"What do we know about Rene Lacoste? That he was a French tennis legend, the founder of the Lacoste brand, and a remarkable inventor? Lacoste (1904-1996) was an elegant player with an acute sense of fair play, a demanding designer who revolutionized sports apparel, and a passionate engineer who invented the first tubular steel tennis racket. From the tennis court to the golf course, accompanied by family members or friends

made along the way, the man called the Alligator was a determined visionary with an eye for authenticity and detail. Rene Lacoste remains to this day a timeless yet remarkably contemporary fashion icon. Published to celebrate the Lacoste brand's 85th anniversary, this lavishly illustrated work includes a wealth of photographs and archival documents, some published here for the first time, and original drawings by the renowned French illustrator Floc'h."-- Provided by publisher.

Early in the 1900s, one-time oil baron Henry Morrison Flagler took interest in the Southern coast of Florida and began developing an exclusive resort community. Establishing a railroad that would allow easier access to the area, he went on to build two hotels—his hope was that America's first families would come to populate the area. This modest community would later evolve into an iconic American destination,

hosting British royalty, American movie stars, and becoming the home-away-from-home to some of the country's leading families. As the century continued, Palm Beach established itself as a luxury hideaway synonymous with old-world glamour and new-world sophistication. In this splendid volume, longtime resident and Palm Beach social fixture Aerin Lauder takes us through her Palm Beach. From favorite restaurants like Nandos and Renatos, to favorite houses like La

Follia and Villa Artemis, she takes us to the elite shopping of Worth Avenue and the scenic walkways of the Lake Worth trail, all the while relating to us the histories, faces, and places that have become so identified with Palm Beach.

What do Marilyn Monroe and Pele have in common? Prince William and Franz Beckenbauer? ... They all cross borders effortlessly between football and high or popular culture. Here we see them as actors on the football pitch or footballing film stars. Soccer-playing monarchs or football royalty. As fashion

designers creating VIP boxes for stadiums, or playmakers venturing onto the catwalk ... All these personalities show how football is much more than 'putting the ball in the net.'... Dedicated to footballing stars' fashion antics - on the pitch and off it - to the fans, stadiums and glamour - and, of course, to the passion for football"-- Publisher's description.

All the Rage Harry N. Abrams

A journey through the

history, culture, and mystique of tennis from “an original and provocative mind” (The Wall Street Journal). If you’ve watched Rafael Nadal spin a forehand at 4000 rpm, Maria Sharapova arabesque out of a serve, Serena Williams utterly destroy a short ball, or Roger Federer touch a volley into an impossibly angled winner, you know how exciting tennis can be. This book reveals the long history and unique culture behind the sport. With a penchant for tennis’s

inherent drama, historian Elizabeth Wilson finds its core: a psychological face-off between flamboyant personalities navigating the ebbs and flows of fortune in the confines of a 78 x 36-foot box—whether of clay, grass, or DecoTurf. Walking the finely kempt lawns of Victorian England, she shows how tennis’s early role as a social pastime that included both men and women—and thus, lots of sexual tension—set it apart from most other sports and their dominant

masculine appeal. Even today, when power and endurance are more important than ever, tennis still demands that the body behave gracefully and with finesse. In this way, Wilson shows, tennis has retained the vibrant spectacle of human drama and beauty that have always made it special, not just to sports fans but to popular culture. Telling the stories of all the greats, from the Renshaw brothers to Novak Djokovic, and of all the advances, from

wooden racquets to network television schedules, Wilson offers a tennis book like no other, keeping the court square in our sights as history is illuminated around it. “A sporting history unlike any I’ve read—one that, in its sophistication and thoughtfulness, shows up the hollowness of most other accounts.”

A field manual to the technologies that are transforming our lives. Everywhere we turn, a startling new device

promises to transfigure our lives. But at what cost? In this urgent and revelatory excavation of our Information Age, leading technology thinker Adam Greenfield forces us to reconsider our relationship with the networked objects, services and spaces that define us. It is time to re-evaluate the Silicon Valley consensus determining the future. We already depend on the smartphone to navigate every aspect of our existence. We’re told that innovations—from

augmented-reality interfaces and virtual assistants to autonomous delivery drones and self-driving cars—will make life easier, more convenient and more productive. 3D printing promises unprecedented control over the form and distribution of matter, while the blockchain stands to revolutionize everything from the recording and exchange of value to the way we organize the mundane realities of the day to day. And, all the while, fiendishly complex

algorithms are operating quietly in the background, reshaping the economy, transforming the fundamental terms of our politics and even redefining what it means to be human. Having successfully colonized everyday life, these radical technologies are now conditioning the choices available to us in the years to come. How do they work? What challenges do they present to us, as individuals and societies? Who benefits from their adoption? In answering

these questions, Greenfield's timely guide clarifies the scale and nature of the crisis we now confront—and offers ways to reclaim our stake in the future.

