‘Censorship’ has become a fashionable topic, not only because of newly available archival material from Eastern Europe and the former Soviet Union, but also because the ‘new censorship’ (inspired by the works of Foucault and Bourdieu) has widened the very concept of censorship beyond its conventional boundaries. This volume uses these new materials and perspectives to address the relationship of censorship to cultural selection processes (such as canon formation), economic forces, social exclusion, professional marginalization, silencing through specialized discourses, communicative norms, and other forms of control and regulation. Two articles in this collection investigate these issue theoretically. The remaining eight contributions address the issues by investigating censorial practice across time and space by looking at the closure of Paul’s playhouse in 1606; the legacy of 19th century American regulations and representation of women teachers; the relationship between official and samizdat publishing in Communist Poland; the ban on Gegenwartsfilme (films about contemporary society) in East Germany in 1965/66; the censorship of modernist music in Weimar and Nazi Germany; the GDR’s censorship of jazz and avantgarde music in the early 1950s; Aesopian strategies of textual resistance in the pop music of apartheid South Africa and in the stories of Mario Benedetti.

Ceremonies in Dark Old Men, a classic of American theater, is the poignant story of a family in 1950s Harlem. In timeless prose, Lonne Elder explores the discontent of a generation that has		
grown old before its time, and the determination of the next generation to avoid such a fate. In the play, Russel B. Parker is a prodigal father and failed barber who exists on memories and "ceremonies" for survival. He spends his time recounting atmospheric tales of his life in vaudeville and tells, in darkly comic detail, about his days on the chain gang. Just beneath the surface of Elder's work lie the terrors of day-to-day life in a racist society--never directly mentioned, but always simmering unforgettably. Ceremonies in Dark Old Men had its debut Off-Broadway in 1969. It received enthusiastic reviews and moved into an extended run. Since its first performance, the play has been produced numerous times both on television and on the stage, with the leads being played by an honor roll of actors, including Laurence Fishburne, Denzel Washington, and Billy Dee Williams.

The kalimba or mbira is a traditional and typical African instrument. It consists of metal keys attached by a wooden support structure. Normally, the African mbira has 4-20 keys, but there also exist mbiras with 45 keys. One of the ethnic groups of people of Zimbabwe, the Rosvi, are called "Mbira people". Any folk song presupposes dance, but in Africa, dance is impossible to separate from a song. Music and dance accompany African birth, growing up, initiation, marriage, the birth of children, death, as well as most social activity, such as hunting, planting and gathering. Music is often associated in Africa with magic. As the African proverb says: "the spirit cannot ascend to heaven without a song". This educational book will help you begin to play music simply and easily. If you are a beginner, playing by notes can be difficult. It is easier to play the finger piano by following numbers. Learn how to play music in a quick and easy way, without knowledge of reading sheet music. Our sheet music is universal and suitable for any 8-, 10- or 17- note kalimbas and		

mbiras. Follow the numbers and begin to play! Some melodies might have been changed and simplified to be played in the diatonic range. In the first fully comprehensive study of one of the world's most iconic musical instruments, Stephen Cottrell examines the saxophone's various social, historical, and cultural trajectories, and illustrates how and why this instrument, with its idiosyncratic shape and sound, became important for so many different music-makers around the world. After considering what led inventor Adolphe Sax to develop this new musical wind instrument, Cottrell explores changes in saxophone design since the 1840s before examining the instrument's role in a variety of contexts: in the military bands that contributed so much to the saxophone's global dissemination during the nineteenth century; as part of the rapid expansion of American popular music around the turn of the twentieth century; in classical and contemporary art music; in world and popular music; and, of course, in jazz, a musical style with which the saxophone has become closely identified.

