called, of Magic and Sorcery, a world of fascination or terror, as the mind which regards it is tempered, but in either case the antithesis of admitted possibility. There all paradoxes seem to obtain actually, contradictions coexist logically, the effect is greater than the cause and the shadow more than the substance. Therein the visible melts into the unseen, the invisible is manifested openly, motion from place to place is accomplished without traversing the intervening distance, matter passes through matter. There two straight lines may enclose a space; space has a fourth dimension, and untrodden fields beyond it; without metaphor and without evasion, the circle is mathematically squared. There life is prolonged, youth renewed, physical immortality secured. There earth becomes gold, and gold earth. There words and wishes possess creative power, thoughts are things, desire realises its object. There, also, the dead live and the hierarchies of extra-mundane intelligence are within easy communication, and become ministers or tormentors, guides or destroyers, of man. There the Law of Continuity is suspended by the interference of the higher Law of Fantasia. But, unhappily, this domain of enchantment is in all respects comparable to the gold of Faerie, which is presumably its medium of exchange. It cannot withstand daylight, the test of the human eye, or the scale of reason. When these are applied, its paradox becomes an anticlimax, its

antithesis ludicrous; its contradictions are without genius; its mathematical marvels end in a verbal quibble; its elixirs fail even as purges; its transmutations do not need exposure at the assayer's hands; its marvel-working words prove barbarous mutilations of dead languages, and are impotent from the moment that they are understood; departed friends, and even planetary intelligences, must not be seized by the skirts, for they are apt to desert their draperies, and these are not like the mantle of Elijah.

The divine player attempts to analyze the relationship between play and religion in the context of Hinduism. It focuses primarily on the youthful god Krsna. The first part part of the book surveys the role of play among the gods and concludes that play seems to be an intrinsic part of the divine in Hinduism. The second part of the book investigates the role of play in religious cult, again focusing on the various Krsna cults. This section concludes that, although playful themes pervade man`s religious activity in devotion to Krsna, cultic activity may not be reduced to play, as some scholars have suggested. The final section of the book points to examples of divine and cultic play in non-Hindu traditions.
