#1 NEW YORK TIMES BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Wager* and *The Lost City of Z*, “one of the preeminent adventure and true-crime writers working today.”—*New York Magazine* • NATIONAL BOOK AWARD FINALIST • NOW A MARTIN SCORSESE PICTURE “A shocking whodunit...What more could fans of true-crime thrillers ask?”—*USA Today* “A masterful work of literary journalism crafted with the urgency of a mystery.” —*The Boston Globe* In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann’s latest bestselling book, *The Wager*!

Strategies to Improve Cardiac Arrest Survival Pritz Publishing

The U.S. government supports programs to combat global HIV/AIDS through an initiative that is known as the President's Emergency Plan for AIDS Relief (PEPFAR). This initiative was originally authorized in the U.S. Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 and focused on an emergency response to the HIV/AIDS pandemic to deliver lifesaving care and treatment in low- and middle-income countries (LMICs) with the highest burdens of disease. It was subsequently reauthorized in the Tom Lantos and Henry J. Hyde U.S. Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 (the Lantos-Hyde Act). Evaluation of PEPFAR makes recommendations for improving the U.S. government's bilateral programs as part of the U.S. response to global HIV/AIDS. The overall aim of this evaluation is a forward-looking approach to track and anticipate the evolution of the U.S. response to global HIV to be positioned to inform the ability of the U.S. government to address key issues under consideration at the time of the report release.

"Holly and Aiden broke up? Seriously? No way. Not those two." Dumped. No, not only dumped. Blindsided and dumped. I thought that Aiden McManus was my forever, my soulmate, That was until he told me he was still in love with his ex. I didn't want to believe him. So, I convinced myself that our break-up was because of his upcoming deployment, and not because he didn't love me. Believing that, helped me get through those first months. But after a while, I realized I just might be lying to myself. And it was time to move on... So, I moved on. Or tried to move on, anyway. But that didn't work out so well for me, either. And it practically got me disowned from my family. After that, I finally started to get my life back together, I had everything back under control... ..Or so I thought. Until I found out Aiden was back. And now he's everywhere I turn. Still pushing me away. Telling me he doesn't want me. But every time he calls me Angel or reaches out to touch my cheek, I know what he's not admitting to himself - He still loves me. And I'm going to prove it to him. This is a standalone companion novel.

The Young Survivors Prelude Books

Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance, from the acclaimed journalist who followed the story from the outset. "The tragedies keep coming. As we reel from the latest horror . . ." So begins a new epilogue, illustrating how Columbine became the template for nearly two decades of "spectacle murders." It is a false script, seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we "know" is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene, and spent ten years on this book-widely recognized as the definitive account. With a keen investigative eye and psychological acumen, he draws on mountains of evidence, insight from the world's leading forensic psychologists, and the killers' own words and drawings-several reproduced in a new appendix. Cullen paints raw portraits of two polar opposite killers. They contrast starkly with the flashes of resilience and redemption among the survivors. Expanded with a New Epilogue

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the

national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book’s findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. “A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal* www.broadwaybooks.com

Taxing Profit in a Global Economy F.A. Davis

Continuing the emotional journey of love and betrayal that began on a college campus in *Searching for Moore* and turned their worlds upside down in *Moore to Lose*, handsome, California entrepreneur Schooner Moore and sharp and sassy, New York advertising agency owner Mia Silver continue to be confronted with the harsh reality of the remnants from the lives they lived apart for 24 years. Now, Schooner Moore and Mia Silver face the ultimate challenge - were they really meant to be together or will their pasts continue to tear them apart? On the heels of the birth of their newborn son, Nathaniel, Schooner and Mia must decide if their love and loyalty to one another is strong enough to learn to grow together as a couple or if the life they always dreamed of sharing was better left as a teenage fantasy.

The international tax system is in dire need of reform. It allows multinational companies to shift profits to low tax jurisdictions and thus reduce their global effective tax rates. A major international project, launched in 2013, aimed to fix the system, but failed to seriously analyse the fundamental aims and rationales for the taxation of multinationals' profit, and in particular where profit should be taxed. As this project nears its completion, it is becomingincreasingly clear that the fundamental structural weaknesses in the system will remain. This book, produced by a group of economists and lawyers, adopts a different approach and starts from first principles in order to generate an international tax system fit for the 21st century. This approach examines fundamental issues of principle and practice in the taxation of business profit and the allocation of taxing rights over such profit amongst countries, paying attention to the interests and circumstances of advanced and developing countries. Once this conceptual framework is developed, the book evaluates the existing system and potential reform options against it. A number of reform options are considered, ranging from those requiring marginal change to radically different systems. Some options have been discussed widely. Others, particularly Residual Profit Split systems and a Destination Based Cash-Flow Tax, are more innovative and have been developed at some length and in depth for the first time in this book. Their common feature is that they assign taxing rights partly/fully to the location of relatively immobile factors: shareholders or consumers.

