## BRADSHAW ALIJAH

The Complete Grunfeld Gloucester Publishers Plc

This series provides an ideal platform to study chess openings. By continually challenging the reader to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study any chess opening and at the same time improve your general chess skills and knowledge. The Nimzo-Larsen Attack is an ideal opening choice for players keen to avoid mainline theory but still wanting to set their opponents problems from the outset. In the Nimzo-Larsen, White begins 1 b3 and then develops in hypermodern fashion - planning to undermine any central structures Black dares to erect. A key attraction of the Nimzo-Larsen is that White can steer the game into either sharp play or elaborate strategic battles. In this book, International Master Cyrus Lakdawala invites you to join him in examining the many different variations of the Nimzo-Larsen. Lakdawala studies the typical plans and tactics for both sides, offers repertoire options for White, provides answers to all the key questions and tells you everything you need to know about playing the Nimzo-Larsen Attack. Essential guidance and training in the Nimzo-Larsen Attack Presents a repertoire for White with 1 b3 Utilizes an ideal approach to chess study

The Nimzo-Larsen Attack: Move by Move Opening Repertoire The French Defence provides a good choice for players who want to create a dynamic, unbalanced situation out of the opening but balk at the level of study required to master the ferociously complex Sicilian Defence. The French is one of Black's soundest defences to 1 e4 and is very popular at all levels. White often advances with the space-gaining e4-e5 which, in principle, will generate a small advantage. However, when this structure arises there are no clear points to attack in the black camp and Black has ready-made plans in the form of ...c7-c5 and ...f7-f6, moves that seek to undermine the white centre. In this book, renowned author Cyrus Lakdawala creates a repertoire for Black and navigates through the main lines of the French, providing the reader with well-researched, fresh and innovative analysis. Each annotated game has valuable lessons on how to play the opening, and contains instructive commentary on typical middle-game plans. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. \* Presents a complete French Defence repertoire for Black. \* Thorough explanations of typical pawn structures and piece manoeuvres. \* Utilizes an ideal approach to chess study.

### Beating the Grünfeld

Everyman Chess Chess Explained books provide an understanding of an opening and the middlegames to which it leads, enabling you to find the right moves and plans in your own games. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what specific knowledge you need to have. The Grünfeld Defence is one of the most aggressive openings at Black's disposal. He creates immediate imbalance and plans to strike at White's centre with all available resources. An insipid response from White may not even retain equality, so in the main lines he takes up the gauntlet: he creates a large pawn-centre and puts this to use to launch an attack. While the theory of these lines has been extensively developed, there is a coherent logical thread running through them: the Grünfeld is essentially an opening of grand ideas, which need to be understood well in order to get to grips with the theory and handle the resulting positions. This book provides a discussion of all major lines, and a special contribution from Viacheslav Eingorn on the key ideas of the Rb1 Exchange main line, which he was instrumental in developing in the 1970s and 1980s.

The Fianchetto Solution B. T. Batsford Limited

The Grünfeld Defence is a combative reply to 1 d4 which has been favoured by many world champions including those two legends of the game, Bobby Fischer and Garry Kasparov. It is an opening in the hypermodern style, in that Black generally allows White to build a strong centre early on in the expectation of being able to undermine it in the middlegame play. Opening Repertoire: The Grünfeld Defence book cuts through the dense theory that surrounds this opening and establishes a straightforward repertoire is based around consistent strategies and concepts. It has all the information necessary to enable the reader to begin playing the Grünfeld with confidence. There are also "Grünfeld-

type" suggestions to counter White systems based on the English and Réti openings. In Opening Repertoire: The Grünfeld Defence, Nigel Davies guides the reader through the complexities of the Grünfeld and carves out a repertoire for Black. He examines all aspects of this highly complex opening and provides the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middlegame plans. - A complete repertoire for Black against 1 d4. - A question and answer approach provides an excellent study method.

