The Banquet in Blitva

Baldini & Castoldi
 "Having freed his country
 from foreign oppressors,
 Colonel Kristian
 Barutanski governs Blitva
 with an iron fist. He is
 opposed by Niels Nielsen,
 a melancholy intellectual
 who rails against the
 dictator and the hypocrisy
 and moral bankruptcy of
 society Barutanski
 recognizes in Nielsen a
 genuine foe; yet Nielsen,
 haunted by his own lapses
 of conscience, struggles
 to escape both the regime
 and the role of opposition
 leader thrust upon him.
 He flees to the

neighboring state of
 Blatvia - and finds his new
 country as corrupt and as
 tyrannical as the one he
 called home." --Book
 Jacket.
On the Edge of Reason
 Northwestern University
 Press
 A bilingual collection of
 essays on the aesthetics
 of Gilles Deleuze,
 Discern(e)ments
 highlights what is at stake
 in Deleuzian philosophy of
 art. It traces the reception
 of Deleuzian thought in a
 broad range of disciplines
 and gauges its use-value
 in each of them. Following

the dynamics between structure and becoming that punctuates Deleuzian aesthetics, Discern(e)ments sketches and erases boundaries between methods and traditions in philosophy and art theory, as well as in literary, performance and film studies. Offering both numerous case-studies as well as theoretical outlines, Discern(e)ments engages faculties, disciplines and criticisms not in a mere exchange of points of view, but in heterogenesis mapping out further

discernments in Deleuzian aesthetics.

Katalog MSU Press Opportunities ensures the most effective language learning possible, by focussing specifically on the needs of the secondary school learner, especially those preparing for school-leaving exams.

Focus BrE 3 Student's Book Rodopi

The fragility of health and robustness of imagination merge when a seemingly healthy man's legs collapse suddenly beneath him. Here, Richard Selzer relives his

experiences of Legionnaire's Disease, allowing the reader a glimpse into his delirium as he skates the line between life and death. This Idle Trade Longman Italia Ethics and regulation have become catchwords of the late 1990s, yet relatively little has been written about the ethical discourse and regulation of the legal professions in England and Wales. This book represents the first attempt to subject the ethical discourse of the English legal professions

to in-depth analysis and sustained critique. Drawing on insights from moral philosophy, social theory, the sociology of the legal profession, public law theories of regulation, and the extensive American literature on lawyers' ethics, it argues that, in seeking to provide definitive answers to particular problems of professional conduct, professional legal ethics has failed to deliver an approach which requires lawyers actively to engage with the ethical

issues raised by legal practice. Through an analysis of the core issues facing lawyers, the authors locate this failure in the profession's reliance on a liberal and adversarial role morality that conceptualises the ethical values of human dignity, autonomy and equality in a formalistic and narrowly legalistic manner. This encourages lawyers to overlook the real invasions of these values so often wrought by upholding clients legal rights, and to ignore the competing claims of

affected third parties, the wider community and the environment. In seeking to move beyond critique, the authors develop throughout the book a contextual approach to individual ethical decision-making and outline a range of institutional, regulatory and educational reforms which, they suggest, could form the basis for a more ethical brand of professionalism. *Professional Legal Ethics: Critical Interrogations* is a wide-ranging and thought-provoking analysis written

for lawyers, ethicists and policy-makers interested in this neglected area of professional ethics and regulation.

Professional Legal Ethics

Longman

The textile and fashion industry has undergone rapid progress in recent years. It has become more dynamic and is converging design principles with art. Explored within are topics of extreme significance, such as materials science and engineering, finishing, dyeing, fiber and textile processing,

economics of clothing and textiles, etc. Those in search of information to further their knowledge in this field will be greatly assisted by this text. It will serve as a valuable source of reference for graduate and post graduate students.

Using pagan fiction produced in Greek and Latin during the early Christian era, G. W. Bowersock investigates the complex relationship between "historical" and "fictional" truths. This

relationship preoccupied writers of the second century, a time when apparent fictions about both past and present were proliferating at an astonishing rate and history was being invented all over again. With force and eloquence, Bowersock illuminates social attitudes of this period and persuasively argues that its fiction was influenced by the emerging Christian Gospel narratives. Enthralling in its breadth and enhanced by two erudite appendices, this is a book

that will be warmly welcomed by historians and interpreters of literature. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. have learnt Story spots *Katalog knjiga na jezicima jugoslovenskih naroda, 1868-1972* Stanford University Press The Island of Capri, August 1939. Italy in the grip of Fascism, the Second World War looming. At a dazzling party under the stars mingling aristocrats, Nazi officers and American millionaires, the writer, ladies' man and Fascist loose cannon, Curzio Malaparte (1898-1957) – at that time internationally renowned – is accosted by Mussolini's

secret police: someone has accused him of murder, the killing of a young English girl, a poet, who had mysteriously fallen from a cliff a few years before – a fall that actually did happen. Malaparte decides to go on the run: helped by a few trusted friends (a spendthrift prince, a Camorra man, an eccentric painter and his inseparable dog Febo) he finds himself embroiled in an impossible investigation. Who's trying to frame him? Could it be that SS officer

shadowed by his bloodthirsty Doberman? And what has the terrible (and true) secret hidden in Adolf Hitler's past to do with the plot against him? Struggling to stay a step ahead of the nightmare that's bearing down on him, the writer is forced to live by his wits, depending on a charming girl with unsuspected talents and the providential assistance of an American journalist, the perfect gentleman, destined to head US military intelligence in Europe. The setting: Capri's

landscapes and the house Malaparte is building atop one of the island's most spectacular cliffs. All the while, champagne corks pop, the band plays on, and Europe's high society drifts helplessly to its doom. But Malaparte won't play that game: no passive victim, he's determined to save his skin, like his mind, still painfully scarred by a war hero's wounds from over two decades before. Yet that's by no means all there is to it. Readers will soon find themselves up against far more than a

mere literary fiction: the tale Malaparte is telling covers his entire past life; more than just a novel, he's responding to the challenge of a lifetime. Only at the very end shall we know if he has lived up to it, or failed. Launching Monaldi & Sorti's new masterwork. A FIRST IN ITALY, A FIRST WORLDWIDE

