The Center for Vocational
and Technical Education
is developing a system for
acquiring and using
occupational information
effectively in designing
and revising curricula.

This interim report is
offered before completion
of the major project so
that the occupational
information collected
during the development
of the system may be
available for use by
curriculum developers,
instructors, and others
involved in planning and
conducting vocational and
technical programs.

Automotive mechanics
are skilled and highly
trained people in the field
of automotive repair and

maintenance. It is the
purpose of this report to
present the results of the
task inventory analysis
survey conducted by the
project staff in the
automotive mechanics
occupational area.

Tap into Joel Levitt's vast
array of experience and
learn how to improve
almost any aspect of your
maintenance organization
(including your own
abilities)! This new edition
of a classic first educates
readers about the
globalization of
production and the
changing of the guard of
maintenance leadership,
and then gives them real
usable ideas to aid in

these areas. Completely reorganized so that material is presented within the context of major sections, the second edition tells the story of maintenance management in factory settings. It provides coverage of potential problems and new opportunities, what bosses really want, specifics for improvement of maintenance and production, World Class Maintenance Management revisited and revised, quality improvement, complete coverage of current maintenance practices, processes, process aids, interfaces and strategies, as well as personal and personnel development strategies. Contains a specialized glossary so users can more easily understand the specialized language of factory maintenance. Provides specific "how-to" tips and concrete techniques and examples

for continuous improvement. Updates the 20 steps to world class maintenance to include the 6 areas of focus for world class maintenance. Includes a completely updated maintenance evaluation questionnaire that reflects new techniques and technologies. Breaks down and explains the three-team approach to maintenance work. Offers new sections on: managing shutdowns, craft training, and communications. Contains major revisions to the RCM discussion and includes a new discussion about PMO. Introduction Glossary What is the Context for Managing Maintenance? Evaluating Current Maintenance Practices Maintenance Processes Maintenance Process Aids Maintenance Strategies: Approaches to Deterioration Maintenance Interfaces: Where Does Maintenance

Fit In? Personal and Personnel Development
