This book studies the early stages of the Cold War from the perspective of the U.S. Embassy in postwar Prague. The main personalities include Ambassador Steinhardt and U.S. Intelligence officers Katek and Taggart. They were highly educated and motivated. Nevertheless, in 1948 they suffered a strategic defeat that helped deepen the Cold War tensions for decades to come.

If you are not living on the edge, then you are taking up too much room. Think of the richest square mile in Britain and your thoughtsturn to The City of London or Chelsea. In fact, a small village in Cheshire is home to more millionaires per square mile than anywhere else in Britain. It is a place where one-in-twenty houses sells for more than £1 million, 20% of the residents enjoy a seven-figure income and in an index of 'poshness' Alderley Edge scored 136 out of a maximum 137. The media like to focus on the glitz and the glamour, an image of a shallow nouveau riche. But that is not the real story. The entrepreneurial spirit is concentrated in these streets like nowhere else in Britain. These are self-made people, entrepreneurs with amazing stories of triumphs, tribulations, disasters and incredible recoveries. There is another side to Alderley Edge and the 'Golden Triangle', one that the outsider would not necessarily see... PRAISE FOR TO THE EDGE 'Malcolm McClean has an incredible knack for uncovering those small insights which can make a big difference. In this inspirational book he gets inside the minds of wealth creators as only he can. These are the people that drive our economy. Their quirky, unusual and sometimes extraordinary way of looking at the world is one which we should embrace.' --Lord Mawson OBE, Founder the Water City Group & President of CAN

Now in paperback, the hugely acclaimed, authorised biography of Britain's most popular playwright Alan Ayckbourn is Britain's most popular playwright and its most private. He has won numerous awards for his plays and has worked with some of theatre's most celebrated names, yet he spends most of his time away from the limelight in a Yorkshire seaside town not writing at all but running a small repertory theatre. This is a portrait of a man who - from *Relatively Speaking* in 1965 to his double play *House and Garden* at the National Theatre in 2000 - has chronicled human behaviour, our aspirations and insecurities, while shaping the theatrical experience of millions. "Mr Allen's book makes me want to start reading the entire Ayckbourn canon over again...splendid stuff" Hugh Leonard, *Sunday Independent* "Paul Allen has come up with a wise, well-informed book that not only persuades us of Ayckbourn's genius but also helps to explain this complex, driven man" Michael Billington, *Country Life* "Lucid, meticulously researched ... this impressively detailed account benefits from Paul Allen's rich inside knowledge of theatre" Terry Eagleton, *Times Literary Supplement* "Thorough and enjoyable" Christopher Hirst, *Independent*

I've got some great news for you! You are much closer than you think to living a life that deeply satisfies your heart and soul, even if it feels like that's not true for you right now. In fact, for many people it feels impossible. It might even look impossible. Despite our feelings and perspectives, though, it is still absolutely, undeniably true: you are living on the edge of incredible. You're receiving an invitation with these very words-an invitation to more freedom than you've ever thought possible. It's an invitation to revel in unconditional acceptance, to make a positive impact in the lives of those around you, and to move past the edge of incredible right to the very centre of it.

At the Edge of Empire On the Edge The Spectacular Rise and Fall of Commodore This book tells the story of Commodore through first-hand accounts by former Commodore engineers and managers. Reliving the early years of an icon in the personal computer revolution turns out to be a fascinating and improbably hilarious journey. This gripping tale of ambition, greed, and inspired engineering gives readers a front row seat at the dawn of the personal computer. Engineers and managers relate their experiences through personal first-hand accounts, vividly recalling the most important moments of Commodore's entry into

computers in 1976 until its demise in 1994. The Commodore years are tumultuous, owing to their volatile founder, Jack Tramiel. He pushes his team to extreme limits, demanding that they almost kill themselves to meet his lofty expectations. Against all odds, his engineers deliver more color, more character, and more value than either Apple or IBM. While other companies receive more press, Commodore sells more computers. They cut a path of destruction through the competition, knocking out Sinclair, Tandy, Texas Instruments, and Atari and almost mortally wounding Apple. Unfortunately, Tramiel's cut throat tactics also prove to be his undoing. He uses up his managers and employees like disposable ink cartridges, producing the highest employee turnover rate in the industry. Living on the Edge Amazing Relationships in the Natural World

Unknown NASCAR driver Adam Drake has some of the best moves Rebecca Newman has ever seen, both on and off the track. But she can't afford to feel anything but respect for the new driver she's hired to pilot her race car. With the financial security of her team hanging in the balance and everyone in the series thinking she's nuts, the last thing she needs is just getting in the way of logic. Too bad Adam has other ideas. Adam isn't afraid of a challenge, but getting close to his new owner is proving to be a tougher road than some of the superspeedways he's driven. It's going to take a secret weapon—his daughter. Soon his precocious ten-year-old has Rebecca on the run—straight into Adam's arms. But can he convince her to stay with him, and leave behind the ghosts of her past once and for all?