Frog and the Stranger

Amsterdam University Press
 This book focuses on the micro-political implications of the work of Gilles Deleuze (and Félix Guattari). General philosophical articles are coupled to more specific analyses of films (such as *Fight Club* and *Schindler's List*) and other expressions of contemporary culture. The choice of giving specific attention to the analyses of images and sounds is not only related to the fact that audiovisual products are

increasingly dominant in contemporary life, but also to the fact that film culture in itself is changing ("in transition") in capitalist culture. From a marginal place at the periphery of economy and culture at large, audiovisual products (ranging from art to ads) seem to have moved to the centre of the network society, as Manuel Castells calls contemporary society. Typical Deleuzian concepts such as micro-politics, the Body without Organs, becoming-

minoritarian, pragmatics and immanence are explored in their philosophical implications and political force, whether utopian or dystopian. What can we do with Deleuze in contemporary media culture? A recurring issue throughout the book is the relationship between theory and practice, to which several solutions and problems are given.

OXFORD University Press
From the great Croatian writer: a masterly work of literature—hilarious, unforgiving, and utterly reasonable
Until the age of fifty-two, the

protagonist of *On the Edge of Reason* suffered a monotonous existence as a highly respected lawyer. He owned a carriage and wore a top hat. He lived the life of “an orderly good-for-nothing among a whole crowd of neat, gray good-for-nothings.” But, one evening, surrounded by ladies and gentlemen at a party, he hears the Director-General tell a lively anecdote of how he shot four men like dogs for trespassing on his property. In response, our hero blurts out an honest thought. From this

moment, all hell breaks loose. Written in 1938, *On the Edge of Reason* reveals the fundamental chasm between conformity and individuality. As folly piles upon folly, hypocrisy upon hypocrisy, reason itself begins to give way, and the edge between reality and unreality disappears.

Izlet u muzej na mala vrata

University of California Press

This book explains, compares and assesses the legal implications of Dieselgate within a range of selected jurisdictions

and at the EU, international and comparative law level. The book analyses the US EPA-VW \$14.7 billion dollar settlement of 2016, one of the largest civil settlements in the history of environmental law. As it shows, the Dieselgate affair has raised a host of issues concerning corporate and social responsibility, tort liability, environmental liability, contractual defective products, warranty, and false environmental claims in a range of jurisdictions.

Issues like repurchasing or retrofitting cars from consumers and making direct payments to consumers through car buy-backs and compensation are analysed. Further, the book relates how Dieselgate has also contributed to the discussion about the introduction of more effective collective measures of redress for consumers, such as class actions, in Germany, France, Italy and the UK. The book subsequently reviews the criminal

offences Volkswagen is currently confronted with in Germany, France and Italy, i.e. fraud and manipulation of capital markets (by belatedly providing shareholders with essential information relevant for the share value), and, potentially, environmental crimes. It demonstrates how Dieselgate has sparked new debates in Germany, Italy, France and the UK about the need to introduce enterprise liability for organised crimes, lack of compliance and control structures,

and intentional violations of the law. Lastly, the book discusses how EU law has sought to respond to Dieselgate and thus investigates the controversial EU Regulation No. 2016/646 introducing a "temporary conformity factor" of 2.1 (equivalent to a 110% increase on the current limit) to be applied for NOx in the new RDE testing cycle, and the works of the EU committee of inquiry into Emissions Measurements in the Automotive Sector (EMIS).

Longman

What One Man Said to Another is, on one level, a series of extended conversations between friends. On another, it is a spoken autobiography of Richard Selzer, respected surgeon and writer, as recorded by New York artist and writer Peter Josyph. In these pages we learn firsthand of Selzer's life as a surgeon in an isolated village in Korea in the early 1950s; the

unforgettable evening when he saved the life of author John Cheever; his agonizing courtroom experience during a malpractice suit; the ostracism of colleagues as he trained himself, every night for eight years, to become a writer; and his encounters with notable personalities, such as Orson Welles, John Houseman, Richard Ellmann, Josef Albers and even one of Charlie's Angels. The sparkling wit, profound insight, and unique poetic vision that characterize works such

as *Raising the Dead*, *Taking the World in for Repairs*, *Mortal Lessons*, and all of Selzer's writing are present in every one of these lively conversations.

This book reflects the growing influence of corpus linguistics in a variety of areas such as lexicography, translation studies, genre analysis, and language teaching. The book is divided into two sections, the first on

monolingual corpora and the second addressing multilingual corpora. The range of languages covered includes English, French and German, but also Chinese and some of the less widely known and less widely explored central and eastern European language. The chapters discuss: the relationship between methodology and theory; the importance of computers for linking textual segments, providing teaching tools, or translating texts; the significance of training

corpora and human annotation; how corpus linguistic investigations can shed light on social and cultural aspects of

language; Presenting fascinating research in the field, this book will be of interest to academics researching the

applications of corpus linguistics in modern linguistic studies and the applications of corpus linguistics.
