High school defenses face very different offensive attacks week in and week out. The challenge is not changing your defense every week in order to defend pass-happy formations and smashmouth running attacks. The answer is to combine the strengths of a 4-man front with the PASS strengths of two safety coverages, that can be ran with the players walking the high school hallway. And due to low football IQ and limited film study time, the high school defense must be easy to learn. The strength of the 4-2-5 is the conversion of traditional OLBs to SAFETIES because you have 5 DBs to adjust to all the formation and motion changes in today's high school football. HEAD UP ALIGNMENTS: by a 0-tech NG and a 4-tech DT who slants weak, putts them in the same position as traditional 1 and 3-techniques once the ball is snapped. Blockers don't know which gap they are going to slant in, easy transition from 4 man to 3 man front, and uncovered guards give clean run/pass reads. DIVORCED FRONT and SPLIT FIELD: separates run & pass strengths allowing multiple looks while being simple to learn. Splitting formations in half reduces every offensive formation to 8 alignments. Split Field narrows teaching 4 coverages vs only 8 alignments and follows the "+1" rule. EVERY DAY DRILLS (EDDs): for every position. RUN FIT DEFENSE: forces the RB into a narrow "alley" outnumbered him 3 to 1. Everyone's job remains the same in both the 3-4 & 4-2 fronts. ILB read uncovered guards for clean reads and aggressive reactions. DL keeps the offensive lineman off the linebackers. Secondary provides the force, alley, and contain players. The plays used by high school, college, and pro football teams have come a long way from the days of the "T" formation. Today, the typical NFL playbook is complex enough to give a calculus textbook a run for its money-and long enough to be given to players on laptop computers. Plays like the end-around, the Hail Mary, and the counter-trey bear the insignia of some of the game's great innovators and the players that inspired them, while the newest schemes and plays used in the pros and college are quickly studied and copied throughout the country. These days,

even middle-school teams in Pop Warner leagues are running complex plays, memorized by playing them out in John Madden Football. In *Blood, Sweat and Chalk*, Tim Layden will take readers back to the origins of the offenses and defenses that have changed the course of football and the men behind them. Readers will be delivered to the meeting rooms (and, in some cases, living rooms) where significant schemes were hatched, including the popular one-back spread offense that was first created by John Elway's high school coach to take advantage of his star quarterback's scrambling ability; the origins of the blitz; and the long reign of the triple option as a staple offense for high school and college. The book will also give readers a behind-the-scenes look at how a modern NFL team formulates its game plan for the upcoming season, and will provide a tutorial for fans to better understand the powerful head games that go hand-in-hand with the big hits.

Because the book is divided into chapter, the coach looking for a specific type of single wing play can easily find it and others similar to it. The diagrams found in this book are drawn up versus a very common 5-3 defense. The blocking for the most part is zone or gap zone, which allows the plays to be ran against various defenses. The player assignments are easy to follow and allow the coach to implement the play directly from the book.
