Dalle indagini geografiche e cronologiche condotte sulla diocesi di Ariano nei secoli XI-XII e dallo studio agiografico dei suoi Santi Patroni, emergono aspetti fondamentali che si riscontrano nella maggior parte delle diocesi e delle devozioni campane dell'epoca. La diocesi di Ariano, rispetto al periodo oggetto di osservazione, è di recente formazione ed è concomitante all'insediamento dei signori dell'epoca, i Normanni. La contemporaneità di questo nuovo assetto istituzionale assurge ad un rinnovato ruolo politico e religioso ed ha contribuito a definire poteri, equilibri ed identità civica, nonché a ricercare la promozione culturale per personaggi tanto contemporanei (Sant'Ottone, Sant'Elzeario, la Beata Delfina) quanto più antichi (San Liberatore). p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 11.5px 'Times New Roman'; color: #794200}

During the middle ages, belief in God was the single more important principle for every person, and the all-powerful church was the most important institution. It is impossible to understand the medieval world without understanding the religious vision of the time, and this new textbook offers an approach which explores the meaning of this in day-to-day life, as well as the theory behind it. Church and People in the Medieval West gets to the root of belief in the Middle Ages, covering topics including pastoral reform, popular religion, monasticism, heresy and much more, throughout the central middle ages from 900-1200. Suitable for undergraduate courses in medieval history, and those returning to or approaching the subject for the first time.

Aonia edizioni. Il "fenomeno mendicante" ebbe a Napoli un carattere unitario, sia per i tempi e i modi della sua diffusione e dei rapporti che ebbe con la monarchia e con le istituzioni politiche e sociali cittadine, sia soprattutto per come fu percepito dal laicato. Molti devoti si sentirono legati non ad un solo Ordine, ma a tutto il variegato mondo dei frati; il che non impedì che ogni convento si ritagliasse un ruolo suo proprio attraverso il legame organico con il quartiere in cui era inserito. Napoli fu città nella quale la dialettica politico-sociale e vita religiosa erano condizionate dalla presenza della monarchia. Monarchia, nobiltà, ceti popolari: questi i destinatari di un'opera di animazione religiosa multiforme e connotata anche di forti componenti etico-politiche, che i Mendicanti condussero a Napoli attraverso percorsi complessi, seguendo i quali si va al di là dell'ambito

religioso e si penetra nella storia di una città dotata di una identità forte e originale.

Dopo due Convegni dedicati agli insediamenti rupestri di età medievale dove è stato avviato un necessario quanto interessante confronto scientifico tra gli studi dell'Italia centrale e quelli dell'Italia meridionale e insulare, le aree maggiormente interessate dal fenomeno rupestre si è ritenuto utile, con un terzo incontro a cui questo volume si riferisce, focalizzare l'attenzione sul tema dell'acqua, qui volutamente distinto rispetto alle strutture costruite. Tale decisione matura, in primo luogo, dalla necessità di chiarire come il fenomeno rupestre sia parte fondante della ricerca archeologica e non un aspetto accessorio, come troppo spesso è stato ritenuto. Appare qui logico il ruolo fondamentale del rapporto con l'acqua che assume diverse valenze nella sacralizzazione di un luogo, oppure una continuità devozionale mai interrotta che ha proprio nell'acqua il suo elemento caratterizzante. L'importanza di uno studio specifico è ulteriormente accentuata nelle ricerche sui cosiddetti "contesti rurali". L'analisi di uno specifico sistema idraulico caratterizzato da articolati insiemi di canalizzazioni a cielo aperto, cisterne e punti di raccolta che si distribuiscono su più livelli, spesso utilizzando le caratteristiche orografiche dei siti, messo in relazione con elementi di cronologia assoluta trasforma anche questi impianti in indicatori cronologici attendibili. Da qui l'importanza di mettere l'accento sul maggior numero di esempi così da fornire un apporto decisivo all'analisi dei contesti rupestri trasformandoli in complessi storicamente rilevanti. I temi della produttività assumono contorni diversi, a volte promiscui con quelli della quotidianità; invece, negli acquedotti urbani, dove si ha una convivenza tra l'approvvigionamento idrico delle fontane e l'alimentazione delle attività produttive.

In Giacomo Puccini: A Discography, librarian and music historian Roger Flury brings together information on nearly 10,000 recordings of Giacomo Puccini's music. Flury looks at each of Puccini's operas chronologically from *Le Villi* to *Turandot*, followed by sections on Puccini's instrumental, chamber, orchestral, and solo vocal works. Details of each complete opera are listed by recording date, followed by excerpts in the order in which they occur in the opera. Recordings of each aria are listed alphabetically by the name of the artist. For ease of use, Flury establishes as the main criteria for inclusion those recordings assigned a commercial issue number and available for purchase, ensuring that this audio recording history of Puccini is free of gaps.

"This book, written mainly with the non-Italian reader in mind, addresses a central problem in textual criticism...namely, how to try to correctly reconstruct a text of the past so that, even if not identical, it is as close as possible to the lost original, starting from a number of copies more or less full of mistakes; that is to say, how to preserve part of the memory of our past."--Preface, p. [13].

**The Trinitarian Theology of St Thomas Aquinas** Walter de Gruyter GmbH & Co KG

The present volume is a Festschrift in honour of the distinguished Byzantinist Costas N. Constantinides. The title of the volume, *Bibliophilos: Books and Learning in the Byzantine World*, reflects Professor Constantinides' major contribution to the fields of Greek palaeography, editions of Byzantine texts, Byzantine history, scholarship and education, and Cypriot manuscripts and culture. The volume is introduced by a preface and a tabula gratulatoria dedicated to the honorand, followed by twenty articles, written by seasoned and younger scholars, who are former colleagues and students of Professor Constantinides. These articles, which appear in alphabetical order, offer new material and shed fresh light to the study of Greek manuscripts, binders and scribes, and the life, works and activities of Byzantine scholars, teachers and students, providing editions of unpublished texts, including letters and poems, and exploring various aspects of Byzantine and Cypriot history, literature, art, science and culture. In the process the authors often challenge earlier views and offer new interpretations and insights. *Bibliophilos* is a book for the student, teacher and scholar of Byzantium in particular, and for every bibliophile in general.