"A love song for the city . . . [this] volume, attractively packaged and richly illustrated, is really a cookbook for downtown revitalization." --Wall Street Journal In this pioneering book on successful urban recovery, two urban experts draw on their firsthand observations of downtown change across the country to identify a flexible, effective approach to urban rejuvenation. From transportation planning and sprawl containment to the threat of superstore retailers, they address a host of key issues facing our cities today. Roberta Brandes Gratz (New York, NY), an award-winning journalist and urban critic, is author of the urban design classic *The Living City*. A former staff reporter for the *New York Post*, Gratz has written for the *New York Times Magazine* and other publications. Norman Mintz (New York, NY) has played a leading role in the field of downtown revitalization for more than twenty-five years. He is Design Director at the 34th Street Partnership in New York City and a consultant on downtown revitalization across the country.

Filled with first-hand accounts of ambition, greed, and inspired engineering, this history of the personal computer revolution takes readers inside the cutthroat world of Commodore. Before Apple, IBM, or Dell, Commodore was the first computer manufacturer to market its machines to the public, selling an estimated 22 million Commodore 64s. Those halcyon days were

tumultuous, however, owing to the expectations and unsparing tactics of founder Jack Tramiel. Engineers and managers with the company between 1976 and 1994 share their memories of the groundbreaking moments, soaring business highs, and stunning employee turnover that came with being on top in the early days of the microcomputer industry. This updated third edition includes additional interviews and first-hand material from major Commodore figures like lead engineer Jeff Porter, engineers Bob Welland, Michael Sinz, Hedley Davis and Electronics Arts founder Trip Hawkins.

Liminality has become a key concept within the social sciences, with a growing number of publications devoted to it in recent years. The concept is needed to address those aspects of human experience and social life that fall outside of ordered structures. In contrast to the clearly defined roles and routines that define so much of industrial work and economic life, it highlights spaces of transition, indefiniteness, ambiguity, play and creativity. Thus, it is an indispensable concept and a necessary counterweight to the overemphasis on structural influences on human behavior. This book aims to use the concept of liminality to develop a culturally and experientially sensitive psychology. This is accomplished by first setting out an original theoretical framework focused on understanding the 'liminal sources of cultural experience,' and second an application of concept to a number of different domains, such as tourism, pilgrimage, aesthetics, children's play, art therapy, and medical diagnosis. Finally, all these domains are then brought together in a concluding commentary chapter that puts them in relation to an overarching theoretical framework. This book will be useful for graduate students and researchers in cultural psychology, critical psychology, psychosocial psychology, developmental psychology, health psychology, anthropology and the social sciences, cultural studies among others.

Located less than a mile from Juárez, the Stanlee and Gerald Rubin Center for Visual Arts at the University of Texas at El Paso is a non-collecting institution that serves the Paso del Norte region. In Curating at the Edge, Kate Bonansinga brings to life her experiences as the Rubin's founding director, giving voice to a curatorial approach that reaches far beyond the limited scope of "border art" or Chicano art. Instead, Bonansinga captures the creative climate of 2004-2011, when contemporary art addressed broad notions of destruction and transformation, irony and subversion, gender and identity, and the impact of location on politics. The Rubin's location in the Chihuahuan desert on the U.S./Mexican border is meaningful and intriguing to many artists, and, consequently, Curating at the Edge describes the multiple artistic perspectives conveyed in the place-based exhibitions Bonansinga oversaw. Exciting mid-career artists featured in this collection of case studies include Margarita Cabrera, Liz Cohen, Marcos Ramírez ERRE, and many others. Recalling her experiences in vivid, first-person scenes, Bonansinga reveals the processes a contemporary art curator undertakes and the challenges she faces by describing a few of the more than sixty exhibitions that she organized during her tenure at the Rubin. She also explores the artists' working methods and the relationship between their work and their personal and professional histories (some are Mexican citizens, some are U.S. citizens of Mexican descent, and some have ancestral ties to Europe). Timely and illuminating, Curating at the Edge sheds light on the work of the interlocutors who connect artists and their audiences.
