The Celtic World is a detailed and comprehensive study of the Celts from the first evidence of them in the archaeological and historical record to the early post-Roman period. The strength of this volume lies in its breadth - it looks at archaeology, language, literature, towns, warfare, rural life, art, religion and myth, trade and industry, political organisations, society and technology. The Celtic World draws together material from all over pagan Celtic Europe and includes contributions from British, European and American scholars. Much of the material is new research which is previously unpublished. The book addresses some important issues - Who were the ancient Celts? Can we speak of them as the first Europeans? In what form does the Celtic identity exist today and how does this relate to the ancient Celts? For anyone interested in the Celts, and for students and academics alike, The Celtic World will be a valuable resource and a fascinating read.

The designs in Celtic illuminated manuscripts represent a distinctive fusion of native Irish, Germanic, and Near Eastern motifs. Graphic artist Ed Sibbett has brilliantly captured the intricacy and beauty of this original art tradition in 37 drawings based on illustrations in the Book of Durrow, the Gospels of St. Willibrord, and the illustrious Book of Kells. Among the motifs are the characteristic Celtic interlacings, geometric-animal combinations, and decorative initials, plus powerful ornaments and symbolic abstractions of animals and people. A portrait of St. Matthew appears as a centerspread, not backed up, that may be taken out and framed. Captions identify the source of each picture and explain the iconography.

The ancient Celts lived in harmony with nature, celebrating the season through raucous festivals, which always included feisty tales with morals and soul-stirring poetry. The Celtic Book of Seasonal Meditations offers an inspirational collection of prose, verse, and meditations drawn from ancient lore and designed to draw modern seekers into the rhythms of nature. Claire Hamilton's overall introduction, simply and briefly, gives readers the tools they need to interpret the recurring symbols and meanings in these excerpts. She gives ideas for meditation using the readings--how to invoke nature, how to go to the Well of Wisdom, how to meet the Goddess in one of her many aspects. The

body of the book is organized by season, each beginning with a short introduction of Celtic practices and beliefs particular to the season. What follows are the tales of warriors and lovers, goddesses and gods, and maidens and faeries, the songs of heroes and poetry in celebration of nature. Meet Queen Medbh, an independent ruler who chose her husband by the qualities he must lack--meanness, fear, and jealousy. Spring has its Meditation on Air, and other ways to consider the meaning of things new, not just at the time of year. Ditto all the other seasons. This collection offers a wealth of scholarship and information in an easy-to-understand and use format. Summer' from Amergin's

Poem of the Seasons Summer is the season for long journeys, silent is the wood of the tall trees undisturbed by wind, green is its clothing, a sheltering canopy. The water sucks and swirls in the stream and there is warmth now in the very clods of earth. A celebration of the ancient Celts and their spirituality--use it for individual meditation or in group rituals and practice. Mythic tales of warriors and faeries, meditations on the meanings of elements, and the symbols of nature. Celtic wisdom and lore made simple and interesting.