"A story about the personal strength, immense growth, and undeniable greatness of

one woman who fearlessly stood up to a culture trying to break her down.”—Serena Williams
In this spirited account, Billie Jean King details her life's journey to find her true self. She recounts her groundbreaking tennis career—six years as the top-ranked woman in the world, twenty Wimbledon championships, thirty-nine grand-slam titles, and her watershed defeat of Bobby Riggs in the famous "Battle of the Sexes." She poignantly recalls the cultural backdrop of those years

and the profound impact on her worldview from the women's movement, the assassinations and anti-war protests of the 1960s, the civil rights movement, and, eventually, the LGBTQ+ rights movement. She describes the myriad challenges she's hurdled—entrenched sexism, an eating disorder, near financial peril after being outed—on her path to publicly and unequivocally acknowledging her sexual identity at the age of fifty-one. She talks about how

her life today remains one of indefatigable service. She offers insights and advice on leadership, business, activism, sports, politics, marriage equality, parenting, sexuality, and love. And she shows how living honestly and openly has had a transformative effect on her relationships and happiness. Hers is the story of a pathbreaking feminist, a world-class athlete, and an indomitable spirit whose impact has transcended even her spectacular achievements in sports.

 Glamorous fashions, personalities, and places captured by iconic photographer Slim Aarons. Slim Aarons, at least according to the man himself, did not photograph fashion: “I didn’t do fashion. I did the people in their clothes that became the fashion.” But despite what he claimed, Aarons’s work is indelibly tied to fashion. Aarons’s incredibly influential photographs of high society and socialites being unambiguously

themselves are still a source of inspiration for modern day style icons. Slim Aarons: Style showcases the photographs that both recorded and influenced the luminaries of the fashion world. This volume features early black-and-white fashion photography, as well as portraits of the fashionable elite—like Jacqueline de Ribes, C.Z. Guest, Nan Kempner, and Marisa Berenson—and those that designed the clothes, such as Oscar de la Renta, Emilio Pucci,

Mary McFadden, and Lilly Pulitzer. Featuring some never-before-seen images and detailed captions written by fashion historians, Slim Aarons: Style is a collection of the photographer's most stylish work.

book, Gorman convincingly moves away from the ossified image of McLaren as a great rock'n'roll swindler, a morally bankrupt punk Mephistopheles, and closer towards his art-school roots, his love of ideas. doorway to an era of fluorescent disenchantment and outlandish possibility' Alan Moore Malcolm McLaren was one of the most culturally significant but misunderstood figures of the modern era. Ten years after his life was cruelly cut short by cancer, The Life & Times of Malcolm McLaren sheds fascinating new light on the public achievements and private life of this cultural iconoclast and architect of punk, whose championing of street culture movements including hip-

hop and Voguing reverberates to this day. With exclusive contributions from friends and intimates and access to private papers and family documents, this biography uncovers the true story behind this complicated figure. McLaren first achieved public prominence as a rebellious art student by making the news in 1966 after being arrested for burning the US flag in front of the American Embassy in London. He maintained this incendiary reputation by fast-

tracking vanguard and left-field ideas to the centre of the media glare, via his creation and stewardship of the Sex Pistols and work with Adam Ant, Boy George and Bow Wow Wow. Meanwhile McLaren's ground-breaking design partnership with Vivienne Westwood and his creation of their visionary series of boutiques in the 1970s and early '80s sent shockwaves through the fashion industry. The Life & Times of Malcolm McLaren also essays McLaren's exasperating

Hollywood years when he broke bread with the likes of Steven Spielberg though his slate of projects, which included the controversial Heavy Metal Surf Nazis and Wilde West, in which Oscar Wilde introduced rock'n'roll to the American mid-west in the 1880s, proved too rich for the play-it-safe film business. With a preface by Alan Moore, who collaborated with McLaren on the unrealised film project Fashion Beast, and an essay by Lou Stoppard casting a twenty-first-

century perspective over his achievements, The Life & Times Of Malcolm McLaren is the explosive and definitive account of the man dubbed by Melvyn Bragg 'the Diaghilev of punk'.

 German troops enter Paris and hoist the swastika over the Arc de Triomphe. The dark days of Occupation begin. How would you have survived? By collaborating with the Nazis, or risking the lives

of you and your loved ones to resist? The women of Paris faced this dilemma every day - whether choosing between rations and the black market, or travelling on the Metro, where a German soldier had priority for a seat. Between the extremes of defiance and collusion was a vast moral grey area which all Parisiennes had to navigate in order to survive. Anne Sebba has sought out and interviewed scores of women, and brings us their unforgettable

testimonies. Her fascinating cast includes both native Parisiennes and temporary residents: American women and Nazi wives; spies, mothers, mistresses, artists, fashion designers and aristocrats. The result is an enthralling account of life during the Second World War and in the years of recovery and recrimination that followed the Liberation of Paris in 1944. It is a story of fear, deprivation and secrets - and, as ever in the French capital, glamour and

determination.