“Amy Webb found her true love after a search that’s both charmingly romantic and relentlessly data-driven. Anyone who uses online dating sites must read her funny, fascinating book.”—Gretchen Rubin, #1 New York Times bestselling author of *The Happiness Project* After yet another disastrous date, Amy Webb was preparing to cancel her JDate membership when epiphany struck: her standards weren’t too high, she just wasn’t approaching the process the right way. Using her gift for data strategy, she found which keywords were digital-man magnets, analyzed photos, and then adjusted her (female) profile to make the most of that intel. Then began the deluge—dozens of men who actually met her own stringent requirements wanted to meet her. Among them: her future husband, now the father of her child.

Summer, 1890. Van Gogh arrives at Auvers-sur-Oise, a bucolic French village that lures city artists to the country. It is here that twenty-year-old Maurguerite Gachet has grown up, attending to her father and brother ever since her mother's death. And it is here that Vincent Van Gogh will spend his last summer, under the care of Doctor Gachet - homeopathic doctor, dilettante painter, and collector. In these last days of his life, Van Gogh will create over 70 paintings, two of them portraits of Marguerite Gachet. But little does he know that, while capturing Marguerite and her garden on canvas, he will also capture her heart. Both a love story and historical novel, *The Last Van Gogh* recreates the final months of Vincent's life - and the tragic relationship between a young girl brimming with hope and an artist teetering on despair.

What if everyone you loved was suddenly taken away? Five siblings struggle to stay together as the tides of war threaten to tear them apart. When Germany invades France in the Second World War, the five Laskowski children lose everything: their home, their Jewish community and most devastatingly their parents who are abducted in the night. There is no safe place left for them to evade the Nazis, but they cling together, never certain when the authorities will come for what is left of them. Inspired by the poignant, true story of the author's mother, this moving historical novel conveys the hardship, the uncertainty and the impossible choices the Laskowski children were forced to make to survive the horrors of the Holocaust. *****PRAISE FOR THE YOUNG SURVIVORS***** 'A haunting account... a devastating story of twins separated, of grandparents, parents and cousins, entire families, disappeared - a story that had to be told.' Elizabeth Fremantle 'A story that will make you weep, wonder and remember.' Tatiana de Rosnay, author of *Sarah's Key* 'A poignant and gripping debut. Set against the darkest days of WWII, the novel reminds us that the bonds of family and the power of love can never be extinguished.' Alyson Richman, bestselling author of *The Lost Wife* 'A heartbreaking yet uplifting story of loss and love told through the eyes of children... gripping and deeply moving.' James MacManus 'A hugely impressive debut.' Michael Newman, CEO of The Association of Jewish Refugees 'A novel that is arrestingly sincere, full of touching moments and informed by careful research. The beating heart of *The Young Survivors* is the author's emotional connection to her characters, which is unmistakably based on longstanding and deep engagement with her own family's past.' Dr Toby Simpson, Director of The Wiener Holocaust Library

Love on the Edge of Time Harper Collins

Cardiac arrest can strike a seemingly healthy individual of any age, race, ethnicity, or gender at any time in any location, often without warning. Cardiac arrest is the third leading cause of death in the United States, following cancer and heart disease. Four out of five cardiac arrests occur in the home, and more than 90 percent of individuals with cardiac arrest die before reaching the hospital. First and foremost, cardiac arrest treatment is a community issue - local resources and personnel must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented now to decrease this time, and recent advances in science could lead to new discoveries in the causes of, and treatments for, cardiac arrest. However, specific barriers must first be addressed. *Strategies to Improve Cardiac Arrest Survival* examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments, strategies, and research that promise to improve the survival and recovery of patients. The recommendations of *Strategies to Improve Cardiac Arrest Survival* provide high-priority actions to advance the field as a whole. This report will help citizens, government agencies, and private industry to improve health outcomes from sudden cardiac arrest across the United States.

The understanding of how to reduce risk factors for mental disorders has expanded remarkably as a result of recent scientific advances. This study, mandated by Congress, reviews those advances in the context of current research and provides a targeted definition of prevention and a conceptual framework that emphasizes risk reduction. Highlighting opportunities for and barriers to interventions, the book draws on successful models for the prevention of cardiovascular disease, injuries, and smoking. In addition, it reviews the risk factors associated with Alzheimer's disease, schizophrenia, alcohol abuse and dependence, depressive disorders, and conduct disorders and evaluates current illustrative prevention programs. The models and examination provide a framework for the design, application, and evaluation of interventions intended to prevent mental disorders and the transfer of knowledge about prevention from research to clinical practice. The book presents a focused research agenda, with recommendations on how to develop effective intervention programs, create a cadre of prevention researchers, and improve coordination among federal agencies.
