Baseado em histórias reais e depoimentos verdadeiros, Ilana Casoy traz impressionantes relatos sobre a saúde mental de seis serial killers brasileiros. Um dos casos abordados é o de Chico Picadinho, famoso por esquarterar suas vítimas. Além disso, a obra serve como importante documento para que, assim como em outros países, no Brasil possa ser feita uma análise acurada do motivo, ou falta dele, 'modus operandi', assinatura e reconstrução dos crimes, facilitando a caça a esses assassinos.

The Tale Into The World Of Serial Killer

Createspace Independent Publishing Platform
The entertainment industry is obsessed with true crime stories. From Ted Bundy to the Zodiac Killer and the Night Stalker, Netflix and other streaming platforms have capitalized on these chilling true tales. But what about the other stories of heinous killings? These ten lesser-known true crime stories would make for fascinating docuseries. The cases presented in this book are extreme cases and display to what extent a serial killer can go... Read the stories of little-known serial killers that went beyond the limit of our imagination to perpetrate vile unremorseful murders

in the blink of an eye. The book details ten cases more horrifying one from the other: -The isolated loner who butchered women and scattered their remains across Alaska -The killer who hurled huge stones through his victim's heads -Colombia's most violent serial killer -The police investigator who was secretly a serial killer -The woman who murdered hundreds of adopted babies -A month-long killing spree from the former mental health patient -The letter-writing cannibal of old New York - The killer tried inside an iron cage for the court's protection -A man who earned the trust of tourists and killed them for their money -The man whose hammer and knife

created a campaign of terror

 What drives attractive male cousins to rape and kill ten young women? Why do an altar girl and her boyfriend lure innocent victims into their customised torture van? Couples who kill comprise only twenty per cent of killers, but they often murder serially and are responsible for particularly inhumane deaths. Sadistic friends, psychotic sisters and an increasingly pathological mother-son team are amongst those profiled in this exploration of the world's most deviant duos. There are infamous British cases, such as the Moors Murderers and the Wests, as well as many equally disturbing but less well-known ones. In the third of this series, which focuses on the psychology of murderers, Carol Anne Davis explores the formative influences of these killers and their deadly dynamics. Comprising of thirteen in-depth case studies and exclusive interviews with experts and one of the Wests' surviving victims, "Couples Who Kill" provides an unequalled study of this disturbing subject.

The world has always been fascinated with serial killers. But most of us only know about men who have been involved in serial killing. Does that mean that only men turn into serial killers and woman don't? Absolutely wrong! The truth is that human history has also witnessed a few serial killers who have been women. You will be surprised to know that the list of women serial killers is also not small. We will probably need hundreds of pages to describe the crimes of all female serial killers. Here, we have just picked a few of the women and described how they made it to the worst serial killers list. Without wasting anymore time, let's get started with our list!

 After researching over 160 serial killers for my "Olive Nightmare" series, and accumulating quite a bit of material, I was asked to comment on whether I felt serial killers were born or made(i.e. a product of their environment). I responded that, in my opinion, serial killer's kill out of pure,

volitional choice. This book is a semi-fictional panel discussion of these three views, with real medical research data articles included.

When our hero finds himself in the path of a serial killer, he somehow manages to defend himself, and give the blood-thirsty madman a taste of his own medicine. But when he goes through the dead man's wallet, he finds a mysterious personal ad inviting him to join a party hosted by

Errol Flynn. What begins with passing curiosity soon becomes uncontrollable obsession, as our hero becomes acquainted with 18 killers. Their game: to share the thrill of the hunt and to make sure no two members choose the same two victims. To protect their identities, they have all chosen names of old Hollywood stars, and before long, our hero becomes Douglas Fairbanks, Jr. But he has no intention of following the rules. With a government special agent on his trail who will soon become his partner in crime, "Dougie" plans to knock off the killers one by one, from Carole Lombard to Chuck Norris, to Laurence Olivier and Cher. But what happens when the "stars" notice their numbers dropping? *Crossing to Kill* Indiana University Press