### The Grünfeld for the Attacking Player

Owl Books The Italian Game (sometimes referred to as the Giuoco Piano) is one of the oldest openings around, and also one of the first lines a player learns when he or she is introduced to chess. It leads to play that is easy to understand: both sides develop their pieces logically and begin attacks on the opposing kings. The Italian Game gives both White and Black the opportunity to play either aggressively and in gambit fashion, or in a restrained and positional manner. One of White's most exciting and attacking options is the legendary Evans Gambit, which has been brought back into the limelight in this modern era by such uncompromising players as World number one Garry Kasparov, Alexander Morozevich and England's Nigel Short. In this book, openings expert Jan Pinski investigates the different strategies and tactics in the Italian Game and Evans Gambit. Using model games for both White and Black, Pinski provides crucial coverage of both the main lines and offbeat variations. This book arms the reader with enough knowledge to play the Italian Game and Evans Gambit with confidence. \* Written by well known opening theoretician \* A useful guide for club and tournament players alike \* All main lines are covered

### The Grünfeld Gambit

Publications Written by a leading expert in the Grünfeld defence, this is a thorough guide to an important chess opening, with explanations of the main themes for both sides.

### Understanding the Grünfeld

Everyman Chess With 3.f3, Alexander Alekhine designed a promising strategy to take Grünfeld players out of their comfort zone. This variation offers White much better chances for an advantage than normal because it makes the favourite reply of Grünfeld players less attractive. This book offers a practical repertoire based on 3.f3, covering all of Black's answers. The ensuing positions are diverse and fresh. White avoids mainstream theory and has a good chance to demolish Black's position. --From back cover.

### Grünfeld Defense

Grandmaster Repertoire Two great books from the Everyman Chess Library, Play the Grünfeld by Yelena Dembo and Play the Sicilian Kan by Johann Hellsten, brought together in one volume The Grünfeld is an exciting and dynamic answer to 1 d4, and has become very popular at all levels of chess. A major reason for this is that it has been a long-time favourite of the World's strongest-ever chess player, Garry Kasparov. The Grünfeld very much relies on the principles of the hypermodern school of chess: Black allows White to erect an impressive-looking centre on the assumption that in the long run it could prove to be more of a liability than an asset. Play often becomes very complex and tactical, one of the reasons the Grünfeld appeals to ambitious players. In Play the Grünfeld, however, opening expert Yelena Dembo circumvents this problem by producing a comprehensive and yet workable repertoire for Black, offering a solution against each of White's tries, whether it's a critical main line or a tricky sideline. After reading this book, you will have the required knowledge and confidence to begin playing the Grünfeld in your own games. The Kan is an ideal choice as an opening weapon against 1 e4, as it one of the easiest variations of the Sicilian to learn and play. The Kan is relatively theory free in the traditional sense, and success is more likely to occur through the understanding of development systems and a deep study of the tactical and positional ideas for both sides. In this book Johan Hellsten draws upon his vast experience in the Sicilian Kan, revealing his secrets and showing how Black can adopt this opening and play it with confidence. He provides the reader with a dependable repertoire, demonstrating what to do in the main lines as well as how to deal with White's tricky alternatives.

### Keep It Simple 1.d4

Gambit Publications Grandmaster Repertoire is a series of high quality chess books based on the main lines, written by strong grandmasters. The aim is to provide the reader with a complete repertoire at a level good enough for elite tournaments, and certainly also for the club championship. In two volumes, The Grünfeld Defence offers a complete repertoire for Black against 1.d4. Avrukh's two previous Grandmaster Repertoire books White received universal rave reviews and have been hugely influential on chess players all over

the world, including at the very highest level. This is Volume One of Two."

### Tactics in the Grünfeld

B. T. Batsford Limited By choosing the Fianchetto System against the Grünfeld, White aims to stifle Black's normal piece play. White avoids presenting Black with a target and instead looks to probe Black's sensitive queenside. White's strategy has been used to good effect by Karpov and Kasparov, reason enough to adopt it in one's own games. This new title offers the first complete coverage of this important chess opening and is ideal for King's Indian players looking for a way to meet the Fianchetto. It also includes up-to-the-minute theory from two top-class theoreticians. Grandmaster Adrian Mikhalchishin is a well-known Ukrainian writer and player, and arguably the worlds' leading expert on the Fianchetto Grünfeld. Alexander Belyavsky is also a Ukrainian grandmaster, who became World Junior Champion in 1973 and won the USSR Championship on many occasions. He has competed regularly and successfully in countless super-grandmaster events.
