“People who take God seriously will not remain silent about their faith. They will often disagree about doctrine or policy, but they won’t be quiet. They can’t be. They’ll act on what they believe, sometimes at the cost of their reputations and careers. Obviously the common good demands a respect for other people with different beliefs and a willingness to compromise whenever possible. But for Catholics, the common good can never mean muting themselves in public debate on foundational issues of human dignity. Christian faith is always personal but never private. This is why any notion of tolerance that tries to reduce faith to private

idiosyncrasy, or a set of opinions that we can indulge at home but need to be quiet about in public, will always fail.” —From the Introduction Few topics in recent years have ignited as much public debate as the balance between religion and politics. Does religious thought have any place in political discourse? Do religious believers have the right to turn their values into political action? What does it truly mean to have a separation of church and state? The very heart of these important questions is here addressed by one of the leading voices on the topic, Charles J. Chaput, Archbishop of Philadelphia. While American society has ample room for believers and nonbelievers alike,

Chaput argues, our public life must be considered within the context of its Christian roots. American democracy does not ask its citizens to put aside their deeply held moral and religious beliefs for the sake of public policy. In fact, it requires exactly the opposite. As the nation's founders knew very well, people are fallible. The majority of voters, as history has shown again and again, can be uninformed, misinformed, biased, or simply wrong. Thus, to survive, American democracy depends on an engaged citizenry—people of character, including religious believers, fighting for their beliefs in the public square—respectfully but vigorously, and

without apology. Anything less is bad citizenship and a form of theft from the nation's health. Or as the author suggests: Good manners are not an excuse for political cowardice. American Catholics and other persons of goodwill are part of a struggle for our nation's future, says Charles J. Chaput. Our choices, including our political choices, matter. Catholics need to take an active, vocal, and morally consistent role in public debate. We can't claim to personally believe in the sanctity of the human person, and then act in our public policies as if we don't. We can't separate our private convictions from our public actions without diminishing both. In the words of

the author, "How we act works backward on our convictions, making them stronger or smothering them under a snowfall of alibis." Vivid, provocative, clear, and compelling, *Render unto Caesar* is a call to American Catholics to serve the highest ideals of their nation by first living their Catholic faith deeply, authentically.

This is the first thorough English commentary on the geographical books of Pliny the Elder, written in the AD 70s. Pliny's account is the longest in Latin, and represents the geographical knowledge of that era, when the Roman Empire was the dominant force in the

Mediterranean world. The work serves both cultural and ideological functions: much of it is topographical, but it also demonstrates the political need to express a geographical basis for the importance of the Roman state. In five books, Pliny covers the entire world as it was known in his era and includes some of the first information on the extremities of the inhabited region, including Scandinavia and the Baltic, eastern Asia, and sub-Saharan Africa. The commentary provides a detailed analysis of all the points Pliny raises: his sources, toponyms, and understanding of the place of the earth in the cosmos.

A military leader of legendary genius, Caesar was also a great writer, recording the events of his life with incomparable immediacy and power. The Civil War is a tense and gripping depiction of his struggle with Pompey over the leadership of Republican Rome - a conflict that spanned the entire Roman world, from Gaul and Spain to Asia and Africa. Where Caesar's own account leaves off in 48 BC, his lieutenants take up the history, describing the vital battles of Munda, Spain and Thapsus, and the installation of Cleopatra, later Caesar's mistress, as Queen of Egypt. Together these narratives paint a full picture of the events that brought Caesar

supreme power - and paved the way for his assassination only months later.

What would Caligula do? What the worst Roman emperors can teach us about how not to lead If recent history has taught us anything, it's that sometimes the best guide to leadership is the negative example. But that insight is hardly new. Nearly 2,000 years ago, Suetonius wrote Lives of the Caesars, perhaps the greatest negative leadership book of all time. He was ideally suited to write about terrible political leaders; after all, he was also the author of Famous Prostitutes and Words

of Insult, both sadly lost. In *How to Be a Bad Emperor*, Josiah Osgood provides crisp new translations of Suetonius's briskly paced, darkly comic biographies of the Roman emperors Julius Caesar, Tiberius, Caligula, and Nero. Entertaining and shocking, the stories of these ancient anti-role models show how power inflames leaders' worst tendencies, causing almost incalculable damage. Complete with an introduction and the original Latin on facing pages, *How to Be a Bad Emperor* is both a gleeful romp through some of the nastiest bits of Roman history and a perceptive account of leadership gone monstrously awry. We meet Caesar, using his

aunt's funeral to brag about his descent from gods and kings—and hiding his bald head with a comb-over and a laurel crown; Tiberius, neglecting public affairs in favor of wine, perverse sex, tortures, and executions; the insomniac sadist Caligula, flaunting his skill at cruel put-downs; and the matricide Nero, indulging his mania for public performance. In a world bristling with strongmen eager to cast themselves as the Caesars of our day, *How to Be a Bad Emperor* is a delightfully enlightening guide to the dangers of power without character.