Pioneira no estudo das ciências criminais no Brasil, Ilana já era uma escritora consagrada quando aceitou nosso convite e apostou no escuro com a DarkSide® Books. #Gratidão é pouco. A Caveirinha aprovou, assim como toda legião de DarkSiders. Agora, chegou a hora de renovar os laços com ela, e com você também,

querido leitor. Mais uma vez, Ilana é nossa pioneira, e ARQUIVOS SERIAL KILLERS LIMITED EDITION é o primeiro dos relançamentos comemorativos dos 5 anos da Caveirinha. Os dois livros, SERIAL KILLERS: LOUCO OU CRUEL? e SERIAL KILLERS: MADE IN BRAZIL, reunidos num único volume de luxo, com mais de 700 páginas de investigação. Ilana Casoy é autoridade no que diz respeito a mentes criminosas e resolução de crimes no Brasil. Para escrever LOUCO OU CRUEL?, a escritora mergulhou em arquivos da polícia e da Justiça, do FBI e da Scotland Yard, além de ter feito uma pesquisa rigorosa em diversas outras fontes para compor um inquietante roteiro de como, por que razão e com que métodos os serial killers agem. Em MADE IN BRAZIL, Casoy dedicou-se a investigar os serial killers brasileiros, no que viria a ser o primeiro livro do gênero dedicado aos assassinos em série do Brasil. Foram cinco anos de pesquisas, visitas a arquivos públicos, manicômios e penitenciárias, além de entrevistas cara a cara com personificações do mal em terras tupiniquins,

para produzir um dossiê sobre o lado mais sombrio do ser humano.

Perturbador e por muitas vezes comovente, o relato de Casoy nos apresenta histórias que nem a ficção e o cinema conseguiram imaginar. E isso é só o começo, tem muitas novidades além dos relançamentos. Mas por enquanto é surpresa. Aposto que você já está louco pra saber o que é - a gente conhece bem esse espírito investigador dos fãs da Ilana Casoy. 'To me it was like hunting. Hunting people down.' - Anatoly Onoprienko From perverse acts of cannibalism and dark sexual fantasies to vicious acts motivated by greed and a simple lust for blood, this book reveals the methods and motivations of some of the world's most notorious serial killers, including Juan Corona, Ian Brady & Myra Hindley, Pee Wee Gaskins and Ivan Milat. Discover the true stories behind celebrity murderers whose names have become legend, including Jeffrey Dahmer, Charles Manson, Leonard Lake and Charles Ng, as well as the chilling truth about psychopaths such as Anatoly Onoprienko, whose urge to murder whole families was suppressed by the USSR and has only recently come to light. Whatever the personal stories that emerge from this line-up of twisted individuals, Serial Killers is a compelling testament, and warning, of the potential of human behaviour for true horror and pure evil.

The women who serve as the subjects for this book all share compelling stories. To be considered a serial killer one must kill at least three people, all within proximity to each other in terms of time. The motive is generally the same, from one murder to the next, as is the means by which death is brought about. Most are from North Central New York, living along the Erie Canal in small, isolated, rural communities. A majority of these women were dubbed 'Black Widows', women who murdered multiple husbands-often for profit. Some were called 'Baby Farmers', a title given to women accused of murdering infants. Others were known as 'Angels of Death', those who kill beneath the guise of providing care to the ill and infirmed. There were a few titled 'Avengers', women motivated by revenge and greed. And finally, those whose sanity is questioned, impelled to kill by delusions and paranoia. This is their story...

a nova edição definitiva do best-seller de Ilana Casoy — Serial Killers: Louco ou Cruel? A nova edição possui capa dura e toda a qualidade gráfica que os fãs da Caveira já conhecem. Tudo para atender aos nossos exigentes leitores e para deixar a edição à altura da nossa primeira autora nacional. Ilana Casoy é autoridade no que diz respeito a mentes criminosas e resolução de crimes no Brasil. Para escrever seu primeiro livro, a escritora mergulhou em arquivos da polícia e da Justiça, do FBI e da Scotland Yard, além de ter feito extensas pesquisas em livros e artigos de jornais e revistas para compor um inquietante roteiro de como, por que razão e com que métodos os serial killers agem. Perturbador e por muitas vezes comovente, o relato de Casoy, escrito depois de rigorosa pesquisa em diversas fontes, nos apresenta histórias que nem a ficção e o cinema conseguiram imaginar. A primeira parte de Louco ou Cruel? aborda os serial killers sob diversos aspectos e à luz da Criminologia, do Direito, da Psiquiatria e da Psicologia, e dedica-se a dissecar este universo,

analisando como tudo começa, quem são as vítimas, os aspectos gerais e psicológicos, os mitos e as crenças, o perfil do criminoso, a psicologia investigativa, a análise do local do crime e a encenação/organização da cena. Na segunda parte do livro, Casoy apresenta em detalhes 16 casos de serial killers que chocaram e marcaram o século XX, entre eles Albert Fish, Ed Gein, Ted Bundy, Andrei Chikatilo, Jeffrey Dahmer, Aileen Wuornos e o Zodíaco, cuja identidade segue desconhecida até hoje. Histórias que habitam as entranhas da humanidade e o que ela tem de pior: frieza, perversidade e falta de sensibilidade que acabam por produzir o mal em escalas inimagináveis. BLOOD LUST Darkside Entretenimento LTDA Hospitals are supposed to a place of healing, but wherever Genene Ann Jones worked, a trail of suspicious deaths followed. What makes this killer nurse one of the most sickening serial killers is that she targeted defenseless, innocent babies and children. Hospitals are where people go when they are sick, when they need

