Gears Of War: Jacinto's Remnant

Routledge

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books

in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings

themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism. **Scar Wars** Getty Publications

It was Life and Time magazines that turned a local story from Tucson, Arizona, into a national abomination. Reporters came from all over, to be sure, but on March 4, 1966, Life printed an ominous photo of the desert landscape where three girls had disappeared and the story of Charles Howard Schmid, Jr., or "Smitty," became international news. He had been arrested four months earlier on November 11, just after

marrying a fifteen-year-old girl whom he'd met on a blind date. The article was published even before the juries in two separate trials had decided his fate. Dubbed "The Pied Piper of Tucson," for his ability to get girls to fall for him, he stood five feet, four inches tall, but added three more inches by padding his stack-heeled cowboy boots with rags and tin cans. He also dyed his reddish-brown hair black, used pancake make-up, whitened his lips, and applied a fake mole to his left cheek-a "beauty" mark. Arrogant and narcissistic, he came from a wealthy family, so he used the niceties he could buy to impress young high school girls. He adopted the droopy-eyed look associated with Elvis, his idol, and acquired a rock musician's mystique. His tiny house on his parents' property was

the scene of many parties. Tucson society was not merely shaken by the murders of three of their young women but by what the details of those murders revealed about its adolescent population--sex clubs, drinking parties, blackmail, cover-ups for murder, and even connections with the crime underworld. Parents suddenly became more strict, more aware now that their kids weren't safe and maybe weren't even behaving properly. When kids looked to someone like Charles Schmid for answers, there was something terribly wrong.

To observe an eclipse is to witness a rare and unusual event. Under darkened skies the sun becomes a negative image of itself, its corona transforming the landscape into a strange space where anything might happen, and any story may be true... In the spirit of classic science fiction anthologies such as

Universe, Orbit, and Starlight, master anthologist Jonathan Strahan (The Best Science Fiction and Fantasy of the Year) presents the non-themed genre anthology *Eclipse: New Science Fiction and Fantasy*. Here you will find stories where strange and wonderful things happen--where reality is eclipsed by something magical and new. Continuing in the footsteps of the multiple-award-nominated anthologies *Eclipse One* and *Eclipse Two*, *Eclipse Three* delivers new fiction by some of the genre's most celebrated authors, including Karen Joy Fowler's story of a family's desperation and a rebellious young woman's strange incarceration; Ellen Klages's fable of a practical girl, an unusual tortoise, and an ancient mathematical puzzle; Pat Cadigan's story of a mysterious

photograph and two friends' journey through space and time in order to solve its riddle; Jeffrey Ford's tale of a legendary sword imbued with the power to turn flesh to coral, and of the artist that wields it; Daniel Abraham's story of divine providence, sacred oaths, and the omens that indicate whether a man is fit to be king; and Caitlin R. Kiernan's chronicle of an astronaut whose memories of a lover lost to an alien intelligence haunt her.

Hot Rock Licks HarperCollins
#1 New York Times bestselling author and popular radio and television host Glenn Beck revisits Thomas Paine's *Common Sense*. In any era, great Americans inspire us to reach our full potential. They know with conviction what they believe within themselves. They understand that all actions have consequences. And they find commonsense solutions to the nation's problems. One such American, Thomas Paine, was an ordinary man who changed the course of history by penning *Common Sense*, the concise 1776 masterpiece in which, through extraordinarily straightforward and indisputable arguments, he encouraged his fellow citizens to take control of America's future—and, ultimately, her

freedom. Nearly two and a half centuries later, those very freedoms once again hang in the balance. And now, Glenn Beck revisits Paine's powerful treatise with one purpose: to galvanize Americans to see past government's easy solutions, two-party monopoly, and illogical methods and take back our great country.