It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the

story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our

continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.

Cesar Millan—nationally recognized dog expert—helps you see the world through the

eyes of your dog so you can finally eliminate problem behaviors. From his appearances on *The Oprah Winfrey Show* to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine

companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you're giving him • Why a dog's natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level • There are no "problem breeds," just problem owners • How to

choose a dog who's right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

"A unique and splendidly researched story, following the trials and triumphs of Julius Caesar's Legio X—arguably the most famous legion of its day—from its activation to the slogging battle of Munda and from Thapsus, Caesar's tactical masterpiece, to the grim siege of the Jewish fortress of Masada. More than a

mere unit account, it incorporates the history of Rome and the Roman army at the height of their power and gory glory. Many military historians consider Caesar's legions the world's most efficient infantry before the arrival of gunpowder. This book shows why. Written in readable, popular style, *Caesar's Legion* is a must for military buffs and anyone interested in Roman history at a critical point in European civilization." —T. R. Fehrenbach, author of *This Kind of War*, *Lone Star*, and *Comanches*

Stephen Dando-Collins paints a vivid and definitive portrait of daily life in the Tenth Legion as he follows Caesar and his men along the blood-soaked fringes of the Empire.

This unprecedented regimental history reveals countless previously unknown details about Roman military practices, Caesar's conduct as a commander and his relationships with officers and legionaries, and the daily routine and discipline of the Legion. From penetrating insights into the mind of history's greatest general to a grunt's-eye view of the gruesome realities of war in the Classical Age, this unique and riveting true account sets a new standard of excellence and detail to which all authors of ancient military history will now aspire.

It was the most brutal

corporate restructuring in Wall Street history. The 2015 bankruptcy brawl for the storied casino giant, Caesars Entertainment, pitted brilliant and ruthless private equity legends against the world's most relentless hedge fund wizards. In the tradition of Barbarians at the Gate and The Big Short comes the riveting, multi-dimensional poker game between private equity firms and distressed debt hedge funds that played out from the Vegas Strip to Manhattan boardrooms to Chicago courthouses and even, for a moment, the halls of the United States Congress. On one side: Apollo Global Management and TPG Capital. On the other: the likes of Elliott Management, Oaktree

Capital, and Appaloosa Management. The Caesars bankruptcy put a twist on the old-fashioned casino heist. Through a \$27 billion leveraged buyout and a dizzying string of financial engineering transactions, Apollo and TPG—in the midst of the post-Great Recession slump—had seemingly snatched every prime asset of the company from creditors, with the notable exception of Caesars Palace. But Caesars’ hedge fund lenders and bondholders had scooped up the company’s paper for nickels and dimes. And with their own armies of lawyers and bankers, they were ready to do everything necessary to take back what they believed was theirs—if they could

just stop their own infighting. These modern financiers now dominate the scene in Corporate America as their fight-to-the-death mentality continues to shock workers, politicians, and broader society—and even each other. In *The Caesars Palace Coup*, financial journalists Max Frumes and Sujeet Indap illuminate the brutal tactics of distressed debt mavens—vultures, as they are condemned—in the sale and purchase of even the biggest companies in the world with billions of dollars hanging in the balance. *Caesar's Last Breath* Harmony Outlines an approach to dog training that focuses on discipline and balance, discussing the most

popular training techniques and how to encourage better behavior by using the dog's natural inclinations.

A professor of history and classics describes the actual events of March 15, 44 BC, when Julius Caesar was murdered during the Roman civil wars, and compares them to those outlined by William Shakespeare in his famous play.--

Publisher's description.

Caesar's Rules Univ of California Press

Unraveling the many mysteries surrounding the murder of Julius Caesar The assassination of Julius Caesar is one of the most notorious murders in history. Two thousand years after it occurred, many compelling questions

remain about his death: Was Brutus the hero and Caesar the villain? Did Caesar bring death on himself by planning to make himself king of Rome? Was Mark Antony aware of the plot, and let it go forward? Who wrote Antony's script after Caesar's death? Using historical evidence to sort out these and other puzzling issues, historian and award-winning author Stephen Dando-Collins takes you to the world of ancient Rome and recaptures the drama of Caesar's demise and the chaotic aftermath as the vicious struggle for power between Antony and Octavian unfolded. For the first time, he shows how the religious festivals and customs of the day impacted on the way

the assassination plot unfolded. He shows, too, how the murder was almost avoided at the last moment. A compelling history that is packed with intrigue and written with the pacing of a first-rate mystery, *The Ides* will challenge what you think you know about Julius Caesar and the Roman Empire.