Sympathy for the Drummer: Why Charlie Watts Matters is both a gonzo rush—capturing the bristling energy of the Rolling Stones and the times in which they lived—and a wide-eyed reflection on why the Greatest Rock 'n' Roll Band in the World needed the world's greatest rock 'n' roll drummer. Across five decades, Rolling Stones drummer Charlie Watts has had the best seat in the house. Charlie Watts, the anti-rock star—an urbane jazz fan with a dry wit and little taste for the limelight—was witness to the most savage years in rock history, and emerged a hero, a warrior poet. With his easy swing and often loping, uneven fills, he found nuance in a music that often had little room for it, and along with his greatest ally, Keith Richards, he gave the Stones their swaggering beat. While others battled their drums, Charlie played his modest kit with finesse and humility, and yet his relentless grooves on the nastiest hard-rock numbers of the era ("Gimme Shelter," "Street Fighting Man," "Brown Sugar," "Jumpin' Jack Flash," etc.) delivered a dangerous

authenticity to a band that on their best nights should have been put in jail. Author Mike Edison, himself a notorious raconteur and accomplished drummer, tells a tale of respect and satisfaction that goes far beyond drums, drumming, and the Rolling Stones, ripping apart the history of rock'n'roll, and celebrating sixty years of cultural upheaval. He tears the sheets off of the myths of music making, shredding the phonies and the frauds, and unifies the frayed edges of disco, punk, blues, country, soul, jazz, and R&B—the soundtrack of our lives. Highly opinionated, fearless, and often hilarious, Sympathy is an unexpected treat for music fans and pop culture mavens, as edgy and ribald as the Rolling Stones at their finest, never losing sight of the sex and magic that puts the roll in the rock—the beat, that crazy beat!—and the man who drove the band, their true engine, the utterly irreplaceable Charlie Watts.

Winesburg, Ohio is a 1919 short story cycle by the American author Sherwood Anderson. Sherwood Anderson (1876–1941) was an American novelist and short story writer, known for subjective and self-revealing works. Self-educated, he rose to become a successful copywriter and business owner in Cleveland and Elyria, Ohio. In 1912, Anderson had a nervous breakdown that led him to abandon his business and family to become a writer. The work is structured around the life of protagonist George Willard, from the time he was a child to his growing independence and ultimate abandonment of Winesburg as a young man. It is set in the fictional town of Winesburg, Ohio (not to be confused with the actual Winesburg), which is based loosely on the author's childhood memories of Clyde, Ohio. Mostly written from late 1915 to early 1916, with a few stories completed closer to publication, they were "...conceived as complementary parts of a whole, centered in the background of a single community." The book consists of twenty-two stories, with the first story, "The Book of the Grotesque", serving as an introduction.

Kalimba. 45 Simple Songs Around the World Helen Winter

For several centuries Cape Town has accommodated a great variety of musical genres which have usually been associated with specific population groups living in and around the city. Musical styles and genres produced in Cape Town have therefore been assigned an "identity" which is first and foremost social. This volume tries to question the relationship established between musical styles and genres, and social - in this case pseudo-racial - identities. In *Sounding the Cape*, Denis-Constant Martin recomposes and examines through the theoretical prism of creolisation the history of music in Cape Town, deploying analytical tools borrowed from the most recent studies of identity configurations. He demonstrates that musical creation in the Mother City, and in South Africa, has always been nurtured by contacts, exchanges and innovations whatever the efforts made by racist powers to separate and divide people according to their origin. Musicians interviewed at the dawn of the 21st century confirm that mixture and blending characterise all Cape Town's musics. They also emphasise the importance of a rhythmic pattern particular to Cape Town, the ghoema beat, whose origins are obviously mixed. The study of music demonstrates that the history of Cape Town, and of South Africa as a whole, undeniably fostered creole societies. Yet, twenty years after the collapse of apartheid, these societies are still divided along lines that combine economic factors and "racial" categorisations. Martin concludes that, were music given a greater importance in educational and cultural policies, it could contribute to fighting these divisions and promote the notion of a nation that, in spite of the violence of racism and apartheid, has managed to invent a unique common culture.