medical help, or when they want to check on their health to make sure everything is going well. Nurses, doctors, and other medical staff are protectors that can help others get better, at least that is how it is supposed to be. When children are taken to the hospital, parents are confident that they are putting the lives of their children in the best possible hands for them to get well. What they do not expect is for one of the very people who are supposed to help their child, to hurt them intentionally instead, or even worse, kill them. Death is sometimes a possibility with certain conditions and illnesses, but it isn't usually expected - and even less so when a child dies in a way completely unrelated to the reason they are in the hospital in the first place. When there is confirmation that an intentional overdose of a specific medication was responsible, confusion and fear are quickly replaced by horror and anger. Genevieve Anne Jones (also known as Genevieve Anne Jones Turk), although officially convicted of only one murder and one charge of purposeful injury and harm to a child, is

believed to have killed or injured somewhere between 45 and 60 children and infants. Jones had a habit of putting children in deathly peril so that she could be a hero and save their lives. Unfortunately, she killed many more than she saved. It is often hard to understand why anyone would want to kill another person, much less someone who has taken the Hippocratic Oath to do no harm and works in a field with the sole purpose of helping and saving people. When the victims are children, the crimes become more appalling. When the killer is a mother, confusion grows even more. What makes a nurse who is a mother herself kill young, helpless children? Women commit just 4% of homicides in comparison to men. But this disproportion can make their crimes seem all the more shocking. In this chilling casebook, Al Cimino explores 34 female murderers. We meet 'Angel of Death' Kristen Gilbert who induced multiple cardiac

arrests among her patients while working as a hospital nurse, Enriqueta Martí, the 'Vampire of Barcelona' who killed children to make cosmetics, and many more. These case studies give riveting insight into the lives and motives of women who decided to commit the ultimate transgression. In many of these cases, the women had suffered years of abuse and psychological breakdown before their eventual crimes. Other times their heinous acts seemed to spring from nowhere, with an unpredictability that is haunting.

Have you ever wondered even just for a second what it would be like to hear from a serial killers point of view? Well in *Desire to Kill* you can see exactly what it's like. This story is about a fictional serial killer but you will be on the edge of your seat the entire time.

America's Femme Fatale Allison & Busby

How does a Norwegian farm girl become an infamous American serial killer, responsible for upward of 40 murders? Born in rural Norway in 1859, "Belle" Storset Sorenson Gunness was constantly dealt bad

hands in life—so she decided to take life into her own hands. In *America's Femme Fatale: The Story of Serial Killer Belle Gunness*, Jane Simon Ammeson traces Gunness's path from a poor teenager rejected by a wealthy lover; to a new wife in Chicago, desperate to escape the poverty of her childhood and impatient for a child to love; to an ambitious, widowed landowner in La Porte, Indiana. Ammeson's careful research reveals how the young immigrant slowly turned into one of America's most dangerous serial killers, allegedly murdering husbands, lovers, and children, and, for a price, disposing of inconvenient corpses for others. Ammeson brings this shocking story to life, detailing the suspicious neighbors who were

cowed into silence by Belle's intimidating personality, the culture of orphanages trafficking children and matrimonial agencies, the carnival atmosphere that exploded around the pile of bones found on Gunness's farm, and the sensational reporting that filled newspapers for months. Perfect for true crime fans fascinated by the creation of a sociopathic serial killer, *America's Femme Fatale* will leave you entertained and looking over your shoulder.

This anthology of noir fiction set in São Paulo, Brazil, “might be the strongest entry yet in the long-running and globe-spanning *Akashic Noir* series” (San Francisco Book Review). Once known as the Land of

Mist, São Paulo is now a dense, diverse, and globalized metropolis. It is the most populous city in the Americas, the Portuguese-speaking world, and the southern hemisphere—with some of the worst traffic on the planet. From its gleaming skyscrapers to its historic downtown and its rough, drug-infested outskirts, this unique anthology explores a truly unique city with “a timely feel, giving noir a host of feminine faces” (Kirkus). *São Paulo Noir* includes fourteen brand-new stories by Tony Bellotto, Olivia Maia, Marcelino Freire, Beatriz Bracher & Maria S. Carvalhosa, Fernando Bonassi, Marcelo Rubens Paiva, Marçal Aquino, Jô Soares, Mario Prata, Ferréz, Vanessa Barbara, Ilana Casoy, and Drauzio Varella.