The Christian Church has continually looked to its beginnings to discover new insights and new strength for the present. Today the interest in early Christianity and its leaders is as lively as it ever was. Those who know these early days never tire in calling today's Church back to the Scriptures and the Spirit directed history

of the Church. In this book, Dr. Williams has given the preacher, teacher, and concerned layman a very readable, concise, and helpful guide to the teachings of the early Church leaders. He communicates the exciting quality of Christian theology as it came to expression in the thought and life of men to whom the Christian Church today is greatly in debt, and from whom, with humility, it can continue to learn and find inspirations. The early Church Fathers were concerned, in the words of the Apostle Peter, to make a defense to anyone who called them to account for the hope that was in them. They were concerned, as the Church is today, to understand the faith

for themselves and to explain it to those outside the Church. Their answers to the following problems are still relevant: the relationship of God to all the world, redemption, the Trinity, the person of Christ, the relationship between God's will and man's, and the problem of church and state. Today the Church still possesses the faith that overcomes the world and seeks to practice that faith in all of life. Twentieth century Christians can be strengthened in that possession and practice through an acquaintance with the teachings of the early Church Fathers. This book will guide them. *Caesars* McGraw Hill Professional
The inspirational and

little-known story of welfare mothers in Las Vegas, America's Sin City, who crafted an original response to poverty-from the ground up In Storming Caesars Palace, historian Annelise Orleck tells the compelling story of how a group of welfare mothers built one of this country's most successful antipoverty programs. Declaring "We can do it and do it better," these women proved that poor mothers are the real experts on poverty. In 1972 they founded Operation Life, which was responsible for many firsts for the poor in Las Vegas-the first library, medical center, daycare center, job training, and senior citizen housing. By the late 1970s, Operation Life was bringing

millions of dollars into the community. These women became influential in Washington, DC-respected and listened to by political heavyweights such as Daniel Patrick Moynihan, Ted Kennedy, and Jimmy Carter. Though they lost their funding with the country's move toward conservatism in the 1980s, their struggles and phenomenal triumphs still stand as a critical lesson about what can be achieved when those on welfare chart their own course.

An intellectual adventure through ancient France revealing how Caesar's conquest of Gaul changed the course of

French culture, forever transforming modern Europe. Julius Caesar's conquests in Gaul in the 50s b.c. were bloody, but the cultural revolution they brought in their wake forever transformed the ancient Celtic culture of that country. After Caesar, the Gauls exchanged their tribal quarrels for Roman values and acquired the paraphernalia of civilized urban life. The Romans also left behind a legacy of language, literature, law, government, religion, architecture, and industry. Each chapter of Caesar's Footprints is dedicated to a specific journey of exploration through Roman Gaul. From the amphitheatres of Arles and Nîmes to the battlefield of Châlons (where Flavius Aetius

defeated Attila the Hun), Bijan Omrani—an exciting and authoritative new voice in Roman history—explores archaeological sites, artifacts, and landscapes to reveal how the imprint of Roman culture shaped Celtic France, and thereby helped to create modern Europe. *The Leadership Genius of Julius Caesar*

The Landmark Julius Caesar is the definitive edition of the five works that chronicle the military campaigns of Julius Caesar. Together, these five narratives present a comprehensive picture of military and political developments leading to the collapse of the Roman republic and the advent of the Roman Empire. The Gallic War is Caesar's own account of his two invasions of Britain and of conquering most of what is today France, Belgium, and Switzerland. The Civil War describes the conflict in the following year which, after the death of his chief rival, Pompey, and the defeat of Pompey's heirs and supporters,

resulted in Caesar's emergence as the sole power in Rome. Accompanying Caesar's own commentaries are three short but essential additional works, known to us as the Alexandrian War, the African War, and the Spanish War. These were written by three unknown authors who were clearly eyewitnesses and probably Roman officers. Caesar's clear and direct prose provides a riveting depiction of ancient warfare and, not incidentally, a persuasive portrait for the Roman people (and for us) of Caesar

himself as a brilliant, moderate, and effective leader—an image that was key to his final success. Kurt A. Raaflaub's masterful translation skillfully brings out the clarity and elegance of Caesar's style, and this, together with such Landmark features as maps, detailed annotations, appendices, and illustrations, will provide every reader from lay person to scholar with a rewarding and enjoyable experience. (With 2-color text, maps, and illustrations throughout; web essays available at <http://www.thelandmarkcaesar.com/>)
