*A Complete Concordance to the Bible of the Last Translation ... The Whole Reuiewed, Corrected, and Much Enlarged by Clement Cotton. And Againe Reuieued and Corrected by H. T. TOKYOPOP*  
A behavioral scientist explores love, belongingness, and fulfillment, focusing on how modern technology can both help and hinder our need to connect. A Next Big Idea Club nominee. Millions of people around the world are not getting the physical, emotional, and intellectual intimacy they crave. Through the wonders of modern technology, we are connecting with more people more often than ever before, but are these connections what we long for? Pandemic isolation has made us even more alone. In *Out of Touch*, Professor of Psychology Michelle Drouin investigates what she calls our intimacy famine, exploring love, belongingness, and fulfillment and considering why relationships carried out on technological platforms may leave us starving for physical connection. Drouin puts it this way: when most of our interactions are through social media, we are taking tiny hits of dopamine rather than the huge shots of oxytocin that an intimate in-person relationship would provide. Drouin explains that intimacy is not just sex—although of course sex is an important part of intimacy. But how important? Drouin reports on surveys that millennials (perhaps distracted by constant Tinder-swiping) have less sex than previous generations. She discusses pandemic puppies, professional cuddlers, the importance of touch, “desire discrepancy” in marriage, and the value of friendships. Online dating, she suggests, might give users too many options; and the internet facilitates “infidelity-related behaviors.” Some technological advances will help us develop and maintain intimate relationships—our phones, for example, can be bridges to emotional support. Some, on the other hand, might leave us out of touch. Drouin explores both of these possibilities.

The boy she'd lost, and finally found again, is not the same boy she remembers. As one of the most powerful Sixes, Kale has changed in ways Dez can't ignore. He swore he'd never kill, and now he's out for blood. He swore he'd never harm her, and now he struggles to control his fatal touch. They've been to hell and back, over and over, but this time they might not survive the fire. When the truth at the root of the Denazen Corporation's origins begins to unfold, those behind the scenes will do anything to keep it hidden. Dez and Kale will be pushed to their breaking point. As long buried secrets come to light, they must fight for their freedom—and each other—as they never have before. Kale's destructive power could win the battle, if he doesn't lose himself to it in the process. Or Dez will be faced with an impossible task—saving the world from the boy she loves. The Denazen series is best enjoyed in order. Reading Order: Book #1: Touch Book #1.5: Untouched (novella) Book #2: Toxic Book# 2.5:

Drawing on and responding to the writings of theorists such as Judith Butler, Sara Ahmed, Lauren Berlant, and Lisa Lowe, this book proposes the notion of “precarious intimacies” to navigate a dilemma: how to recognize, affirm, and value love, touch, and care while challenging the racialized and gendered politics in which they are embedded. Twenty-first-century Europe is undergoing dramatic political and economic transformations that produce new forms of transnational contact as well as new regimes of exclusion and economic precarity. These political and economic shifts both circumscribe and enable new possibilities for intimacy. Many European films of the last two decades depict experiences of political and economic vulnerability in narratives of precarious intimacies. In these films, stories of intimacy, sex, love, and friendship are embedded in violence and exclusion, but, as Maria Stehle and Beverly Weber show, the politics of touch and connection also offers avenues to theorize forms of attention and affection that challenge exclusive notions of race, citizenship, and belonging. *Precairous Intimacies* examines the aesthetic strategies that respond to this tension and proposes a politics of interpretation that identifies the potential and possibility of intimacy.

The mid-nineteenth century is a gold mine for contemporary scholars interested in American Protestant ecclesiology. There one will find the extensive writings of John Nevin who came to the notice of the theological world with *The Anxious Bench*, a critique of the "quackery" of Protestant revivalism. Influenced by a critical appropriation of cutting-edge contemporary German theology, he came to believe that the church was not "invisible," but the visible manifestation of Jesus Christ's incarnate life. Christians were to pursue unity, not in external institutional arrangements, but as unity of spiritual life. This compilation presents his theology of the catholicity of the church prior to his masterwork, *The Mystical Presence*, and a multifaceted, sophisticated critique of American sectarianism. This edition carefully preserves the original texts while providing extensive introductions, annotations, and bibliography. The Mercersburg Theology Study Series presents for the first time attractive, readable, scholarly modern editions of the key writings of the nineteenth-century movement known as the Mercersburg Theology. An ambitious multi-year project, it aims to make an important contribution to the academic community and to the broader public, who can at

last be properly introduced to this unique blend of American and European Reformed and Catholic theology.

Unlike the other senses, touch ranges beyond a single sense organ, encompassing not only the skin but also the interior of the body. It mediates almost every aspect of interpersonal relations in antiquity, from the everyday to the erotic, just as it also provides a primary point of contact between the individual and the outside world. The essays in this volume explore the ways in which touch plays a defining role in science, art, philosophy, and medicine, and shapes our understanding of topics ranging from aesthetics and poetics to various religious and ritual practices. Whether we locate the sense of touch on the surface of the skin, within the body or - less tangibly still - within the emotions, the sensory impact of touching raises a broad range of interpretive and phenomenological questions. This is the first volume of its kind to explore the sense of touch in antiquity, bringing a variety of disciplinary approaches to bear on the sense that is usually disregarded as the most base and obvious of the five. In these pages, by contrast, we find in touch a complex and fascinating indicator of the body's relation to object, environment, and self.
