After the Rite: Stravinsky's Path to Neoclassicism (1914-1925) traces the evolution of Stravinsky's compositional style as he searched for his own voice in the explosive musical world of the early 20th century as he responded to harsh criticisms of his work.

L'ange tout a commencē

Angels occupy a significant space in contemporary popular spirituality. Yet, today more than ever, the belief in the existence of intermediary spirits between the human and divine realms needs to be evangelized and Christianized. Angels and Demons offers a detailed synthesis of the givens of the Christian tradition concerning the angels and demons, as systematized in its essential principles by St. Thomas Aquinas. Certainly, the doctrine of angels and demons is not

at the heart of Christian faith, but its place is far from negligible. On the one hand, as part of faith seeking understanding, angelology has been and can continue to be a source of enrichment for philosophy. Thus, reflection on the ontological constitution of the angel, on the modes of angelic knowledge, and on the nature of the sin of Satan can engage and shed light on the most fundamental areas of metaphysics, epistemology, and ethics. On the other hand, angelology, insofar as it is inseparable from the ensemble of the Christian mystery (from the doctrine of creation to the Christian understanding of the spiritual life), can be envisioned from an original and fruitful perspective.

Bringing allegory into the light from the neglect into which it fell means focusing on the wondrous heights of the human spirit in its significance for culture. Contemporary philosophies and literary theories, which give pre-eminence to primary linguistic forms (symbol and metaphor), seem to favor just that which makes intelligible

communication possible. But they fall short in accounting for the deepest subliminal founts that prompt the mind to exalt in beauty, virtue, transcending aspiration. The present, rich collection shows how allegory, incorporating the soaring of the spirit, offers highlights for culture, with its fluctuations and transformation. This collective effort, rich in ideas and intuitions and covering a vast range of cultural manifestations, is a pioneering work, retrieving the vision of the exalted human spirit, bringing together literature, theatre, music and painting in a variety of revealing perspectives. The authors include: M. Kronegger, Ch. Raffini, J. Smith, J.B. Williamson, H. Ross, M.F. Wagner, F. Divorine, L. Oppenheim, D.K. Heckerl, N. Campi de Castro, P. Saurez Pascual, M. Alfaro Amieiro, H. Fletcher Thompson, R.J. Wilson III, and A. Stensaas. For specialists, students and workers in philosophy, comparative literature, aesthetic phenomenologists and historians of art.

L'oeuvre de Dieu, la part du diable Contemporary French Fiction
The recent exhibitions dedicated to Botticelli around the world show, more than ever, the significant and continued debate about the artist. Botticelli Past and Present engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion

of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly illustrated throughout, the broad range of essays in this book make a valuable contribution to Botticelli studies.

These papers examine how occult and esoteric themes appear in visual and verbal media, connecting to intellectual history, literature, the arts, present day pop culture, and religious practices. The topics range from the witchcraft motives in the love poetry of the 15th-century Humanist poet, Conrad Celtis; through the activities of Polish and Russian theosophists; Croatian, Greek, Polish painters of the spiritual; the philosophy of wine by the Hungarian esoteric philosopher Béla Hamvas; to contemporary Serbian magic and neo-shamanism. Two studies touch upon the influence of Freemasonry and the Kabbalah in Western esotericism, and, although these are not specifically

Central European topics, they provide parallel perspectives to what the other papers of the collection are investigating.

Sensible Ecstasy investigates the attraction to excessive forms of mysticism among twentieth-century French intellectuals and

demonstrates the work that the figure of the mystic does for these thinkers. With special attention to Georges Bataille, Simone de Beauvoir, Jacques Lacan, and Luce Irigaray, Amy Hollywood asks why resolutely secular, even anti-Christian intellectuals are drawn to affective, bodily, and widely denigrated forms of mysticism. What is particular to these thinkers, Hollywood reveals, is their attention to forms of mysticism associated with women. They regard mystics such as Angela of Foligno, Hadewijch, and Teresa of Avila not as emotionally excessive or escapist, but as unique in their ability to think outside of the restrictive oppositions that continue to afflict our understanding of subjectivity, the body, and sexual difference. Mystics such as these, like their twentieth-century descendants, bridge the gaps between action and contemplation, emotion and reason, and body and soul, offering new ways of thinking about language and the limits of representation.

but also of a second, invisible city as it exists in the mind and imagination of its inhabitants. They bring to light a mirroring reality lurking underneath the surface of the visible world and explore the constant transactions that take place between these two levels in Kinshasa's urban scape. With the exhibition that accompanied the release of their Kinshasa book, the authors won a Golden Lion at the 11th International Architecture Biennale in Venice, 2004. This beautifully illustrated publication is now again made available. Based on longstanding field research, it provides insight into local social and cultural imaginaries, and thus in the imaginative ways in which local urban subjects continue to make sense of their worlds and invent cultural strategies to cope with the breakdown of urban infrastructure. Recit de La Conference Du Diable Avec Luther (1681) JHU Press

David, a member of the Platonic school in Alexandria in the sixth century, is credited with several commentaries on Aristotle's logic: those commentaries, and their Armenian translations, form the subject of this book. An introduction, which discusses David and his place in the Greek and the Armenian traditions, is followed by a series of studies of the relations between the Greek texts and their Armenian translations: the aims are, first, to assess the value of the translations for the constitution of the original Greek, and secondly, to consider the ways in which the Armenian translations adapted the texts to suit their new readership. More generally, the book is concerned with the ways in which Greek thought was exported abroad to Armenia and to Syria: it is required reading for anyone who is interested in the circulation of ideas between east and west.
